

ADDENDUM NO. 1

Date: January 13, 2023
Project: Anamosa State Penitentiary
ASP Fire Alarm System Upgrade
DAS RFP 931500-01

QUESTIONS FROM DESIGNERS

- Q1. Are there any existing drawings that can be provided to design companies to help them understand layouts?
- A1. Please see the attachment for drawings.
- Q2. Are all buildings on the map accounted for and are they all part of the Fire Alarm Project?
- A2. Not all buildings are accounted for on the map attached to RFP 931500-01. The buildings to be added are two (2) newer IPI warehouses. A google maps attachment is provided in this addendum for the location of those buildings. Building 16 on the map is to be removed from the project scope. Please see attachment for buildings in scope.
- Q3. Will new fire alarm system be similar to the old strobe and siren system or a voice command system?
- A3. The facility would like to go with the simple horn and strobe system.
- Q4. Can you provide an approximate square footage of building that needs fire alarm replacement?
- A4. Please see the attachment from the facility regarding square footages.

ATTACHMENTS:

1. Attendees to pre-proposal meeting on 1/5/2023 at Anamosa State Penitentiary.
2. Building map and scan.
3. Google Maps picture of added warehouses.
4. Spreadsheet of building square footages.
