PRODUCTS

- 1.1 **Product Categories.** The four to eight (4-8) digit United Nations Standard Products and Services Code (**UNSPSC**) for a Product will establish the default classifications. The parties may establish alternative classifications or provide clarifications in **Attachment B**.
- 1.2 **Core.** These are Products that are specifically identified on a "line-item" basis on **Attachment A-1**. The Vendor may add Products to this at any time, however, removals can only occur on an annual basis, unless Products are discontinued and no longer active within Vendor's offering under this or any other agreement due to a manufacturer/supplier. The Vendor must provide written notice to MMCAP Infuse; the notice must have (A) verifiable evidence of the discontinuation; or (B) contact information for the manufacturer/supplier to allow MMCAP Infuse to verify the discontinuation. Once verified, MMCAP Infuse and the Vendor will issue an amendment to remove the Products from Core. Once an addition has occurred, the Vendor must wait one (1) year from each addition date to make further adjustments, unless adjustment is made during the Annual Refresh.
 - A. **Package Size:** All package size offerings for that Product will be considered part of the Core list.
 - B. **"Annual Refresh":** Annually, at a minimum, it is expected that the top fifty percent (50%) (in both unit and dollar volume) of collective Core and Non-Core Products from the previous year will be classified as Core for the applicable upcoming year. MMCAP Infuse will provide Vendor a proposed Core list sixty (60) days in advance. The Vendor may review and appeal items on the list, however the Vendor must provide (i) written justification and supporting evidence; and (ii) alternative product to replace the item on the Core list. MMCAP Infuse will then review and consider the appeal. A final Core list must be approved by both parties within the sixty (60) days, otherwise the previous year's Core list will automatically renew until the parties agree to an updated Core list.
 - i. **Historical Sale History.** If the Vendor has a historical sale history with MMCAP Infuse and/or the Membership, that will be used to create the initial Core list.

- B. **Auditing.** Vendor will perform Pricing audits, matching Pricing information provided by MMCAP Infuse against the Pricing provided by MMCAP Infuse Manufacturers. For clarity, each Customer is a member of MMCAP Infuse, a national cooperative operated by the State of Minnesota, Office of State Procurement. In respects to the Reseller and Customer/Member this Agreement shall be a supplement to contract MMSXXXXX between MMCAP Infuse and Reseller, (the "MMCAP Master Agreement"). This Agreement does not impact the terms and conditions of the MMCAP Master Agreement for the rest of the Membership and/or MMCAP Infuse. Capitalized terms in this Agreement will have the same meaning ascribed to such term under the MMCAP Master Agreement, unless otherwise defined herein.

RECITALS

WHEREAS, Reseller has contracted with CareFusion Solutions, LLC ("CareFusion"), a wholly owned subsidiary of Becton, Dickinson and Company ("BD"), to sell certain medication and supply technologies, including BD's BD Pyxis™ line of dispensing systems and related software ("BD Products") and implementation and support services ("Services") to Customer;

WHEREAS, the specific BD Products and Services being acquired by Customer from Reseller will be set forth in separate a Customer Agreement (as defined in **Section 1** (*Customer Orders*), below) between Customer and Reseller;

WHEREAS, in addition to any applicable purchasing agreement terms in the MMCAP Master Agreement, the BD Products and Services are subject to additional and supplemental terms and conditions reflected in the pass-through terms in this Agreement.

NOW THEREFORE, the Parties agree to the following terms and conditions:

GENERAL TERMS AND CONDITIONS

1. **Customer Orders; Customer Agreements.** Reseller and Customer may enter into various transactions for BD Products and Services, which will be provided pursuant to this Agreement and the MMCAP Master Agreement. The specific BD Products and/or Services for each transaction will be set forth in a separate customer order ("Customer Order") and a Customer Order may have one or more attachments (each, a "Customer Order Attachment"). Each Customer Order will create a separate contract (each, a "Customer Agreement"), each of which will be deemed to incorporate by reference: (i) this Agreement and the MMCAP Master Agreement, (ii) any Schedule attached to this Agreement that is applicable to the BD Products and/or Services provided under such Customer Order, and (iii) any Customer Order Attachments.
2. **Use of the BD Products.** Customer shall Only use BD Products: (i) for Customer's internal business purposes and not for resale; (ii) in the manner described in the applicable user guide provided by BD; and (iii) in accordance with applicable laws and regulations. Customer shall not, export, re-export or modify any BD Product, nor use any software with a product which was not licensed from or approved by BD. Customer consents to BD's right to inspect any Customer record regarding use of BD Products during Customer's regular business hours to verify compliance with the licensing and other terms of Reseller's agreement(s) with BD. BD will provide at least thirty (30) days' notice.
3. **Acceptance; Term Begin Date.** For purposes of the Agreement as related to the BD Products, "Accepted" or "Acceptance" shall mean that (i) the BD Products or Services have been delivered; (ii) as applicable, implementation Services have been completed for such BD Products, (iii) and the BD Products are Properly Performing as defined below. Customer shall execute BD's standard confirmation form, provided that Customer may reject a BD Product if it is not Properly Performing. "Properly Performing" or "Proper Performance" shall mean the BD Product is functioning substantially in accordance with the applicable user, specifications or product guide provided by BD ("User Guide"). "Term Begin Date" shall mean the Term Begin Date set forth in an Implementation Timeline, if any, provided that if no Term Begin Date is set forth in an Implementation Timeline or if there is no Implementation Timeline, then the "Term Begin Date" shall be the first date of the month following the Acceptance of the BD Product.
4. **Data Security and Rights.**
 - a. During the term, BD will maintain a written information security program of policies, procedures and controls governing the processing, storage, transmission and security of Customer Data (as defined below) (the "Security Program"). The Security Program includes industry-standard practices designed to protect Customer Data from accidental or unlawful destruction, loss, alteration, unauthorized disclosure, or access. BD updates the Security Program to address new and evolving security technologies, changes to industry standard practices, and changing security threats, although no such update will materially reduce the commitments, protections or overall level of service provided to Customer as described herein. For purposes of this Agreement, "Customer Data" means data that is created by Customer, or as between Customer and BD, originates with Customer and is stored, transmitted to, or

accessed by BD through a BD Product, as applicable, and “BD Data” means any data relating to or arising from the business operations or plans, services and products of BD or the performance or use of the BD Products or that may aide BD in optimizing resources and support; may be used to improve products or services, may be used in research and development regarding products or services; may be used in verification of security and data integrity of products or services or in resource planning, industry trends, benchmarking, or contract administration (e.g., data used for sales compensation), and any personal data that is aggregated and not identified or identifiable to any individual. For avoidance of doubt, Customer Data includes PHI and personally identifiable information of any member of Customer’s workforce and excludes BD Data.

- b. BD’s information security policies shall be documented and communicated to personnel, contractors, and third parties with access to Customer Data, including appropriate ramifications for non-compliance, and are available at https://cybersecurity.bd.com/?_ga=2.254414920.1133650491.1634222395-1074638392.1514910707.
- c. BD shall perform risk assessments with the objective to regularly test, assess and evaluate the effectiveness of the Security Program supporting the Software. BD shall have the risk program audited annually by an independent third-party in accordance with **Section 3(d)** below.
- d. BD shall use commercially reasonable efforts to establish and maintain sufficient controls to meet certification and attestation for the objectives stated in ISO 27001, ISO 27018, SSAE 18 / SOC 1 and SOC 2 Type 2 (or equivalent standards) for the Security Program supporting the Software. Commencing on January 1, 2023, BD shall, at least once per calendar year, obtain an assessment against such standards and audit methodologies by an independent third-party auditor and, upon request make the executive reports available to the Customer.
- e. Any data center facilities include (1) physical access restrictions and monitoring; and (2) fire detection and fire suppression systems both localized and throughout the data center floor. The systems, machines and devices include (1) physical protection mechanisms; and (2) entry controls to limit physical access.
- f. BD shall use NIST 800-88 industry standard (or substantially equivalent) destruction of sensitive materials, including Customer Data, before such media leaves BD’s data centers for disposition.
- g. BD conducts regular security risk evaluations to identify critical information assets, assess threats to such assets, determine potential vulnerabilities, and provide for remediation. When software vulnerabilities are revealed and addressed by a vendor patch, BD will obtain the patch from the applicable vendor and apply it within an appropriate timeframe in accordance with BD’s then-current vulnerability management and security patch management standard operating procedure and only after such patch is tested and determined to be safe for installation in all production systems.
- h. BD updates antivirus, anti-malware, and anti-spyware software on regular intervals and centrally logs events for effectiveness of such software.
- i. BD uses industry standard encryption to encrypt Customer Data in transit over public networks to the Software.
- j. Software patches are regularly made available to Customers to address known vulnerabilities.
- k. Software shall not contain viruses, malware, worms, date bombs, time bombs, shut-down devices, that may result in, either: (a) any inoperability of the Software; or (b) any interruption, interference with the operation of the Software (collectively, “Illicit Code”). If the Software is found to contain any Illicit Code that adversely affects the performance of the Software or causes a material security risk to Customer Data, BD shall, as Customer’s exclusive remedy, use commercially reasonable efforts to remove the Illicit Code or to advise and assist Customer to remove such Illicit Code.
- l. BD maintains a disaster recovery related plan for BD-hosted Products and Services that is consistent with industry standards for the Software.
- m. BD monitors, analyzes, and responds to security incidents in a timely manner in accordance with BD’s standard operating procedure. BD’s security group will escalate and engage response teams as may be necessary to address a security incident. BD will report to Customer any accidental or unlawful destruction, loss, alteration, unauthorized disclosure of, or access to, Customer Data (a “Breach”) without undue delay following determination by BD that a Breach has occurred. As information is collected or otherwise becomes available, BD shall provide without undue delay any further information regarding the nature and consequences of the Breach to allow Customer to notify relevant parties, including affected individuals, government agencies, and data protection authorities in accordance with data protection laws. Customer will cooperate with BD by providing any information that is reasonably requested by BD to resolve any security incident, including any Breaches, identify its root cause(s), and prevent a recurrence. Customer is solely responsible for determining whether to notify the relevant supervisory or regulatory authorities and impacted parties and for providing such notice.

- n. This **Section 3** does not apply to: (a) information shared with BD that is not Customer Data; (b) data in Customer's VPN or a third-party network; and (c) any data processed by Customer or its users in violation of the Agreement.
- o. BD may access and use Customer Data: (i) only to provide BD Products, Support, and Implementation Services; (ii) to improve BD Products and to develop new BD Products to improve the delivery, quality, or safety of healthcare; (iii) for benchmarking; and (iv) for aggregate analysis. Notwithstanding the foregoing, BD may only use or disclose PHI in accordance with **Section 11**. If Customer Data contains PHI, then BD will use such Data in conformance with the Privacy Rules. For purposes of this Agreement, "PHI" means "protected health information" as defined in 45 CFR §160.103, of any patient of Customer.
5. **Software Sub-License.** For the purpose of this Agreement, "Software" means all BD-owned software (e.g., application software, embedded and/or integrated software, interface software, custom drivers) and any related software owned by a third party ("Third Party Software"). Reseller, as licensee of BD, grants Customer a limited, perpetual, non-exclusive, non-transferable sub-license to use BD Software at Customer's site(s) (as set forth in the applicable Reseller Order) during the applicable term, provided that all licensing of Third Party Software will be subject to **Section 9** of this Agreement. Each sub-license Customer acquires from BD for use of the embedded Software is valid only for use with the particular unit of BD Product, identified by serial number, within which it is embedded. Each sub-license granted to Customer is: (i) perpetual, unless a different license term is expressly set forth in the applicable Customer Agreement under which the Software is licensed to Customer; and (ii) subject to termination pursuant to the terms of this Agreement and/or the MMCAP Master Agreement.

Customer may use Third Party Software only in conjunction with BD Products, and not as a stand-alone product. It will be up to the Disclosing Party (and at their expense) to further protect the information. After ten (10) days, the Receiving Party may disclose the information if required to do so by law. BD's obligations in this paragraph and the exceptions below supersede any obligations of BD or any BD representative contained in any confidentiality agreement or statement executed or acknowledged at the entry of any Customer facility, which agreements or statements are void. For purposes of this Agreement, "Confidential Information" means any confidential or proprietary information of a Party (such as, with respect to Customer, Customer Data, and, with respect to BD, BD Data).

The obligations of this confidentiality section do not apply to information that: (i) was in the public domain or was known to the Receiving Party before the information was received by the Receiving Party; (ii) is developed by the Receiving Party or on its behalf independently of the information disclosed by the Disclosing Party as shown by written record; (iii) is acquired by the Receiving Party from a third party not under an obligation of confidentiality to the Disclosing Party; or (iv) becomes public knowledge without breach by the Receiving Party of any obligations of confidence to the Disclosing Party.

BD DISCLAIMS ALL OTHER WARRANTIES OF ANY KIND OR NATURE, WHETHER EXPRESS, OR IMPLIED, INCLUDING, WITHOUT LIMITATION, ANY QUIET ENJOYMENT, ACCURACY OF DATA, AS WELL AS ANY WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE, OR THE ABSENCE OF ANY DEFECTS THEREIN. IN ADDITION, NO WARRANTY IS MADE BY BD ON THE BASIS OF TRADE USAGE, COURSE OF DEALING OR COURSE OF TRADE.

16. **LIMITATION OF LIABILITY** NEITHER BD NOR CUSTOMER WILL BE LIABLE TO THE OTHER FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR SPECIAL DAMAGES (INCLUDING, WITHOUT LIMITATION LOSS OF BUSINESS OR PROFITS), WHETHER BASED IN CONTRACT, TORT (INCLUDING, WITHOUT LIMITATION, NEGLIGENCE), OR OTHERWISE, EVEN IF A PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THESE LIMITATIONS OF LIABILITY WILL APPLY EVEN IF THERE IS A FAILURE OF THE ESSENTIAL PURPOSE OF ANY LIMITED REMEDY IN THESE PASS-THROUGH TERMS AND CONDITIONS OR ANY CUSTOMER ORDER.

These terms apply to support services (“Support”) for BD Pyxis™ MedStation™ ES System Products, BD Pyxis™ SupplyStation™ Products, BD Pyxis™ IV Prep Products, and BD Pyxis™ Logistics Products (collectively, “Pyxis Products”), as set forth in the applicable Customer Agreement and MMCAP Master Agreement between Reseller and Customer, and solely to those products. The Customer Agreement identifies the Support Program (Comprehensive, Enhanced, or Premier). Distributor’s and BD’s responsibilities for Support of the Pyxis Products will vary according to the chosen Support Program, as set forth below.

1. Support Term. The “Initial Support Term” for a Pyxis Product means the number of months stated in the applicable Customer Agreement, beginning on the Term Begin Date as stated in the applicable Implementation Timeline. If there is no Term Begin Date set forth in an Implementation Timeline, then the Initial Support Term will begin on the first day of the month after the Pyxis Product is Accepted. The Parties may mutually agree to extend the Initial Support Term (any such period beyond the Initial Support Term as set forth in the Customer Agreement shall be an “Extended Term”, and together with the Initial Support Term, the “Support Term”). Either Party may terminate an Extended Term in accordance with the Parties agreement to extend the Support Term, or if not stated, upon no less than thirty (30) days’ prior written notice.

2. Monthly Support Fees and Payment. During the Initial Support Term, the Monthly Support Fee shall be as stated in the applicable Customer Agreement or MMCAP Master Agreement, as applicable, and during each Extended Term the Monthly Support Fee will be mutually agreed upon by the Parties prior to the beginning of such Extended Term (the “Monthly Support Fee”). Customer will pay the Monthly Support Fees on the first business day of each month during the Support Term.

3. General Support. BD shall provide Support, as identified in these terms and set forth in the applicable Customer Agreement. Notwithstanding any contrary Support Plan identified on a Customer Agreement for BD Pyxis™ IV Prep or BD Pyxis™ Logistics Products, only the Comprehensive Support Plan shall be applicable to such Pyxis Products. If Customer at any time fails to pay any Monthly Support Fees for Support, then BD may cease providing such Support upon thirty (30) days’ notice, and cease providing any or all Support to Customer for so long as the fees remain unpaid. Customer shall facilitate BD’s provision of Support, including by (i) using reasonable efforts to cause Users to obtain and maintain reasonable competence in the use of Products, (ii) ensuring that the applicable elements of Customer’s technology environment meet the system requirements specified in the applicable documentation, (iii) properly maintaining each element of Customer’s technology environment, and (iv) discontinuing the use of each element that has reached the end of its useful life. For the avoidance of doubt, BD has no obligation to maintain, repair or replace any element of Customer’s technology environment.

3.1 Properly Performing.

- (a) During the Support Term, BD will provide parts and labor necessary to keep the Pyxis Products and BD-provided interfaces (“Interfaces”) performing in accordance with the material specifications of the applicable User Guide (“Properly Performing”), subject to **Section 7.3**. During any Extended Term, BD will use commercially reasonable efforts to restore the functionality of any Pyxis Product which is not Properly Performing, subject to **Section 7.3**, but will have no obligation to replace Equipment or Software. If, during an Extended Term, BD is unable to restore the functionality of the Pyxis Product, then in its sole determination, BD may elect to terminate the Support Term for such Pyxis Product, effective as of the first day of the month following such determination.
- (b) If the MMCAP Master Agreement terminates or expires before the end of the Initial Support Term or subsequent Extended Term of the Customer Agreement, the Customer Agreement will remain effect through the stated term. The terms and conditions of the MMCAP Master Agreement can be incorporated by the Customer and BD for the purposes of compliance and enforcement of issues not covered in the Customer Agreement.
- (c) If (i) the MMCAP Master Agreement is terminated; or (ii) if the Reseller and Customer do not mutually agree to enter into an Extended Term in accordance with **Section 1**, above, then the, Customer may elect to do the following to obtain Support for the Pyxis Products:
 - (i) **Option 1:** Customer may contact BD’s Technical Support Center to request Support on a time and materials basis, which includes, without limitation, the time and materials reasonably required to trouble shoot, diagnose, and repair the performance issue, at BD’s then-current time and materials rates (“Time and Materials Support”). BD will then invoice Customer for any Time and Materials Support, and Customer will pay any amounts due within thirty (30) days from receipt of such invoice.
 - (ii) **Option 2:** Customer may elect to enter into a new and separate support agreement with BD, subject to Customer’s execution of the applicable contractual documents, including, but not limited to BD’s standard Master Agreement with applicable Schedules and BD’s corresponding Customer Order, subject to BD’s then-current pricing for such Support.

3.2 Technical Support. To obtain technical support, Customer may contact BD's Technical Support Center, by phone at 1.800.727.6102 or online at www.BD.com/css, twenty-four (24) hours a day, seven (7) days a week, each day of the year.

3.3 Remote Issue Resolution. When Customer reports a failure of a Pyxis Product to Properly Perform (an "Issue"), BD will promptly respond to Customer's report. BD will request additional information about the Issue, if needed, will assess the severity of the Issue in consultation with Customer, and will begin work to verify, diagnose and resolve the Issue. If remote support technologies ("RSS") are deployed with the Product, BD will use RSS as appropriate in its work to verify, diagnose and resolve the Issue. Customer will provide high-speed internet access and firewall modifications to enable connectivity to the Pyxis Product via RSS, if applicable. If Customer's system, connectivity, or personnel do not permit RSS on a Pyxis Product, then: (i) any Guaranteed Response Time or Uptime (as defined below) applicable to that Pyxis Product will be void; and (ii) Customer will pay BD on a time and materials basis for any onsite services. Customer will permit BD to install and maintain at Customer's site the applications necessary to allow the deployment of Updates and Upgrades (as defined below) by RSS. Where direct access to equipment is required, Customer will allow BD such access. For applicable Pyxis ES Products, as defined in Section 6.7, BD will provide monitoring of Pyxis ES Product performance via RSS and will notify identified Customer representatives of specific alarms and events where BD has acted either to prevent or correct a service condition.

3.4 On-Site Issue Resolution. If BD determines that on-site service is necessary for proper verification, diagnosis or resolution of an Issue, it will promptly dispatch a field service technician to Customer's facility, or, if BD determines that the Issue does not require immediate attention, it will schedule on-site service for a mutually-agreed date. BD will resolve Equipment Issues by repairing or, as needed, by replacing the Equipment, provided that BD will not be obligated to replace any Equipment during an Extended Term, unless otherwise stated under an agreed upon warranty.

For Software deployed using VM technology, Customer will provide all services for (i) database backup and recovery, (ii) operating system patches, updates and security, and (iii) the performance of the applicable relational database server (e.g., MSSQL) instance for the Pyxis Product(s) as set forth in the Equipment Requirements Schedule.

6.5 Active Directory. For products that support Active Directory capability, Customer will provide integrated Active Directory services and user administration, e.g., passwords, user log-in, etc.

6.6 Data Backup. Where applicable, Customer will implement a network data backup capability that is remote to Pyxis Product(s) and in accordance with guidelines provided by BD.

6.7 Software Patching. Customer will schedule and deploy BD-approved software patches to servers (e.g., operating system, anti-virus, and product patches) for Pyxis Products that operate on the Pyxis ES technology platform ("Pyxis ES Products").

6.8 Peripherals. Customer will provide support for all non-BD provided peripheral products, e.g., mobile devices.

6.9 Consumables. Customer is solely responsible for the replacement or installation of consumables, including but not limited to batteries, paper and toner.

6.10 Additional Services. Any service not specifically identified herein as a component of the Support Plan elected by Customer under the Customer Agreement may be provided by BD under separate agreement between the Parties at then-current time and materials rates for that service.

6.11 Onsite Support. Customer may cancel scheduled onsite Support by delivering notice to TSC no less than two (2) business days prior to the start date. If Customer fails to provide timely notice or interferes with BD's performance of scheduled onsite Support, then the Guaranteed Response Time will not be honored, and the Uptime calculation will not include the Service Case Hours associated with that service call. BD employees and agents ("BD Personnel") shall not handle Customer's medications. Customer must be present and capable of monitoring BD Personnel during any activity involving Pyxis Products in which medications are present. If Customer fails to do so, then Customer will reimburse BD for any expenses related to re-scheduling such activity.

7.1 Outdated Software. BD is not obligated to provide Support, and no Uptime Guarantee or Guaranteed Response Time applies, for a Pyxis Product that is more than three (3) versions older than the then-current version.

7.2 Customer Equipment. BD will not provide Support for products that are not Pyxis Products, including but not limited to Customer's equipment, software and personal peripheral devices (e.g., mobile devices, printers) used in conjunction with the Pyxis Products.

7.3 External Causes. BD is not obligated to perform Support for any part of a Pyxis Product which is not Properly Performing because of: (i) abuse, misuse or vandalism; (ii) unauthorized repairs, including modification, alteration and adjustment; (iii) failure of equipment not supplied by BD; (iii) a computer virus or other disabling code introduced by a source other than BD; (iv) any Support activity that is a Customer obligation as defined in **Section 6** above; or (v) Customer prevents or refuses installation of an Update or Upgrade (collectively, "External Causes"). If Customer requests that BD attempt to correct a problem with a Pyxis Product attributable to an External Cause, then BD will perform repair services on a time and materials basis at BD's then-current rates and prices.

8. Third-Party Applications and Equipment. Support for any software or Equipment sublicensed or resold, as applicable, to Customer by BD will be limited to the support and maintenance provided by that third party, with BD as the primary point of contact for such support and maintenance. If requested by Customer, BD shall serve as liaison between Customer and the applicable third party for support requested by Customer, with such liaison services provided at BD's then-current service rates.

8.1 Codonics SLS Maintenance and Support. Notwithstanding any other term or condition in the Customer Agreement to the contrary, (i) any Codonics SLS product set forth in the Product Schedule attached thereto (each, a "Codonics Product") will not be subject to the terms of this **Schedule 1**; (ii) the warranty set forth under **Section 15(a)** of the General Terms and Conditions of this Agreement will have no application to a Codonics Product; and (iii) warranty and support services for any Codonics Product will be provided by Codonics pursuant to warranty and support information to be delivered by BD with the Codonics Products. BD will have no obligation to provide support services in relation to any Codonics Product.

9. End of Life. BD intends to continue to create new and better technologies, products and services. From time to time, BD may discontinue Products and replace them with one or more of these technologies, products and services. To help Customers identify these transitions and plan for infrastructure adjustments, BD maintains End-of-Sale and End-of-Life policies for all Pyxis Products. BD will, among other things (i) announce the date on which BD will no longer license, lease or sell a Product ("End-of-Sale"), (ii) specify the date on which BD will cease providing Support for the Product ("End-of-Life"), and (iii) identify one or more new technologies or services, or existing Products, that may be suitable replacements for the Product.

10. Services Warranty. BD warrants that its services will be performed by trained individuals in a professional, workman-like manner. BD will promptly re-perform any non-conforming services for no charge if Customer provides reasonably prompt written notice to BD. NO OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY, AND FITNESS FOR A PARTICULAR PURPOSE WILL APPLY. BD may use refurbished parts during service so long as it uses the same quality control procedures as for new parts. Any part for which BD has supplied a replacement shall become BD property.

11. Termination for Cause by BD. Notwithstanding anything to the contrary in the applicable Master Agreement, BD may suspend performance of Support under this Schedule, or cancel one or more Support Terms, upon written notice if Customer: (i) fails to comply with any material term or condition under this Schedule, or fails to make any payment required pursuant to any Customer Agreement for Pyxis Products; and (ii) fails to cure such non-compliance within thirty (30) days (or within ten (10) days for any past due payment) after receipt of such written notice providing full details of such non-compliance.

Minnesota Statutory Procurement Language

1. **Government Data Practices.** Parties to this Agreement must comply with the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13 (Data Practices Act), as it applies to all data created, collected, received, stored, used, maintained, or disseminated by the Vendor under this Agreement. The civil remedies of Minn. Stat. § 13.08 apply to the release of the data governed by the Minnesota Government Practices Act, Minn. Stat. Ch. 13, by either the Vendor or MMCAP Infuse.
 - A. Notification. If the Vendor receives a request to release the data referred to in statute, the Vendor must immediately notify and consult with MMCAP Infuse as to how the Vendor should respond to the request.
 - B. Indemnification. Vendor agrees to indemnify, save, and hold Minnesota, its agent and employees, harmless from all claims arising out of, resulting from, or in any manner attributable to any violation of any provision of the Data Practices Act, including legal fees and disbursements paid or incurred to enforce this provision of the Agreement.
 - C. Release of MMCAP Infuse Data. Except as may be required by Data Practices Act, Vendor will not release to any third party any MMCAP Infuse customer data, sales transaction data, DEA/HIN information, pricing, EDI transaction data, reverse distribution data, or payment data.
2. **Data Disclosure.** Under Minn. Stat. § 270C.65, subd. 3 and other applicable law, the Vendor consents to disclosure of its social security number, federal employer tax identification number, and Minnesota tax identification number, already provided to the MMCAP Infuse, to federal and state agencies, and state personnel involved in the payment of state obligations. These identification numbers may be used in the enforcement of federal and state laws which could result in action requiring the Vendor to file state tax returns, pay delinquent state tax liabilities, if any, or pay other state liabilities.
3. **Non-discrimination.** The Vendor will comply with the provisions of Minn. Stat. § 181.59.
4. **Affirmative Action Requirements.**
 - A. Covered contracts and vendors. If the Agreement exceeds \$100,000 and the Vendor employed more than forty (40) full-time employees on a single working day during the previous twelve (12) months in Minnesota or in the state where it has its principal place of business, then the Vendor must comply with the requirements of Minn. Stat. § 363A.36 and Minn. R. 5000.3400-5000.3600.
 - B. Minn. R. 5000.3400-5000.3600.
 - i. General. Minn. R. 5000.3400-5000.3600 implements Minn. Stat. § 363A.36. These rules include, but are not limited to, criteria for contents, approval, and implementation of affirmative action plans; procedures for issuing certificates of compliance and criteria for determining a Vendor's compliance status; procedures for addressing deficiencies, sanctions, and notice and hearing; annual compliance reports; procedures for compliance review; and contract consequences for non-compliance. The specific criteria for approval or rejection of an affirmative action plan are contained in various provisions of Minn. R. 5000.3400-5000.3600 including, but not limited to, Minn. R. 5000.3420-5000.3500 and 5000.3552-5000.3559.
 - ii. Disabled Workers. The Vendor must comply with the following affirmative action requirements for disabled workers.
 - a. The Vendor must not discriminate against any employee or applicant for employment because of physical or mental disability in regard to any position for which the employee or applicant for employment is qualified. The Vendor agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified disabled persons without discrimination based upon their physical or mental disability in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.
 - b. The Vendor agrees to comply with the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.
 - c. In the event of the Vendor's noncompliance with the requirements of this clause, actions for noncompliance may be taken in accordance with Minn. Stat. § 363A.36, and the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.
 - d. The Vendor agrees to post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the Commissioner. Such notices must state the Vendor's obligation under the law to take affirmative action to employ and advance in employment qualified disabled employees and applicants for employment, and the rights of applicants and employees.
 - e. The Vendor must notify each labor union or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the Vendor is bound by the terms of Minn. Stat. § 363A.36, of the Minnesota Human Rights Act and is committed

to take affirmative action to employ and advance in employment physically and mentally disabled persons.
<https://members.infuse-mn.gov/contract-documents>

- iii. **Consequences.** The consequences for the Vendor's failure to implement its affirmative action plan or make a good faith effort to do so include, but are not limited to, suspension or revocation of a certificate of compliance by the Commissioner, refusal by the Commissioner to approve subsequent plans, and termination of all or part of this Agreement by the Commissioner or Minnesota.
 - iv. **Certification.** The Vendor hereby certifies that it is in compliance with the requirements of Minn. Stat. § 363A.36 and Minn. R. 5000.3400-5000.3600 and is aware of the consequences for noncompliance.
5. **E-Verify certification (In accordance with Minn. Stat. § 16C.075).** For services valued in excess of \$50,000, Vendor certifies that as of the date of services performed on behalf of Minnesota, Vendor and all its subcontractors will have implemented or be in the process of implementing the federal E-Verify Program for all newly hired employees in the United States who will perform work on behalf of Minnesota. Vendor is responsible for collecting all subcontractor certifications and may do so utilizing the E-Verify Subcontractor Certification Form available at <http://www.mmd.admin.state.mn.us/doc/EVERifySubCertForm.doc>. All subcontractor certifications must be kept on file with Vendor and made available to Minnesota upon request.
 6. **Certification of Nondiscrimination (In accordance with Minn. Stat. § 16C.053).** The following term applies to any contract for which the value, including all extensions, is \$50,000 or more: Vendor certifies it does not engage in and has no present plans to engage in discrimination against Israel, or against persons or entities doing business in Israel, when making decisions related to the operation of the Vendor's business. For purposes of this section, "discrimination" includes but is not limited to engaging in refusals to deal, terminating business activities, or other actions that are intended to limit commercial relations with Israel, or persons or entities doing business in Israel, when such actions are taken in a manner that in any way discriminates on the basis of nationality or national origin and is not based on a valid business reason.
 7. **Contingency Fees Prohibited.** Pursuant to Minn. Statute § 10A.06, no person may act as or employ a lobbyist for compensation that is dependent upon the result or outcome of any legislation or administrative action.
 8. **Diverse Spend Reporting.** If the total value of this Agreement may exceed \$500,000 in Minnesota, including all extension options, the Vendor must track and report, on a quarterly basis, the amount paid to diverse businesses both: (A) directly to subcontractors performing under the Agreement, and (B) indirectly to diverse businesses that provide supplies/services to your company (in proportion to the revenue from this Agreement compared to your company's overall revenue). When this applies, you will be set up in a free portal to help report the Tier 2 diverse spend, and the requirement continues as long as the Agreement is in effect.
 9. **Retainage for Minnesota Government Units.** Under Minn. Stat. § 16C.08, subd. 2 (10), no more than ninety percent (90%) of the amount due under this Agreement may be paid until the final product of this Agreement has been reviewed by a Minnesota agency head. The balance due will be paid when the Minnesota agency head determines that the Vendor has satisfactorily fulfilled all the terms of this Agreement.
 10. **Payment to Subcontractors.** To the extent applicable, the Vendor must pay all subcontractors in accordance with Minn. Stat. § 16A.1245.

 <p>CONCORDANCE HEALTHCARE SOLUTIONS</p> <p>85 Shaffer Park Drive Tiffin, OH 44883</p>	<p>Policy Number: CBP17-000-00 Original Issue Date: April 30, 2018</p>	<p>Revision Date: March 9, 2020</p>

If the item is in the system, the Recall Coordinator performs the following steps:

- Scan the recall paperwork and send to information to each Concordance distribution location that has on hand inventory.
 - Each location must check the inventory on hand to verify if any of the recalled lots are in stock.
 - Branch Inventory Control (IC) must respond back to the Recall Coordinator regarding quantity on hand (by lot number if specified).
 - Branch IC must put specific item/lot in a Recall quarantine bin physically and in the system pending instructions for disposition. I.E. return to vendor or destruction.
- Enters the specific item numbers and the applicable time frame into the system for a sales history report showing the customers/ship to locations which have purchased the recalled product.
 - Customer Recall letters should have the customer contact Concordance for disposition of affected products.

In this Amendment, changes to pre-existing Agreement language will use ~~strike through~~ for deletions and underlining for insertions.

Modifications

Revision 1: Line 1.2 of the Agreement has been revised as follows:

- 1.2 **Core.** These are Products that are specifically identified on a "line-item" basis on *Attachment A-1*. The Vendor may add Products to this at any time, however, removals can only occur on ~~an annual basis~~ a six (6) month basis, unless Products are discontinued and no longer active within Vendor's offering under this or any other agreement due to a manufacturer/supplier. The Vendor must provide written notice to MMCAP Infuse; the notice must have (A) verifiable evidence of the discontinuation; or (B) contact information for the manufacturer/supplier to allow MMCAP Infuse to verify the discontinuation. Once verified, MMCAP Infuse and the Vendor will issue an amendment to remove the Products from Core. Once an addition has occurred, the Vendor must wait ~~one (1) year~~ six (6) months from each addition date to make further adjustments, unless adjustment is made during the Annual Refresh.
- A. Package Size: All package size offerings for that Product will be considered part of the Core list.
 - B. "Annual Refresh": Annually, at a minimum, it is expected that the top fifty percent (50%) (in both unit and dollar volume) of collective Core and Non-Core Products from the previous year will be classified as Core for the applicable upcoming year. MMCAP Infuse will provide Vendor a proposed Core list sixty (60) days in advance. The Vendor may review and appeal items on the list, however the Vendor must provide (i) written justification and supporting evidence; and (ii) alternative product to replace the item on the Core list. MMCAP Infuse will then review and consider the appeal. A final Core list must be approved by both parties within the sixty (60) days, otherwise the previous year's Core list will automatically renew until the parties agree to an updated Core list.
 - i. Historical Sale History. If the Vendor has a historical sale history with MMCAP Infuse and/or the Membership, that will be used to create the initial Core list.
 - C. Off-cycle Product Additions: The Vendor may add Products to the Core list at any time with three (3) days' written notice to MMCAP Infuse.
 - D. MMCAP Infuse Products: The Vendor will be prohibited from selling MMCAP Infuse Products and competing equivalent items under the Core category.

Revision 2: Line 2.2 of the Agreement has been revised as follows:

- 2.2 **Core Pricing Structure.** Pricing for Core Products are listed on *Attachment A*. Vendor must hold pricing for Core Products firm for at least ~~one (1) year~~ six (6) months from the Effective Date. Each time pricing is

<https://members.infuse-mn.gov/contract-documents>

changed, the Vendor must wait ~~one (1) year~~ **six (6) months** from each effective change date to amend the pricing again, unless modified during the Annual Refresh.

- A. Required Format: All changes must be done in MMCAP Infuse's required format; an example can be found on *Attachment E, Table 4*.
- B. Package Variations: Per *Paragraph 1.2(A)*, all package sizes for applicable manufacturer and/or Vendor part number will be under the terms of Core Pricing. The Vendor can sell the package sizes at different Pricing, however, "per item" basis must remain consistent.
- C. Price Reductions: After the Effective Date, Vendor may submit to MMCAP Infuse price reductions but must provide at least three (3) days' notice to MMCAP Infuse before they can take effect.
- D. Annual Refresh: During the Annual Refresh (see *Paragraph 1.2(8)*), Vendor may propose price increases for products remaining on Core or being added to Core. The Vendor must provide at least sixty (60) days' written notice for any change to take effect.
- E. Price Increases: Outside the Annual Refresh, price increases will only be accepted with (i) at least ninety (90) days' written notice; (ii) a force majeure condition can be established; and (iii) and is approved by MMCAP Infuse. Except as provided for in this Agreement, no fee, percentage, or other cost may be added to the Products purchased under this Agreement unless it has been approved in writing by MMCAP Infuse. In the event Vendor does not notify MMCAP Infuse of an increase, Vendor must honor chargebacks for the most recent previous Price until such time as MMCAP Infuse receives notice of and approves the increase.
