Industry Longevity Strategy

United Rentals has executed a long term strategy focused on improving the profitability of our core equipment rental business through revenue growth, margin expansion and operational efficiencies. In particular, we have focused on customer segmentation, customer service differentiation, rate management, fleet management, including size, breadth and diversity of fleet, and operational efficiency which includes investments in technology. This has resulted in over a decade of financial improvement.

In 2020, we expect to continue our disciplined focus on increasing our profitability and return on invested capital. In particular, our strategy calls for:

- A consistently superior standard of service to customers, often provided through a single point of contact; our strong cultures is focused on customers.
- The further optimization of our customer mix and fleet mix, with a dual objective: to enhance our performance in serving our current customer base, and to focus on the accounts and customer types that are best suited to our strategy for profitable growth. We believe these efforts will lead to even better service of our target accounts, primarily large construction and industrial customers, as well as select local contractors. Our fleet team's analyses are aligned with these objectives to identify trends in equipment categories and define action plans that can generate improved returns;

		<p>In 2018, we made notable progress in continuing to build a sustainable future for the benefit of our employees, customers, communities and our planet. At the same time, the size of our company increased substantially, giving us a larger platform for corporate responsibility. Collaboration is also implied in our core values of safety first, a passion for people, visible leadership, customer-driven, absolute integrity, community minded focus, continuous innovation and sustainability;</p> <ul style="list-style-type: none"> • Best-in-class training is one of the most important ways to maximize engagement and retention, and we offer a wide array of training solutions (classroom, hands-on and eLearning) and coaching to our employees. Approximately 1,000 of our employees are also instructors or certified evaluators for these programs; • The implementation of “Lean” management techniques, including kaizen processes focused on continuous improvement. We will continue to implement this program across our branch network, with the objectives of: reducing the cycle time associated with renting our equipment to customers; improving invoice accuracy and service quality; reducing the elapsed time for equipment pickup and delivery; and improving the effectiveness and efficiency of our repair and maintenance operations; and • The continued expansion of our trench safety, power and HVAC, and pump solutions footprint, as well as our tools offering, and the cross-selling of these services throughout our network. We continue to offer specialty rental branches that include HVAC, Trench Safety, Fluid Management, complete portable toilet rental and Tool solutions and invest in fleet to further position United Rentals as a single source provider of total jobsite solutions through our extensive product and service resources and technology offerings.

Line Item	Question	Response *
23	Sales force.	<p>Effectively servicing large national accounts such as Sourcewell requires a team approach. Brad Laws is the Government Accounts Senior Manager and is the quarterback of the state and local government team. Under him are three Government Accounts Managers that will work with the field sales team of 4,400 industry experts. This sales team is supported by branch operations and field personnel across an extensive network of approximately 1,180 branch locations to effectively implement, manage and service an industrial client of Sourcewell's scope.</p> <p>Implementing and rolling out a national contract with Sourcewell requires a concerted effort from many levels of United Rentals' organization beyond the government accounts group. Strategic Account Managers (SAM), Outside & Inside Sales Representatives (OSR & ISR), Branch & Service Managers, Delivery Drivers and Field Service Technicians will continue to maintain current relationships while implementing a new contract in areas where we are already doing business. These levels will be heavily engaged in areas where we do not currently have relationships with Sourcewell's members for contract implementation and service. Current partnerships will be built upon and modeled after.</p>

24	Dealer network or other distribution methods.	<p>Sourcewell benefits from United Rentals owning all of our fleet. The following operating efficiencies help distribute our equipment to your members quickly:</p> <ul style="list-style-type: none"> • Equipment Sharing Among Branches. Each branch within a region can access equipment located elsewhere in the region. This fleet sharing increases equipment utilization because equipment that is idle at one branch can be marketed and rented through other branches. Additionally, fleet sharing allows us to be more disciplined with our capital spend. • Customer Care Center. We have a Customer Care Center ("CCC") with locations in Tampa, Florida and Charlotte, North Carolina that handles all telephone calls to our customer service telephone line, 1-800-UR-RENTS. The CCC handles many of the 1-800-UR-RENTS telephone calls without having to route them to individual branches, and allows us to provide a more uniform quality experience to customers, manage fleet sharing more effectively and free up branch employee time.
25	Service force.	<p>Our branches across the US and Canada are wholly owned by United Rentals and never franchised. They are staffed with a knowledgeable team of Branch Managers, Service Technicians, and Drivers to fulfill Sourcewell's equipment needs. In addition to our field service teams, we have a Government Sales Support Team staffed with dedicated Government account experts to handle any customer requests. Backing them up is the company's extensive customer service team that is available for customer request 24/7/365.</p> <p>Branch Managers: United Rentals' has numerous branch managers to oversee operations at each of our local branches, such as bookings, dispatches and requests for on-site assistance. They can collaborate with other branches in our network, and with our centralized customer service facilities, to ensure fleet availability for Sourcewell. They are also able to train our local personnel so that we service your account in a way that supports Sourcewell's existing and future operations.</p> <p>Maintenance/Service Technicians: United Rentals' has approximately 5300 technicians company-wide that are factory-trained and participate in periodic preventive maintenance refresher courses and manufacturer training. They inspect and service each piece of rental equipment to ensure its safety and operating condition before returning it to the rental-ready fleet.</p>

<p>26</p>	<p>Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.</p>	<p>Customers are given information to reach any of our sales reps, Government Team, or customer service center to place an order or answer any questions. United Rentals tracks our service levels through our Quarterly Scorecard reported to Sourcewell. United Rentals is offering Sourcewell, a quarterly SLA (Service Level Agreement) for the Sourcewell facilities, which will be reported quarterly, and reviewed on a regular basis with Sourcewell management. This SLA reporting will help with improving service levels, availability, and reliability of equipment. This will help with the on-going continuous improvement program.</p> <p>On-Time Delivery Goal</p> <ul style="list-style-type: none"> On-time deliveries to the designated location at the promised delivery time <p>Fulfillment Goals</p> <ul style="list-style-type: none"> 100% of orders fulfilled in accordance with issued purchase order requirements. United Academy leverages technology to avoid training related lost time, and respond quickly when you must. Quality training when you need it.</p> <p>Training is led by a team of certified trainers with years of experience in educating and protecting commercial, industrial and municipal workers and sites. Equipment familiarization and proper training are two very different concepts. Equipment familiarization is provided at no cost upon delivery of each piece of equipment. Proper certified training is per person cost through United Academy. We are providing all Participating Entities discounted United Academy Training. 37	Describe any technological advances that your proposed products or services offer.	<p>United Rentals is the industry leader in every major measurable category within the industry, and reports those results to prove as much. No other organization invests the time, money, and effort to differentiate the level of service provided. United Rentals is truly driven around major industrial clients, and Sourcewell is an ideal fit for the level of service that we provide.</p> <p>Service programs and innovative techniques, combined with the most robust fleet in the industry provide the highest level of equipment quality. These delivery vehicles are tracked and managed using GPS Services to ensure accurate, timely deliveries to Sourcewell. 39	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	<p>We have the ability to track the energy use and GHG emissions of our own facilities, as well as our vehicles transporting equipment and tools to and from jobsites. However, it's far more complex to document the impact of our products once they leave our control and are in the hands of our customers.</p> <p>Through the use of telematics technology, we're beginning to gain insights into how our customers use our products. In the coming years, our goal is to have real-time input on fuel consumption, emissions, safety, and the performance of our tools and equipment on jobsites, and use this data to help our customers utilize our products more efficiently, with a lighter carbon footprint.</p>

In 2019, we had a total recordable incident rate (TRIR) of 0.79, toward a goal of zero.</p> <p>Total Control® is our proprietary software suite that provides customers with a single, transformative solution for equipment productivity. Total Control helps customers manage their equipment fleets in real time through greater visibility and accountability, with the goal of improving the utilization of resources. By reducing downtime and avoiding on-site productivity gaps, Total Control can help a customer cut annual equipment rental costs by up to a third.</p> <p>While United Rentals has always responded to disasters near our locations, in 2018 we began to take a more structured approach to our response. 46	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	<p>United is not the original equipment manufacturer ("OEM") on any of the equipment it rents or sells. United is certified to perform warranty service by many OEMs. Upon acceptance of a warranty claim by the OEM and upon the OEM authorizing United to perform service, United is able to perform warranty service on many OEM's equipment.. We strive to lead our industry in service performance, particularly when it comes to equipment maintenance and readiness for rental. United Rentals invests in our service personnel to ensure that they are up to speed on manufacturer's service requirement with internal or manufacturer sponsored training. 50	Do you provide leasing or financing options, especially those options that schools and governmental entities may need to use in order to make certain acquisitions?	We cannot offer leasing or financing options through United Rentals, however we have experience working with Sourcwell awarded lending and other partners when the customer requests this option.
51	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcwell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcwell participating entities' purchase orders.	<p>Our Government Sales and Service Center (GSSC) will process all orders. Providing a centralized location for all orders, allows consistency and a stronger account knowledge to support the decentralized system of orders submitted by the many end users. Additionally, the end users will have full account visibility through our UR Control System.</p> <p>Customers are able to use the GSSC team to submit orders through phone or email. Our system can be set up to require POs as well through customer request. All participating entities' accounts will be set up with Sourcwell pricing so each rental will at the negotiated rates regardless if the customer or internal order taker remembers to mention the contract. Customers can also go through their local sales representative or branch to place orders.</p> <p>The more time people and departments spend using UR Control®, the more ways they find that it helps their company be better at managing rentals. Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *
53	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Please see our attached pricing spreadsheet. United Rentals is providing a national net pricing structure as you will see on the attached pricing spreadsheet. This is not a percentage discount program. All pricing is NOT TO EXCEED and our sales representatives will be encouraged to provide local market pricing if it happens to be lower than the contract price although this is not a common occurrence.
54	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	United Rentals is providing a national net pricing structure as you will see on the attached pricing spreadsheet. This is not a percentage discount program. All pricing is NOT TO EXCEED and our sales representatives will be encouraged to provide local market pricing if it happens to be lower than the contract price although this is not a common occurrence.
55	Describe any quantity or volume discounts or rebate programs that you offer.	This is a NOT TO EXCEED contract. Customers can negotiate volume pricing locally on a case by case basis.
56	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	As with normal requests, United Rentals will field off-schedule requests through local territory representatives or our Government Customer Care Center. This will enable us to provide first-class service to Sourcewell members through our knowledgeable team. Our philosophy is that no request is unreasonable and will be investigated to the fullest. Our strategy will be to field requests and factor in rental patterns, demands for new technology or advances in equipment efficiencies, and enactment of new legislation, affecting equipment. If we see a spike in a certain category, we will ask Sourcewell to determine if the equipment can be added to our schedule. For Sourcewell members, we would like to propose a NOT TO EXCEED markup of 24% on the total invoice cost from a 3rd Party Rental Vendor.
57	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Installation, set up costs for Specialty equipment rental Solutions United Rentals' proposal includes items for specialty equipment solutions such as installation, set up, mandatory training, or initial inspection, the costs of which will be negotiated at the time of the rental quote. Power and HVAC Services may include power and HVAC system start-up support, installation of low voltage cables, installation of temporary chilled water piping, on-site training for Customer's employees, 24/7 technical assistance and on-site support, and monitoring of selected installing trades. Trench Services may include the engineering, delivery and pickup of the trench/shoring system (the "System"). Scaffolding Services may include the installation and dismantling of scaffolding, including all parts and accessories Portable Restroom Services- Additional fees may be charged for tip-overs, relocation of the units on the same site and vandalism/graffiti. Fluid Solutions may include the design, installation, operation, ongoing maintenance, monitoring, and dismantling of the Fluid Solutions system ("Fluid Solutions Services"). Multiple shift for generators and other power equipment Rental charges accrue during Saturdays, Sundays and Holidays. Rental rates are for normal "one-shift" usage based on an eight (8) hours per day, 40 hours per week and 160 hours per four-week period. On power equipment, operations in excess of one shift will be as follows: one and one-half times the rental charge for double shift and two times the rental charge for triple shift. Refueling Service Charge Customer acknowledges that a "Refueling Service Charge" will be applied to all Equipment not returned with a full tank of fuel. The exact cost of the Refueling Service Charge may

vary depending on the rate being charged by the branch location on the date Customer returns the Equipment. Customer acknowledges that the Refueling Service Charge is not a retail sale of fuel. Customer may avoid the Refueling Service Charge if Customer returns the Equipment with a full tank of fuel.

Tire Repair

Repair or replacement of tires and tubes on Equipment is the responsibility of Customer and is not included in the rental rate.

Environmental Fee

Due to the hazardous nature of some of our waste products, United Rentals charges an Environmental Service Charge on rental invoices for equipment which contains an internal combustion engine, hydraulic oils or similar components. The Charge is 1.84% of the rental charge, with a maximum charge of \$99 per invoice. This charge is not a tax or government mandated fee. We are offering to waive this fee for this new contract in order to provide the participating entities additional new savings.

Additional Fees

Some government entities have special fees, such as the SMM fee in Colorado (Texas and Maryland have similar fees). These fees are setup by local/state government entities, and are charged at the direction of local/state laws. United Rentals passes these fees directly to the customer with no markup. These fees are usually negligible in nature and are included quotes provided by our branches.

Rental Protection Plan

United Rentals offers an OPTIONAL, affordable and smart way to protect your agency from the unforeseen. The plan covers accidental damage or theft of United Rentals equipment. This RPP coverage must be selected prior to delivery of the equipment. Additional details can be requested from your local branch. See attached document for additional information on our RPP program. Non-governmental agencies (non-profits, NGO, etc.) will be required to provide a certificate of insurance in order to opt out of the RPP program.

62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcwell. This process includes ensuring that Sourcwell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcwell.	<p>The United Rentals government team will be available to provide up-to-date information. 63	Identify a proposed administrative fee that you will pay to Sourcwell for facilitating, managing, and promoting the Sourcwell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	United Rentals proposes a 2% administrative fee on all eligible sales and rentals. This represents a 0.25% increase in administrative fees from the current contract.	*

92	Describe maintenance responsibility (e.g., vendor or end user) related to long-term rentals.	<p>You don't have time to mess around. United Rentals understands. From our shop to field mechanics, our teams of professionals perform detailed maintenance to keep the equipment on your site working. United Rentals strives to reduce rental equipment breakdowns through a rigorous quality assurance program. This starts with a thorough preventive maintenance program and rent-ready inspections then followed by a condition report so the equipment we deliver on your site is ready-to-work. Equipment productivity is never left to chance.</p> <p>United Rentals takes a number of Industry Leading steps to ensure all rental equipment performs at its' intended peak by the manufacturer. This is a dynamic and multiple step process. United Rentals' proprietary rental software tracks all owned equipment throughout its' entire life from acquisition to disposal, routes/labels equipment status, and even documents all services/PM's/annuals/and more:</p> <ul style="list-style-type: none"> • An incoming driver denotes any issues noticed on first glance regarding operations, safety, cosmetics, or any damages---notifies the dispatcher/Service Department. • Off-rent equipment that is returned to our facilities are "TRIAGED" to determine if a) can simply go to any factory trained tech or b) must be marked as "hard down" assigning a specialist to handle the process from start to finish. • A trained tech is assigned throughout the process ensuring that all safety devices are intact, general service is performed, standard repairs are made at that time, fluid levels/ changes completed, and 80+ item checklist is completed to verify piece is "Rental Ready." • It's moved to "Rent Ready Status & Ready Line" in branch. • Another check is performed on the equipment at the time of rental/loading. Driver/Yard Associate verifies all safety/ operations are sound • The Driver upon delivery performs a final equipment inspection to ensure proper safe-operations exist. <p>All of this is tracked in a sophisticated electronic system that integrates our Driver handheld units at pickup, to internal service records/scheduling for tech's, to Telematics (GPS) tracking hours to assist in service intervals, to Driver handheld units at delivery. One final manual device is a "rent ready" tag that is initialed by the tech and certifying it is ready for use</p> <p>During the rental, our system estimates use in addition to physical checks and inquiries for hour meter updates. Maintenance steps (requirements) for each category and class of equipment are tracked within our system based on hours, miles and days. Reporting is generated daily for inspection and scheduling purposes. Service and safety bulletins released by manufacturers are loaded centrally and tracked within this same reporting system. We will schedule with Sourcwell to do maintenance during a down time when equipment is on-rent.</p> <p>Customer agrees to check filters, oil, fluid levels and tire air pressure, to clean and visually inspect the equipment daily and to immediately notify United Rentals when equipment needs repair or maintenance. Should the equipment be involved in an accident, become unsafe, malfunction or require repair, customer shall immediately cease using the equipment and immediately notify United Rentals.</p>
----	--	--

93	Describe procedures for repair or replacement of rental equipment that becomes inoperable during the rental period.	<p>We strive to lead our industry in service performance, particularly when it comes to equipment maintenance and readiness for rental. United Rentals invests in our service personnel to ensure that they are up to speed on manufacturer's service requirement with internal or manufacturer sponsored training. We have also invested heavily in resources designed to make our company more efficient in maintaining our equipment to the highest standards. All 1180+ United Rentals locations use the same systems in order to ensure that Preventive Maintenance, ANSI inspections and manufacturer's service bulletins are being completed with integrity per our company procedure. Some of the specific procedures are:</p> <ul style="list-style-type: none"> • Preventive maintenance: PM's are governed by the stricter of two regulatory programs: Either 1) Per manufacturer's recommendation of service requirement or; 2) Perform an inspection inside of 90 days and / or service of the equipment with 250 operating hours. The "Rental Flow" process also tracks pending PM's due for service personnel to monitor. These PM's are performed at our locations as well as at customer locations by qualified field service technicians. • ANSI inspections on aerial equipment, booms and scissors, are required by law. United Rentals has a NO-EXCEPTIONS policy related to ASNI inspections; if a unit does not receive this inspection within a year from its last date, it is taken out of rental service. • Manufacturer's service bulletins are handled as United Rentals is notified, either in our shops or in the field. <p>United Rentals can provide a response to issues within 2 hours and a full resolution to issues within 24 hours to Sourcwell participating entities. In the unlikely event that a problem should arise, Sourcwell simply needs to contact the local branch or the 24-Hour National Account Customer Solution Center to advise them of the issue. United Rentals will then work with Sourcwell to amicably resolve the issue to the parties' mutual satisfaction. To the extent there is a problem with a piece of equipment, United Rentals will deploy one of its factory-trained technicians to perform the repair and/or supply the necessary parts. United Rentals promptly responds to repair and maintenance service calls. Our qualified staff routinely handles situations over the phone to gain instant resolution, or assist in a faster "triage" of the equipment prior to arriving on site. In the event the equipment cannot be repaired on site, United Rentals will replace the equipment as quickly as it can.</p>
94	Explain the procedures and timelines for providing equipment to a vendor or dealer location that does not have a piece of equipment in inventory.	<p>A request for equipment can be made through the Government Sales and Service Center – getting the requested equipment to the member will be handled on a case by case basis and members will be notified of a timeframe of availability and delivery. Re-Rent Policy: Occasionally, equipment that is not in the UR network may be sourced from outside the company. This service is rare due to our fleet size and our ability to share equipment between branches. In order to provide maximum responsiveness for our customers, any equipment that is re-rented will be charged a locally managed mark-up from the inter-company discounted rate and will not be subject to the pricing discount agreement with Sourcwell, but negotiated with the member prior to purchase order award.</p>

95	Describe the extent to which your proposal includes a customer owned equipment repair program. f applicable, describe the types of repair procedures, including transportation, on-site repair, labor and parts costs, or warranty offering.	<p>How you manage your fleet can have a big impact on driving overall worksite performance. And that's why we created a site-specific Fleet Maintenance Management Program to help you maintain-and manage-your owned equipment and site vehicles using the same systems, processes and expertise we apply every day to our more than 14+ billion dollars in fleet.</p> <p>From inspections and repairs to utilization tracking and strategic consulting, our experts can keep your assets ready when you are-and help you get the most from your investment in fleet.</p> <p>Working together, we'll build out a site-specific program that maximizes the benefits based on your site's needs. You focus on running your worksite, while we turn the challenges of managing your fleet into an efficient, hassle-free operation.</p> <p>Primary components of most fleet management solutions include:</p> <ul style="list-style-type: none"> • Maintenance Services • Parts and Material Management • Fleet Systems • Fleet Advisory <p>We'll station a dedicated team of our factory-trained, certified mechanics right on your site. No repair is too complex, and every repair is done with the same level of quality and expertise we use to condition our more than 690K+ unit rental fleet. f we can't service something ourselves, we'll contract the right vendors on your behalf.</p> <p>We will design a parts and material program to meet the immediate needs of critical and non-essential assets while balancing the requirements (and expense!) of stocked parts to that of just-in-time delivery. We have the brands you rely on for every kind of fix, from routine tune-ups to major repair.</p> <p>All labor pricing is included in the attached pricing spreadsheet.</p>
