WORK TOOLS

Capacity rating is with auxiliary cutting edge or teeth with segments installed.

Description	Code	Price
Bucket Pins Only - Less Bucket and Coupler	8550	\$1,195.00

The pins provided are designed and intended for use in installing Deere provided pin-on buckets. Use of the pins to attach any other buckets, couplers, or other attachments may or may not be acceptable, and must be reviewed on a case by case basis to determine if they provide adequate pin engagement and pin retention.

When installing attachments that are heavier than 7075lbs (standard z-bar) or 6000lbs (high lift), it is strongly recommended field kit AT367140 be installed. This field kit allows control over the dump speed and protects the linkage components from damage with large attachments.

Buckets

Capacity rating is with auxiliary cutting edge or teeth with segments installed.
