Interboro has the capability to ship via overnight couriers, for emergency shipments. On those occasions, Interboro could ship an order called in before 4:00 P.M. for next morning 7:30 A.M. delivery. However, the overnight charges are not included in the price and would be added on to the invoice pursuant to the actual cost of an overnight carrier.

Extreme emergency orders could be shipped if an order is called in before 4:45 P.M. for next morning 10:30 A.M. delivery. **Description of the offeror's invoicing procedure including samples copies of sales tickets, deliver tickets, invoices and other related documentation.**

Interboro's procedure for invoicing is very simple, the date the order is shipped the invoice is created and mailed. Upon request, invoices could be faxed. Similarly, the delivery tickets – i.e. bill of ladings ("BOL") – are provided to the common carrier, which thereafter provides the BOL to the end user receiving department upon tendering the shipment at the end user's dock. At that point, the end user would receive an extra copy for its records. Similarly, Interboro provides a copy of the BOL on each pallet, under the stretch wrap, for easy recognition and ease of warehousing.

**Describe the return policy procedures detailing vendor notification, method of return, restocking fees, etc. Explain how credits will be handled.**

Interboro return policy and procedure is very simple. As in this case, Interboro often responds to a Request for Bid or Invitation for Bid by providing samples to the entity conducting the bid process or the end user, for evaluation, testing and approval. Those samples, once approved, establish the product that is being supplied for the various departments ordering through the awarded bid. Those

samples are the benchmark for all tests and future inspections of the liners provided.

Should Interboro deliver any order not meeting the aforementioned benchmark, the end user would notify Interboro of a defect of the delivered order. Interboro would immediately arrange to cover the delivered product by shipping a replacement order from its warehouse facility and pick-up the defective order. There would be an even exchange, whatever amount of cases the end user has in its possession as defective would be exchanged with conforming goods. There would be no charges initiated for the exchange.

However, should the returned goods turn out to be in perfect condition, with no defect and in conformance with the samples Interboro submitted with the bid, as noted that the samples become the benchmark and establishes the product that is being supplied for the various departments, then Interboro would charge The end user for all shipping charges that is associated with the return, the original shipping charge and its return. However, there would be no restocking fees. The same procedure would apply for returning goods ordered by any department, which would contemplate returning an order placed for the wrong item or for any other reason other than a defect in the goods delivered.

Interboro stands behind its product and is accordingly responsible for its performance, and will replace all defected merchandise, and will resolve these and any related problems to the satisfaction of the end user.

In order to prevent defects during shipping Interboro is diligent to secure, properly package for shipment with common carriers. All products are packaged in new shipping containers.
