Questions:

- 1) For the answer provided on the survey question, can further clarification be given on the actual boundary you are talking about? The ISD property is all 1 property so that would be a full boundary survey. Or would it be just the boundary of the parking lot space? Or would it be just the eastern side of the parking lot space where the parking lot abuts City property? **A> Boundary survey will only be required for the immediate area impacting the parking lot. See attached for image of parking lot area. The cost for the Boundary Survey should be listed as a separate line item in the design proposal.**
