

# MEDIOMC27001 Round 2 Q&A

Question Number	Page #	RFP Page(s) and Section Number(s)	Vendor Question	Agency Response
1	46	Attachment F A.07.g	We observed that the SIU staffing requirement aligns with the standard applied to the Agency's comprehensive Medicaid Managed Care Program. While this ratio requirement is appropriate for a comprehensive program encompassing multiple provider types and services, it is not necessary for dental managed care plans, as these plans focus exclusively on dental providers and typically require less extensive staffing. We respectfully request that the Agency consider removing the requirement of 1 FTE per 100,000 members and instead allow each Bidder to propose staffing levels that are appropriately tailored to meet the needs of the dental managed care plan.	No changes will be made at this time.
2		Vendor Security Questionnaire	Where should Attachment K be included in the technical proposal layout?	After further review, Attachment K, Vendor Security Questionnaire (VSQ), submission will not be required until contract is awarded. Once the Letter of Intent to Award is posted, winning Bidder will be requested to submit VSQ to HHS.
3	17	Section 3: 3.1	<p>The RFP language states: Submit one (1) original hard copy of the Proposal. The original hard copy must contain original signatures.</p> <p>Will the State accept electronic signatures as original signatures?</p>	Yes. Electronic signatures are accepted.
