25	Hockey Speed	Hockey Speed	Hockey Speed by FieldTurf was engineered specifically for field hockey, however, numerous sports can benefit from this all weather system and its uniform, predictable levels of traction. In designing Hockey Speed, we consulted with experts in the hockey world to determine the best characteristics desired for superior play at the elite level. The Hockey Speed product was developed for field hockey by focusing on three key hockey-specific-elements: Superior Ball Control, Easy Stick Movement, and Excellent Traction. Hockey Speed takes field hockey surfacing to a new level of performance, quality, and value. Designed to provide the best playing characteristics of nylon "wet performance" systems, Hockey Speed is more economical and better designed than competing systems. Pad or foam underlayment required and additional cost.	Per Sq. Ft.	\$9.70	9.00%	\$8.83
	FieldTurf Hockey Gold	FieldTurf Hockey Gold	The FieldTurf Hockey Gold System is a revolutionary turf system- designed specifically for the highest levels of field hockey play. It is the industry's premiere field hockey offering. The product is built with the Elliptic fiber- a uniquely engineered filament with the same reliable, built-in durability characteristics that FieldTurf products have become known for. Shaped like a lens, the fiber is texturized through a high heat process to create its crimped effect. Within the water-based and sand-dressed FieldTurf Hockey Gold System, the Elliptic fiber retains its memory to hold its shape, providing a truly uniform and non-directional surface with exceptional durability. Excellent ball performance and low abrasion, better non-directional ball roll and speed than other traditional field hockey turfs, premium hockey performance, water based or sand dressed options for desired performance. Pad or foam underlayment required and additional cost.

103	BSS-1000 ML	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility. 110	Beynon-BSS 100 RE	BSS 100 RE	BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq . Yard	\$ 45.00	9%	\$ 40.95
			1				
111	Beynon-BSS 200 RF	BSS 200 RE	BSS 200 RE The Beynon Sports BSS 200 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two coats of polyurethane structural spray to resurface an existing polyurethane base mat or structural spray track surface. The BSS 200 RE adds structural integrity and a uniform seal layer to protect the existing track base and provides greater wear-ability than only a structural re-spray. The resulting finish is a seamless textured wearing coat that will rejuvenate and extend the life of your track surface. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer. Also available in the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per So . Yard	\$ 55.00	9%	\$ 50.05

related fees. FieldTurf does reserve the right to request reduced remittance of fee on case-by-case mutually agreed upon circumstances.

FieldTurf SOURCEWELL General Pricing Notes:

- 1. Shipping and Freight to Canada, Hawaii, Alaska or other areas outside of the continental US is not included in standard Primary pricing and will be an additional cost based on site location. Additional shipping costs will be based on the cost to transport equipment and materials from the closest US port to the job site. Additional costs may also be added for crew transportation and accommodations to any site outside of the continental US.
- 2. FieldTurf offers financing options for customers who qualify.
- 3. OPTIONAL Pricing (Hot List Pricing): Volume Discounts are available on supply and installation of turf surfacing and related site work on a case-by-case basis and will be discussed with owner and SOURCEWELL to determine an acceptable discount based on the applicable volume.
- 4. Price per unit cost accounts for domestic shipping, use tax, state specific tax and wage rates (Davis Bacon, non-prevailing wages, prevailing wages).
- 5. FieldTurf works with SOURCEWELL to track sales by sending SOURCEWELL copies of quarterly reports on status of administrative fee remittance.
- 6. If site work is required: Alternative Method of Costing covers any product and/or service not covered by catalog pricing, published price list, line-item price list, automated system for pricing, or is a product and /or service due to the projects or applications specifications, conditions and /or requirements that need to be custom designed, developed, manufactured and /or produced to meet the requirements of an individual project or sole source.
- 7. If site work is required: Unit Price Book via RS MEANS estimate will be obtained for projects with site work line items not included in FieldTurf SOURCEWELL product pricing spreadsheet. RS MEANS is self contained and consists of a turn-key solution that includes a complete line-item listing of all the products, supplies, material, equipment, services, accessories and options with their description, specification, terms, conditions and associated pricing for each item, sub-assemblies and/or assemblies. FieldTurf reserves the right to offer a discount to the RS MEANS calculation to account for volume discounts or to stay within standard market pricing.
- 8. FieldTurf maintains the right to add Administrative Management fees to projects that include site work .
- 9. SOURCEWELL Pricing applies to turf fields that are 45,000sf or more. For projects less than 45,000 sf, owner, RS MEANS pricing will be used. Landscaping/Playground product sq. foot pricing applies for a minimum purchase of 5000 sf. For projects that do not meet the minimum requirement, owner, SOURCEWELL will use RS MEANS. Pricing is for track projects over 4000 sy and applies to only standard black or red colors. Custom color track surfacing is available at an increased price per square yard.
- 10. New Construction Sq. foot/yard pricing is for surfacing only. FieldTurf is prepared to offer turn key solutions for the construction of running tracks, courts, and fields through use of Alternative Costing and RS Means. The best value pricing for base or civil work is obtained through these costing methods.

Site work or new construction may include but is not limited to: removal and disposal of existing sports surface, lighting, demolition, excavation, rock base aggregate, top rock, asphalt, concrete, sidewalks, turf shock absorption underlayment such as e-layer or padding, tie in to existing drainage, drainage systems, conduits, fencing, crack repair, asphalt repair, etc. which can be purchased through RS MEANS or Alternative Costing based on the owner's preference.

11.
