

March 28, 2025

To: All Potential Respondents
From: Katelyn Howells, Purchasing Agent
Subject: 005-RFP-1509-2025 Estimating POWAR Flood Ratios

Addendum Two

Please amend the subject RFP as follows:

Section 3 Form and Content of Proposals

3.1.6 The Technical Proposal shall not exceed **fifty (50) pages**. Resumes and reference letters will NOT count toward this page limit.

Please amend the subject RFP to include answers to the following timely received questions:

Q1. What is the technical proposal page limit?

A1. **The Technical Proposal shall not exceed fifty (50) pages. Resumes and reference letters will NOT count toward this page limit.**

Q2. If we demonstrate efficiency and cost saving by performing work for the entire project area (i.e. all 12 defined watersheds), will you consider a single project cost which will be a lower total cost than a summation of the individual project areas?

A2. **No.**

Q3. Section 3.3.2: Lower Grand was not listed within RFP but captured within the pre-proposal conference presentation slides. Should this be part of 3.3.2.9?

A3. **No, it should not be a part of 3.3.2.9. The Lower Grand was accidentally shown on the presentation slides, and should not have been included. There are no cities (or only portions thereof) in the Lower Grand and mostly for that reason the area was not included**

Q4. Section 3.3.2: North Fabius was not listed within RFP but captured within the pre-proposal conference presentation slides. Should this be part of 3.3.2.8?

A4. **No, it should not be a part of 3.3.2.8. The North Fabius was accidentally shown on the presentation slides, and should not have been included. There are no cities (or only portions thereof) in the North Fabius and mostly for that reason the area was not included.**

Please acknowledge receipt of this addendum by signing in the space provided below, and return this letter with your proposal (do not send back separately).

I hereby acknowledge receipt of this addendum.
