WOODS®

BATWING® DUAL-WING ROTARY CUTTER

15-foot, Heavy-Duty – BW15.60 — FACTORY ASSEMBLED: WITH DECK RINGS

FEATURES & SPECIFICATIONS:

Recommended tractor hp: 55 – 275 hp
Sloped top, 7-gauge deck
Cat 6 CV PTO drive
Cat 4 wing drives
Swivel clevis hitch
Cut: 4 inches diameter
275 hp splitter gearbox, 225 hp spindle gearboxes
6-year limited gearbox warranty

WARNING: CHAIN SAFETY SHIELDING STANDARD EQUIPMENT. Chain safety shielding must be used for all non-agricultural uses and in areas where the possibility of thrown objects could be hazardous to persons or property. The maximum transport speed for towed and semi-mounted machines is 20 mph (32 KM/H). Regardless of the maximum speed capability of the towing tractor, do not exceed the implement's maximum transport speed.

15' Dual-Wing Batwing Cutter, Factory-Assembled (less wing wheels).
Base Unit includes swivel clevis tongue, wing and lift cylinders, hoses, stroke control kit, deck rings.
MUST CHOOSE FROM SECTIONS 1 & 2 FOR A COMPLETE MACHINE.

WOODS®

BATWING® DUAL-WING ROTARY CUTTER

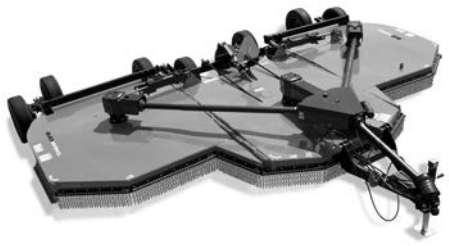
20-foot, Standard-Duty – BW20.50 — FACTORY ASSEMBLED

FEATURES & SPECIFICATIONS:

Recommended tractor hp: 70 – 200 hp
Sloped top, 10-gauge deck
Cat 6 CV PTO drive
Cat 4 wing drives
Clevis hitch
Fully baffled decks
Cut: 2 inches diameter
250 hp splitter gearbox,
120 hp spindle gearboxes
6-year limited gearbox warranty



WARNING: CHAIN SAFETY SHIELDING STANDARD EQUIPMENT. Chain safety shielding must be used for all non-agricultural uses and in areas where the possibility of thrown objects could be hazardous to persons or property. The maximum transport speed for towed and semi-mounted machines is 20 mph (32 KM/H). Regardless of the maximum speed capability of the towing tractor, do not exceed the implement's maximum transport speed.

20' Dual-Wing Batwing Cutter, Factory-Assembled (less wing wheels).
Base Unit includes swivel clevis tongue, wing and lift cylinders, hoses, stroke control kit.

MUST CHOOSE FROM SECTIONS 1 & 2 FOR A COMPLETE MACHINE.

BATWING® SINGLE-WING ROTARY CUTTER

13.5-foot, Extreme-Duty – BW1620X — FACTORY ASSEMBLED: WITH DECK RINGS

FEATURES & SPECIFICATIONS:

Recommended tractor hp: 70 – 300 hp
Sloped top, (2) 10-gauge deck
Cat 6 CV PTO drive; Cat 5 wing drive
Floating linkage on wing lift cylinder
1/4-inch side frame with 12.5-inch depth
Swivel clevis hitch
Fully baffled decks
Hinge pin: 1 inch full length

Cutting height: 2 – 15 inches;
Cutting width: 162 inches
Cut: 4 inches diameter
Transport width: 106 inches
250 hp splitter gearbox,
210 hp spindle gearboxes
6-year limited gearbox warranty

DISCONTINUED

WARNING: CHAIN SAFETY SHIELDING STANDARD EQUIPMENT. Chain safety shielding must be used for all non-agricultural uses and in areas where the possibility of thrown objects could be hazardous to persons or property. The maximum transport speed for towed and semi-mounted machines is 20 mph (32 KM/H). Regardless of the maximum speed capability of the towing tractor, do not exceed the implement's maximum transport speed.

13.5' Single Right Wing Batwing Cutter, Factory-Assembled (less wing wheels).
Base Unit includes swivel clevis tongue, wing and lift cylinders, hoses, stroke control kit, deck rings.
MUST CHOOSE FROM SECTIONS 1 & 2 FOR A COMPLETE MACHINE.

WOODS®

BATWING® DUAL-WING ROTARY CUTTER

20-foot, Extreme-Duty – BW20.70 — FACTORY ASSEMBLED: WITH DECK RINGS

FEATURES & SPECIFICATIONS:

Recommended tractor hp: 70 – 300 hp
Sloped top, (2) 10-gauge deck
Cat 6 CV PTO drive; Cat 5 wing drives
Floating linkage on wing lift cylinders
1/4-inch side frame with 12.5-inch depth
Swivel clevis hitch
Fully baffled decks
Wing hinge pin: 1 inch full length

Cutting height: 2 – 15 inches;
Cutting width: 240 inches
Cut: 4 inches diameter
Transport width: 120 inches
250 hp splitter gearbox,
210 hp spindle gearboxes
6-year limited gearbox warranty

WARNING: CHAIN SAFETY SHIELDING STANDARD EQUIPMENT. Chain safety shielding must be used for all non-agricultural uses and in areas where the possibility of thrown objects could be hazardous to persons or property. The maximum transport speed for towed and semi-mounted machines is 20 mph (32 KM/H). Regardless of the maximum speed capability of the towing tractor, do not exceed the implement's maximum transport speed.

20' Dual-Wing Batwing Cutter, Factory-Assembled (less wing wheels).
Base Unit includes swivel clevis tongue, wing and lift cylinders, hoses, stroke control kit, deck rings.
MUST CHOOSE FROM SECTIONS 1 & 2 FOR A COMPLETE MACHINE.

FLAIL SHREDDERS

Center Drive Flail Shredder with Rear Rock Shaft

FEATURES:

Cutting width: 183 – 327 inches
Cutting height range: 2 – 14 inches
Flail tube diameter: 12.75 inches
Flail tube end bearing: 2.188 inches
Flail tube speed: 1350 revolutions per minute
Knife tip speed: 11,700 feet per minute or 133 miles per hour
Knife Options: 6 mm L-knives, 8 mm HD-Cotton (Duraface) L-knives or 11-inch cup knives
Knife retention: bolt-on (No D-rings)
Knife pattern: spiral
Hood type: smooth, tri-lateral shape
Hood thickness: 0.18-inch
End plate thickness: 0.25-inch
Shielding: rubber belt or steel swing flap*
Hitch type: 3-point, 2-point (Semi-mounted), pull (Pintle)
Wheel arm types: strut (Rigid) or caster
Horsepower requirement: 6 – 8 hp per foot of machine width

Center V-Baffle
PTO speed: 1000 rpm
Driveline Size: Category 6
Gearbox Rating: 300 hp
6-year limited gearbox warranty
Optional Full Wear Plate Liner: Wear panel provides double thickness body at high wear area

1019825	S27CD	Full wear plate liner – 0.18" thick	725	1,358.00

COMPLETING KITS FOR PULL AND LIFT SHREDDERS:

One completing kit must be ordered with each shredder. The completing kit contains the 3-point and 2-point hitches, the PTO shaft and strut or caster arm weldments **(less wheel rims and tires)**. The pull-type completing kits do **not** include the pull-type hitch weldment, part #50520412 (see below to order). These kits also contain the parking stands, ratchet jack, safety lights and related hardware. (20' and larger shredders should have completing kits with 4 struts or 4 casters.)

Part No.	Description		
1019790	Pull-type, 1-3/8" CV PTO with disc clutch, 4 struts, safety lights (Requires 50520412 hitch)	968	$ 8,386.00
1019791	Pull-type, 1-3/8" CV PTO with disc clutch, 2 struts, safety lights (Requires 50520412 hitch)	753	7,363.00
1019792	Pull-type, 1-3/4" CV PTO with disc clutch, 4 struts, safety lights (Requires 50520412 hitch)	968	8,063.00
1019793	Pull-type, 1-3/4" CV PTO with disc clutch, 2 struts, safety lights (Requires 50520412 hitch)	753	7,363.00
1019808	Pull-type, 1-3/4" CV PTO with automatic clutch [2], 4 struts, safety lights (Requires 50520412 hitch)	973	8,373.00
1019794	3-point hitch, 1-3/8" PTO with disc clutch, 4 struts, safety lights	774	6,086.00
1019795	3-point hitch, 1-3/8" PTO with disc clutch, 2 struts, safety lights	559	5,042.00
1019796	3-point hitch, 1-3/4" PTO with disc clutch, 4 struts, safety lights	810	6,106.00
1019812	3-point hitch, 1-3/4" PTO with automatic clutch [2] , 4 struts, safety lights	815	6,180.00
1019797	3-point hitch, 1-3/4" PTO with disc clutch, 2 struts, safety lights	559	4,848.00
1041875	2-point hitch, 1-3/8" PTO with disc clutch, 4 casters, safety lights	TBD	8,205.00
1041876	2-point hitch, 1-3/4" PTO with disc clutch, 4 casters, safety lights	TBD	8,226.00
1041877	2-point hitch, 1-3/8" PTO with disc clutch, 2 casters, safety lights	TBD	6,362.00
1041878	2-point hitch, 1-3/4" PTO with disc clutch, 2 casters, safety lights	TBD	6,362.00
1041879	3-point hitch, 1-3/8" PTO with disc clutch, 4 casters, safety lights	TBD	8,644.00
1041880	3-point hitch, 1-3/4" PTO with disc clutch, 4 casters, safety lights	TBD	8,644.00
1041881	3-point hitch, 1-3/4" PTO with automatic clutch [2], 4 casters, safety lights	0	8,969.00

[2] This kit contains an automatic clutch that disengages at 30,000 in-lbs and doesn't have wear parts or create heat. Only available for 1-3/4-20 PTO's.

NOTE: Extended length PTO shafts are to be used if the horizontal measured distance from the end of the tractor output shaft to the lower link hitch point (including Quick Hitch, if used) exceeds 28". Measure distance with lower 3-point arms in the level or horizontal position. Call Woods® Tech Service for extended length PTO's.

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

Center Drive Flail Shredder with Rear Rock Shaft (Continued)

PULL-TYPE SHREDDERS: Pull-Type Hitch Weldment must be ordered to complete a Pull-Type Shredder.

Part No.	Description	Shipping Wt. (lbs.)	Suggested List Price
50520412	Pull-Type Hitch Weldment (S15CD, S20CD, S22CD, S25CD, S27CD with rear rock shaft only; not for Four Caster Shredders on page FS5)	172	**$ 959.00**

TIRES

FLAIL SHREDDERS

Center Drive Flail Shredder with Four Casters

FEATURES:

Cutting width: 247 – 360 inches
Cutting height range: 2 – 14 inches
Flail tube diameter: 12.75 inches
Flail tube end bearing: 2.188 inches
Flail tube speed: 1350 revolutions per minute
Knife tip speed: 11,700 feet per minute or 133 miles per hour
Knife Options: 6 mm L-knives, 8 mm HD-Cotton (Duraface) L-knives or 11-inch cup knives
Knife retention: bolt-on (No D-rings)
Knife pattern: spiral
Hood type: smooth, tri-lateral shape
Hood thickness: 0.18-inch
End plate thickness: 0.25-inch
Shielding: rubber belt or steel swing flap*
Hitch type: 3-point, 2-point (Semi-mounted), pull (Pintle)
Wheel arm types: strut (Rigid) or caster
Horsepower requirement: 6 – 8 hp per foot of machine width
End tow standard

Center V-Baffle
PTO speed: 1000 rpm
Driveline Size: Category 6
Gearbox Rating: 300 hp
6-year limited gearbox warranty
Optional Full Wear Plate Liner: Wear panel provides double thickness body at high wear area

OPTIONAL FULL WEAR PLATE LINER – KIT FOR FIELD INSTALLATION

Part No.	Used On	Description	Shipping Wt. (lbs.)	Suggested List Price
1019822	S20CD	Full wear plate liner – 0.18" thick	285	$ 951.00
1019823	S22CD	Full wear plate liner – 0.18" thick	595	1,049.00
1019824	S25CD	Full wear plate liner – 0.18" thick	660	1,069.00
1019825	S27CD	Full wear plate liner – 0.18" thick	725	1,358.00

COMPLETING KITS FOR PULL AND LIFT SHREDDERS:

One completing kit must be ordered with each shredder. The completing kit contains the 3-point and 2-point hitches, the PTO shaft and strut or caster arm weldments **(less wheel rims and tires)**. These kits also contain the parking stands, ratchet jack, safety lights and related hardware. (20' and larger shredders should have completing kits with 4 struts or 4 casters.)

Part No.	Description		
1041883	Pull-type, 1-3/4" CV PTO with disc clutch, 4 casters, safety lights (Pull-type hitch included)	TBD	$ 18,015.00
1041884	3-point hitch, 1-3/4" PTO with disc clutch, 4 casters, safety lights	1866	16,272.00
1041886	3-point hitch, 1-3/4" PTO with automatic clutch [2], 2 front casters and 2 rear casters, safety lights, includes end tow kit	1919	16,272.00
1041885	Pull-type, 1-3/4" CV PTO with automatic clutch [2], 2 front casters and 2 rear casters locked in position, safety lights, includes end tow kit (Pull-type hitch included)	2012	18,367.00

[2] This kit contains an automatic clutch that disengages at 30,000 in-lbs and doesn't have wear parts or create heat. Only available for 1-3/4-20 PTO's.

NOTE: Extended length PTO shafts are to be used if the horizontal measured distance from the end of the tractor output shaft to the lower link hitch point (including Quick Hitch, if used) exceeds 28". Measure distance with lower 3-point arms in the level or horizontal position. Call Woods® Tech Service for extended length PTO's.

REAR-MOUNT, REAR DISCHARGE FINISH MOWERS

Standard-Duty Finish Mowers – RDC54, RD60, RD72

FEATURES:

- Limited Category 1, 3-point hitch (RDC54) for subcompact tractors
- Category 1, 3-point hitch (RD60 & RD72)
- Quick Hitch compatible (RD60 & RD72)
- 54-, 60- & 72-inch cutting width, each with 3 blade spindles
- 540 PTO drive with "B" section **Kevlar®** V-belt driven spindles with automatic tension adjustment
- Safety shielded Category 3 driveline
- Blade tip speed: 16,200 fpm (RDC54), 18,030 fpm (RD60), 18,000 fpm (RD72)
- Optional chain shielding attaches and detaches easily — EXCLUSIVE FEATURE
- Rear box deck frame design for increased deck strength — EXCLUSIVE FEATURE
- Height control: 1 – 4-1/2 inches
- Round front corners
- Tapered deck design — EXCLUSIVE FEATURE
- Recommended tractor horsepower: 15 – 25 hp (RDC54), 25 – 35 hp (RD60 & RD72)
- Gearbox horsepower rating: 25 hp (RDC54), 35 hp (RD60 & RD72)
- Limited gearbox warranty: 3-year residential, 1-year commercial

CAUTION: V models listed below pass all applicable safety standards for thrown object and blade contact. However, if the unit will be used in areas where the possibility of thrown objects could be hazardous to persons or property, it is strongly recommended that optional chain shielding (W models) be used for extra protection.

NOTE: All augers are for 2-inch outside diameter output shafts, retained by two 1/2-inch bolts 90 degrees apart for better power transfer.

RECOMMENDED AUGER USES

Standard-Duty Augers: lighter soils free of stones, roots, etc.

Heavy-Duty Double Flight Augers: loose soils that flow, such as sand or gravel – help carry soil to the surface.

CULTIPACKERS

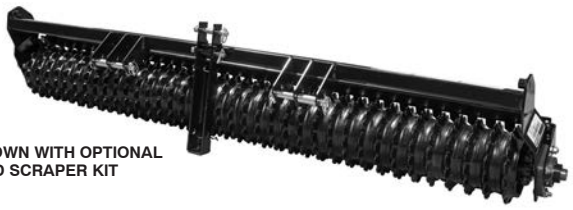
C Series

C48T FEATURES & SPECIFICATIONS:

Tractor Engine Horsepower: up to 30 hp
Hitch Type: 2” ball pull-type
Axle Size: 0.75”
Cultipacker Wheel Diameter: 9.5”
Cultipacker Wheel Quantity: 21
Greasable, triple-sealed bearings for long product life
Tow kit standard
Weight rack standard

C72/C84 FEATURES & SPECIFICATIONS:

Tractor Engine Horsepower: 20 – 75 hp
Hitch Type: 3-point Category 1 & 2
Axle Size: 0.75”
Cultipacker Wheel Diameter: 9.5”
Cultipacker Wheel Quantity: C72 = 32, C84 = 37
Greasable, triple-sealed bearings for long product life
Tow kit optional
Parking stand standard
Mud scrapers optional



SHOWN WITH OPTIONAL MUD SCRAPER KIT

SECTION 1: FRAME AND WIDTH (Factory-Installed – MUST Choose One)

QUICK HITCHES

TQH1, TQH2

TQH1 FEATURES & SPECIFICATIONS:

Width: 27-1/4”
Color: Black
Weight: 75 lbs.
Heavy-duty steel construction
For Category 1 tractors with 3-point hitch
Adjustable top link ball bracket
7/8” mounting pins and adapter bushings
Lower arms lock automatically
Allows fast, easy attachment and release of implements
Designed to ASABE Quick Hitch standard

TQH2 FEATURES & SPECIFICATIONS:

Width: 32-3/4”
Color: Black
Weight: 170 lbs.
Heavy-duty steel construction
For Category 2 tractors with 3-point hitch
1-1/8” mounting pins and adapter bushings
Lower arms lock automatically
Allows fast, easy attachment and release of implements
Designed to ASABE Quick Hitch standard

Model No.	Part No.	Description	Shipping Wt. (lbs.)	Suggested List Price
TQH1	**1023325**	Quick Hitch, Category 1 (fits most tractors)	79	**$ 353.00**

STUMP GRINDERS

PTO-Powered – TSG50

FEATURES:

Category 1, 3-point hitch mount standard; Category 2 optional
Suitable for tractors with 15 – 50 PTO horsepower
24 carbide steel teeth on 20-inch diameter wheel
Bi-directional cutting for increased productivity
16-inch above ground clearance
16-inch cutting depth
32-inch horizontal cutting width
Multiple options for remote hydraulic cylinder actuation
Hub torque rating of 76 – 250 ft-lbs
1,037 rpm cutter wheel speed
5,428 fpm cutter tip speed
6-year gearbox warranty

Model No.	Part No.	Description	Shipping Wt. (lbs.)	Suggested List Price
TSG50	**1018310**	Stump Grinder (less hydraulics)	520	**$ 5,856.00**

1024682	Hose Kit for Multiple Port Tractor Auxiliary Valve	9	**$ 298.00**
1021809	Hose & Selector Valve Kit for Single Port Tractor Auxiliary Valve (Includes mounting stand)	43	**1,163.00**
1021822	Hose & Electric Solenoid Valve Kit for Single Port Tractor Auxiliary Valve	21	**2,058.00**

NOTE: All hose kits include restrictor fittings for improved motion control.

ACCESSORIES

1023325	TQH1 Category 1 Quick Hitch (Includes bushings)	79	**$ 353.00**
S14114400	ASABE Category 1 Quick Hitch Bushing Kit	4	**25.00**
30006	Category 2 Mounting Pin (Order 2)	2	▲
1024749	Replacement Tooth Kit (24 teeth and nuts)	10	▲

STUMP GRINDERS

PTO-Powered – SG100

FEATURES:

Category 1 & 2
PTO driven, 50 – 100 hp tractors
25 tough carbide steel teeth on 34-inch cutting wheel
Hydraulic cylinder raises and lowers unit up to 16 inches
55-degree swing arc handles stumps up to 45 inches in diameter in single pass
Slim design and long reach operates in tight places
One directional cutting allows more teeth to engage the stump
Operated from the tractor seat
Hub torque rating of 450 ft-lbs
895 rpm cutter wheel speed

WOODS®

LOG SPLITTER

Commercial Kinetic Log Splitter – KLS

FEATURES:

Fast 2-second cycle time

Up to 6X faster than hydraulic log splitters

Best-in-class two-handed operation reduces operator fatigue and minimizes unnecessary motion

Patent pending two-piece handle design with torsion springs virtually eliminates kickback

Precision balanced twin 70-lb flywheels, 325 RPMs

Single piece, hardened 6-inch wedge

Kohler® 6.5 HP engine, 196cc

High-strength steel beam, table and trailer made in the USA

Retractable tongue for easy access to work table

Dual matched belts equally transfer maximum power to the drive system

4” x 8” road towable tires, rated 45 mph

Heavy-duty stand, safety chains, 2-inch ball coupler

SPECIFICATIONS	Assembled:	Crated:
Height:	42.44”	25”
Length:	84.32”	79”
Width:	50”	42”

LOG SPLITTER

3-Point Log Splitter – HLS3PT

FEATURES:

Fits Cat 1 & Cat 2 tractors; ASABE quick-hitch ready

Inline with tractor provides a larger operator work area

Beam manufactured in USA with high strength steel; high stress areas reinforced for extreme durability

Auto-return valve

Heavy-duty 3-point frame

4-inch x 24-inch stroke cylinder

8-inch tall wedge

Reinforced steel foot plate and beam interlocked for superior strength

Patented integrated log cradle handles up to 24.5-inch length logs

Adjustable ground stand for leveling on uneven ground

Operates in horizontal or vertical position

13-second cycle time*

* *Cycle Time may vary dependent upon tractor PSI and GPM*

SPECIFICATIONS	Assembled	Crated
Height:	71” in Vertical Position	25”

WOODS®

LOG SPLITTER

LIMITED EDITION Horizontal/Vertical 27-Ton Hydraulic Log Splitter – HLS27

FEATURES:

27-ton splitting force

High-strength U.S. steel beam manufactured in Oregon, IL.; high stress areas strengthened for extreme durability

Reinforced, interlocking foot plate design for added strength

2-stage, 13 gpm pump

Kohler® engine, 196cc

4.5-inch cylinder

13-second cycle time*

Patented log cradle handles up to 24-inch logs

8-inch wedge splits cleanly

2-inch ball coupler, road towable up to 45 mph

Beam warranty:
5-year residential,
3-year commercial

2-year hydraulic component warranty

2-year engine warranty

* *Cycle time may vary depending upon mechanical and environmental conditions.*

DISCONTINUED

LIMITED EDITION 27-TON LOG SPLITTER:

- Is sold at NET pricing to all qualified dealers. No additional discounts apply.
- Does not qualify as a Partnership product category or count toward growth or volume bonus.
- Does not qualify for Specialty Program or discounts.

DISC HARROWS – STANDARD-DUTY

DHS48, DHS64, DHS80

FEATURES:

Tractor engine horsepower:
DHS48 = up to 35 hp,
DHS64 = 25 – 45 hp,
DHS80 = 35 – 55 hp

Hitch type:
DHS48 = Category 1, Limited Category 1 (Category 0 optional),
DHS64/DHS80 = Category 1

Quick hitch compatible

Disc blade diameter and type:
DHS48 = 16" notched,
DHS64/DHS80 = 18" notched or combo

Disc blade thickness: 0.118"

Disc blade spacing:
DHS48 = 7.5" front and rear,
DHS64/DHS80 = 7.5" front and rear or 9" front, 7.5" rear

Gang axle size: 1" square

Angle adjustments:
0, 7, 14 and 21 degrees

Bearing type: self-aligning

Optional mud scrapers (all models) and furrow fillers (DHS64/DHS80 only)

Model No.	Part No.	Description	Front Disc Spacing (in.)	Rear Disc Spacing (in.)	No. of Blades	Width (in.)	Shipping Wt. (lbs.)	Suggested List Price

DISC HARROWS – HEAVY-DUTY

DHH Series

FEATURES:

DISCONTINUED
LIMITED QUANTITIES

Tractor hitch: pull-type (uses 1.25" pin)

Tractor engine horsepower:
DHH108T = 50 – 75 hp, DHH126T = 60 – 100 hp, DHH144T = 70 – 110 hp

Minimum tractor weight: 5,000 lbs.

Disc blade diameter: 20" or 22" (notched or smooth)

Disc blade thickness/spacing: 0.177"/9"

Disc blade quantity: 24 (DHH108T), 28 (DHH126T), 32 (DHH144T)

Gang axles: 1-1/8" square

Offset front gangs remove the center balk while the tandem rear gangs provide the best finish

Large, heavy-duty tongue distributes load to main frame rails and allows wide turns without tire interference

Rugged tubular frame design with saddle gang hangers increases durability

Thick plate steel bearing hangers resist high bending loads

Simple ratchet jack levels the unit from front to back and independent gangs make for easy adjustment

Greasable, self-aligning ball bearings and end-greasable pins ensure long-lasting performance

Optional dual wheels, mud scrapers, furrow fillers and rear drawbar

To order a Towable Heavy-Duty Disc Harrow, choose one from Sections 1 – 4.
For dealer-installed optional accessories, refer to Sections 5.

Ordering examples: 103972520NN = DHH108T with 20" Notched Disc Blades on Front and Rear Gangs
103972622NS = DHH126T with 22" Notched Disc Blades on Front Gangs & 22" Smooth Disc Blades on Rear Gangs

PRECISION SUPER SEEDERS

Hunting Edition Precision Super Seeders – PSS48, PSS60, PSS72, PSS84

FEATURES & SPECIFICATIONS:

Ideal for food plots

Tractor Engine HP Range (Tractor Hitch):
PSS48: 25 – 45 hp (Cat. 1 & 2)
PSS60: 30 – 65 hp (Cat. 1 & 2)
PSS72: 35 – 85 hp (Cat. 1 & 2)
PSS84: 40 – 125 hp (Cat. 2)

Working Width (in.): 48", 60", 72", 84"

Drive Type: Ground driven

Seed Metering: Fluted

Seed Cups: 7, 8, 10, 12

Seed Box Ratio: 2-speed (3/4-speed chain drive kit included; 2 more available)

Cool Season Seed Box Capacity (bu.):
4.00, 5.00, 6.00, 7.00

Legume Seed Box Capacity (bu.):
1.00, 1.25, 1.50, 1.75

Seed Cup Spacing: 7"

Adjustable Front 16"/18" Notched Disc Blades with 7.5" spacing

Cast Iron Trailing Cultipacker

ASABE Quick Hitch compatible

PSS60
Hunting Edition
Precision Super Seeder

HUNTING EDITION PRECISION SUPER SEEDER (Factory-Installed; pre-configured for food plots)

Model No.	Part No.	Description	Width (in.)	Shipping Wt. (lbs.)	Suggested List Price

SNOW BLOWERS FOR TRACTORS – STANDARD- AND MEDIUM-DUTY

SB Series – SB54S & SB64S for Sub-Compact, SB74C & SB84C for Compact Tractors

SB54S & SB64S FEATURES:
Category 1, 3-point hitch
ASABE Quick Hitch compatible
Single 15-inch heavy-duty feeder auger
5/16-inch x 2-inch flighting on feeder auger
4-blade, 22-inch diameter fan
Mechanical deflector adjustment
Replaceable, adjustable skids
PTO, shear pin protection

SB74C & SB84C FEATURES:
Category 1 and 2, 3-point hitch
ASABE Quick Hitch compatible
Single 15-inch heavy-duty feeder auger
5/16-inch x 2-inch flighting on feeder auger
4-blade, 24-inch diameter fan
Mechanical deflector adjustment
Replaceable, adjustable skids
PTO, shear pin protection

Part No.	Description	Working Width (in.)	PTO Horsepower Requirements	Shipping Wt. (lbs.)	Suggested List Price
1033228	SB54S with PTO shaft – 540 rpm	54	15 – 25	528	**$ 3,226.00**
1033229	SB64S with PTO shaft – 540 rpm	64	15 – 35	581	**3,492.00**
1033230	SB74C with PTO shaft – 540 rpm	74	30 – 50	730	**4,021.00**
1033231	SB84C with PTO shaft – 540 rpm	84	35 – 60	789	**4,821.00**

CHUTE ROTATION KIT (MUST Choose One)

1033269	Manual chute rotator, includes crank & mount	16	**$ 127.00**
1033612	Hydraulic chute rotator, includes orbit motor, restrictors & hoses	27	**737.00**
1033732	Electric chute rotator, includes rotary actuator & wiring harness	20	**1,025.00**

OPTIONAL ACCESSORIES

1033731	Hydraulic chute deflector, includes cylinder, restrictors & hoses	7	**$ 518.00**
1033733	Electric chute deflector, includes linear actuator (if ordered separately, also order 1034771)	3	**390.00**
1034771	Snow blower wiring harness	2	**300.00**
1022043	Category 1, Quick Hitch Bushing Kit	2	**51.00**

COLOR CODES (Standard color is Woods® orange)*

Code	Color*
BK	Black
JD	Green
KO	Orange
RD	Red
VB	Blue

*** When ordering your snow blower, use the part number for the size ordered – then add color code to the end of part number. For example: A red SB74C part number is 1033230RD.**

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

SNOW BLOWERS FOR TRACTORS – HEAVY-DUTY

SS Series – SS84-2, SS96-2, SS108-2

SS84-2, SS96-2 & SS108-2 FEATURES:

Category 2 and 3, 3-point hitch
ASABE Quick Hitch compatible
5/16-inch flighting on feeder auger(s)
Hydraulic chute rotator included
(Hydraulic motor, hoses and couplers)
Replaceable, beveled cutting edge

SS84-2 SINGLE AUGER FEATURES:

Single 15-inch heavy-duty feeder auger
4-blade, 33-inch diameter fan
PTO, shear pin protection

SS96-2 & SS108-2 DOUBLE AUGER FEATURES:

Double 15-inch heavy-duty feeder augers
4-blade, 33-inch diameter fan;
Fan depth: 540 rpm = 9 inches,
1000 rpm = 5.5 inches
PTO, shear pin or clutch protection

Part No.	Description	Working Width (in.)	Horsepower Requirements	Shipping Wt. (lbs.)	Suggested List Price
1033634	SS84-2 Single Auger without PTO Shaft – **540 rpm**	84	60 – 80	1310	**$ 7,081.00**
1033636	SS96-2 Double Auger without PTO shaft – **540 rpm**	96	80 – 150	1521	**8,777.00**
1033638	SS108-2 Double Auger without PTO shaft – **540 rpm**	108	125 – 175	1635	**10,980.00**
1033637	SS96-2 Double Auger without PTO shaft – **1000 rpm**	96	80 – 150	1508	**8,798.00**
1033639	SS108-2 Double Auger without PTO shaft – **1000 rpm**	108	125 – 175	1635	**10,896.00**

NOTE: PTO shaft must be ordered with each SS84-2, SS96-2 and SS108-2.

PTO SHAFTS (Select One)

1029951	1-3/8" PTO shaft for models SS84-2, SS96-2 & SS108-2 – **540 rpm** (shear bolt)	42	**$ 759.00**
1029955	1-3/8" PTO shaft for models SS96-2 & SS108-2 – **1000 rpm** (cut-out clutch)	71	**1,264.00**
1029956	1-3/4" PTO shaft for models SS96-2 & SS108-2 – **1000 rpm** (cut-out clutch)	70	**1,264.00**

OPTIONAL ACCESSORIES

1033731	Hydraulic chute deflector, includes cylinder, restrictors & hoses	7	**$ 518.00**
1033733	Electric chute deflector, includes linear actuator (also order 1034771)	3	**390.00**
1033984	SS84-2 double auger kit	152	**985.00**
1034771	Snow blower wiring harness	2	**300.00**
1033640	Secondary skid shoe kit	28	**105.00**

COLOR CODES (Standard color is Woods® orange)*

Code	Color*
BK	Black
JD	Green
KO	Orange
RD	Red
VB	Blue

*** When ordering your snow blower, use the part number for the size ordered – then add color code to the end of part number. For example: A black SS96-2, 1000 rpm part number is 1033637BK.**

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

SUB-COMPACT SERIES LOADERS – QUICK ORDER SECTION

LS72 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored on loader boom
Manual tube on the loader boom cross tube
Heavy-duty, round back bucket
2-year warranty

SPECIFICATIONS:

Fits 15 – 25 hp tractors (2WD & FWA)
Lift height: 72 inches
Lift cylinders: 1.57 inches; Single bucket cylinder: 2.48 inches
Lift capacity at bucket pins: 650 lbs.
Lift capacity at 19.7 inches ahead of bucket pivot pins: 500 lbs.
Breakout at bucket pins: 1400 lbs.
Breakout at 19.7 inches ahead of bucket pivot pins: 900 lbs.
Maximum digging depth: 4 inches
Dump angle: 45 degrees
Roll back angle: 25 degrees
Reach: 30 inches
Pivot pins diameter: 0.75 and 1.00 inches

To Order a Complete Loader Using the Woods® Quick Order System

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Compact Series).
- Go to the appropriate Loader Model **Quick Order** tab.
- Find the tractor brand / model you are fitting.
- Order loader frame.
- Order pin-on bucket.
- Order completing kit.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages. Prices for each component are listed in the appropriate component section.
If you have any questions, please contact Woods Dealer Services.

EXAMPLE

When ordering a loader to fit a Kubota® tractor, model BX2350 ROPS, do the following:

1. The Kubota BX2350 ROPS tractor is fit by one Woods loader model: LS72. (Reference Tractor/Loader Adaptability Chart.)
2. Flip to the LS72 **Quick Order** tab.
3. **Section 1** – Select tractor brand and model that the LS72 loader is to fit: Kubota BX2350 ROPS.
   a. Order the loader frame #2107224 (Orange to match Kubota).
   b. Order the bucket #2130448 (48" pin-on attachment bucket – Orange to match Kubota).
   c. Order the completing kit #2104003H. Completing kit includes loader mount, hose kit and grill guard. List price of complete loader is $3,806; total weight is 383 lbs.
   If tractor is **not** equipped with OEM valve, then completing kit #2104003D would be ordered, which includes loader mount, valve and hose kits, and grill guard. List price of complete loader is $4,797; total weight is 383 lbs.

Unless noted, each "Loader Complete" STANDARD configuration includes loader, bucket, and completing kit (mount, hydraulics and grill guard, if grill guard is available). Any deviation from standard configuration will require ordering components individually.

2. **Requires John Deere® Selective Control Valve (SCV).**
3. **Will not fit with Kubota mower.**
4. **Fits with power steering.**
5. **Rear mounting will not fit with power steering.**
6. **Requires OEM mid-mount loader valve.**

SUB-COMPACT SERIES LOADERS – COMPONENT ORDER

LS72 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored on loader boom
Manual tube on the loader boom cross tube
Heavy-duty, round back bucket
2-year warranty

SPECIFICATIONS:

Fits 15 – 25 hp tractors (2WD & FWA)
Lift height: 72 inches
Lift cylinders: 1.57 inches; Single bucket cylinder: 2.48 inches
Lift capacity at bucket pins: 650 lbs.
Lift capacity at 19.7 inches ahead of bucket pivot pins: 500 lbs.
Breakout at bucket pins: 1400 lbs.
Breakout at 19.7 inches ahead of bucket pivot pins: 900 lbs.
Maximum digging depth: 4 inches
Dump angle: 45 degrees
Roll back angle: 25 degrees
Reach: 30 inches
Pivot pins diameter: 0.75 and 1.00 inches

To Order a Complete Loader by Ordering Individual Components

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Compact Series).
- Go to the appropriate Loader Model **Component Order** tab.
- Find the tractor brand / model you are fitting in the **Tractor Reference** section – part numbers needed to configure a loader are listed (except loader frame and bucket).
- Order loader frame.
- Order front-end attachment(s).
- Order mounting kit.
- Order valve kit.
- Order hose kit OR 4-hose kit to connect to OEM remote valve.
- Order grill guard.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages. Prices for each component are listed in the appropriate component section. If you have any questions, please contact Woods® Dealer Services.

EXAMPLE:

When ordering a loader to fit a Kubota® tractor, model B7510 ROPS, do the following:

1. The Kubota B7510 ROPS tractor is fit by two Woods loader models: LS72 and LS84. (Reference Tractor/Loader Adaptability Chart.) We are selecting the LS72 model.
2. Flip to the LS72 **Components** tab and go to the Tractor Reference Chart for components to order to complete the LS72 Loader.
   a. **Section 1** – Order the loader frame #2107224 (Orange to match Kubota).
   b. **Section 2** – Order the bucket #2130448 (48" pin-on attachment bucket – Orange to match Kubota).
   c. **Section 3** – Order the mounting kit #2104009.
   d. **Section 4** – Order the valve kit #1023512.
   e. **Section 5** – Order the hose kit #1024370 OR the 4-hose kit # (N/A).
   f. **Section 6** – Order grill guard #1014886.

SUB-COMPACT SERIES LOADERS – MISCELLANEOUS SECTION 7

Miscellaneous – Loader Model LS72

Part No.	Description	Shipping Wt. (lbs.)	Suggested List Price
1005093	Paint – Case of 12 Spray Cans – Red to match Case IH®	13	**$ 170.00**
1005095	Paint – Case of 12 Spray Cans – Blue to match New Holland® Vibrant Blue	13	**170.00**
1005096	Paint – Case of 12 Spray Cans – Blue to match New Holland Ford® Blue	13	**170.00**
1005097	Paint – Case of 12 Spray Cans – Orange to match Kubota®	13	**170.00**
1005098	Paint – Case of 12 Spray Cans – Red to match Massey Ferguson®	13	**170.00**

SUB-COMPACT SERIES LOADERS – TRACTOR NOTES SECTION 8

Tractor Notes – Loader Model LS72

1. Auxiliary hose kit 1025337 is required for tractors before serial number M-T4750.

2. Requires John Deere® Selective Control Valve (SCV).

3. Will not fit with Kubota mower.

4. Fits with power steering.

5. Rear mounting will not fit with power steering.

6. Requires OEM mid-mount loader valve.

LS84 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored on loader boom
Manual tube on the loader boom cross tube
Heavy-duty, round back bucket
2-year warranty

SPECIFICATIONS:

Fits 20 – 30 hp tractors (2WD & FWA)
Lift height: 84 inches
Lift cylinders: 1.57 inches; Single bucket cylinder: 2.48 inches
Lift capacity at bucket pins: 1000 lbs.
Lift capacity at 19.7 inches ahead of bucket pivot pins: 700 lbs.
Breakout at bucket pins: 1700 lbs.
Breakout at 19.7 inches ahead of bucket pivot pins: 1200 lbs.
Maximum digging depth: 4 inches
Dump angle: 45 degrees
Roll back angle: 24 degrees
Reach: 24 inches
Pivot pins diameter: 0.75 and 1.00 inches

To Order a Complete Loader Using the Woods® Quick Order System

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Compact Series).
- Go to the appropriate Loader Model **Quick Order** tab.
- Find the tractor brand / model you are fitting.
- Order loader frame.
- Order pin-on bucket.
- Order completing kit.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages.
Prices for each component are listed in the appropriate component section.
If you have any questions, please contact Woods Dealer Services.

EXAMPLE

When ordering a loader to fit a New Holland® tractor, model TC21DA ROPS, do the following:

1. The New Holland TC21DA ROPS tractor is fit by one Woods loader model: LS84. (Reference Tractor/Loader Adaptability Chart.)
2. Flip to the LS84 **Quick Order** tab.
3. **Section 1** – Select tractor brand and model that the LS84 loader is to fit: New Holland TC21DA ROPS.
   a. Order the loader frame #2108427 (NH Vibrant Blue to match New Holland).
   b. Order the bucket #2160054 (54" pin-on attachment bucket).
   c. Order the completing kit #2100001D. Completing kit includes loader mount, valve and hose kits, and grill guard (if available). List price of complete loader is $6,174; total weight is 503 lbs.

Unless noted, each "Loader Complete" STANDARD configuration includes loader, bucket, and completing kit (mount, hydraulics and grill guard, if grill guard is available). Any deviation from standard configuration will require ordering components individually.

SUB-COMPACT SERIES LOADERS – MISCELLANEOUS SECTION 3

Miscellaneous – Loader Model LS84

Part No.	Description	Shipping Wt. (lbs.)	Suggested List Price
1005093	Paint – Case of 12 Spray Cans – Red to match Case IH®	13	**$ 170.00**
1005095	Paint – Case of 12 Spray Cans – Blue to match New Holland® Vibrant Blue	13	**170.00**
1005096	Paint – Case of 12 Spray Cans – Blue to match New Holland Ford® Blue	13	**170.00**
1005097	Paint – Case of 12 Spray Cans – Orange to match Kubota®	13	**170.00**
1005098	Paint – Case of 12 Spray Cans – Red to match Massey Ferguson®	13	**170.00**

SUB-COMPACT SERIES LOADERS – TRACTOR NOTES SECTION 4

Tractor Notes – Loader Model LS84

1. **Will not fit with Kubota mower.**
2. **Rear mounting will not fit with power steering.**
3. **Will not fit tractors with shiftable bi-speed turn.**
4. **Requires John Deere® Selective Control Valve (SCV). Hose kit fits tractors with right side quick couplers only.**
5. **Requires Cub Cadet® valve kit 590-620-100.**
6. **Loader will not fit with Case IH/New Holland factory-installed valve.**
7. **Requires factory-installed valve on tractor. Hose kit listed connects to tractor valve.**
8. **Fits with OEM auxiliary valve – use tractor hydraulic hose kit.**
9. **Requires 1004750 mower reinforcement to fit with OEM mid-mower.**
10. **OEM 914A mower requires 1024377 mower mounting kit.**
11. **Requires OEM mid-mount loader valve.**
12. **OEM 914A mower requires 1024387 mower mounting kit.**
13. **Will not work with 60” mower.**

SUB-COMPACT SERIES LOADERS – COMPONENT ORDER

LS84 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored on loader boom
Manual tube on the loader boom cross tube
Heavy-duty, round back bucket
2-year warranty

SPECIFICATIONS:

Fits 20 – 30 hp tractors (2WD & FWA)
Lift height: 84 inches
Lift cylinders: 1.57 inches; Single bucket cylinder: 2.48 inches
Lift capacity at bucket pins: 1000 lbs.
Lift capacity at 19.7 inches ahead of bucket pivot pins: 700 lbs.
Breakout at bucket pins: 1700 lbs.
Breakout at 19.7 inches ahead of bucket pivot pins: 1200 lbs.
Maximum digging depth: 4 inches
Dump angle: 45 degrees
Roll back angle: 24 degrees
Reach: 24 inches
Pivot pins diameter: 0.75 and 1.00 inches

To Order a Complete Loader by Ordering Individual Components

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Compact Series).
- Go to the appropriate Loader Model **Component Order** tab.
- Find the tractor brand / model you are fitting in the **Tractor Reference** section – part numbers needed to configure a loader are listed (except loader frame and bucket).
- Order loader frame.
- Order front-end attachment(s).
- Order mounting kit.
- Order valve kit.
- Order hose kit OR 4-hose kit to connect to OEM remote valve.
- Order grill guard.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages.
Prices for each component are listed in the appropriate component section.
If you have any questions, please contact Woods® Dealer Services.

EXAMPLE:

When ordering a loader to fit a Kubota® tractor, model B7510 ROPS, do the following:

1. The Kubota B7510 ROPS tractor is fit by two Woods loader models: LS72 and LS84. (Reference Tractor/Loader Adaptability Chart.) We are selecting the LS84 model.
2. Flip to the LS84 **Components** tab and go to the Tractor Reference Chart for components to order to complete the LS84 Loader.
   a. **Section 1** – Order the loader frame #2108424 (Orange to match Kubota).
   b. **Section 2** – Order the bucket #2160054 (54" pin-on attachment bucket).
   c. **Section 3** – Order the mounting kit #2104002.
   d. **Section 4** – Order the valve kit #1023512.
   e. **Section 5** – Order the hose kit #1024370 OR the 4-hose kit # (N/A).
   f. **Section 6** – Order grill guard #1014886.

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

SUB-COMPACT SERIES LOADERS – MISCELLANEOUS SECTION 7

Miscellaneous – Loader Model LS84

Part No.	Description	Shipping Wt. (lbs.)	Suggested List Price
1005093	Paint – Case of 12 Spray Cans – Red to match Case IH®	13	**$ 170.00**
1005095	Paint – Case of 12 Spray Cans – Blue to match New Holland® Vibrant Blue	13	**170.00**
1005096	Paint – Case of 12 Spray Cans – Blue to match New Holland Ford® Blue	13	**170.00**
1005097	Paint – Case of 12 Spray Cans – Orange to match Kubota®	13	**170.00**
1005098	Paint – Case of 12 Spray Cans – Red to match Massey Ferguson®	13	**170.00**

SUB-COMPACT SERIES LOADERS – TRACTOR NOTES SECTION 8

Tractor Notes – Loader Model LS84

1. **Will not fit with Kubota mower.**
2. **Rear mounting will not fit with power steering.**
3. **Will not fit tractors with shiftable bi-speed turn.**
4. **Requires John Deere® Selective Control Valve (SCV). Hose kit fits tractors with right side quick couplers only.**
5. **Requires Cub Cadet® valve kit 590-620-100.**
6. **Loader will not fit with Case IH/New Holland factory-installed valve.**
7. **Requires factory-installed valve on tractor. Hose kit listed connects to tractor valve.**
8. **Fits with OEM auxiliary valve – use tractor hydraulic hose kit.**
9. **Requires 1004750 mower reinforcement to fit with OEM mid-mower.**
10. **OEM 914A mower requires 1024377 mower mounting kit.**
11. **Requires OEM mid-mount loader valve.**
12. **OEM 914A mower requires 1024387 mower mounting kit.**
13. **Will not work with 60” mower.**

SUB-COMPACT SERIES LOADERS – QUICK ORDER SECTION

LS96R Features and Specifications

FEATURES:

Midmount loader boom attachment
Ideal for used tractors needing an economy loader
Quality loader boom and welding for long product life
Manual tube on the loader boom cross tube
Optional Skid Steer Quick Attach System
End-greasable pivot pins
Twin bucket cylinders for increased performance
Installs quickly and safely
2-year warranty

SPECIFICATIONS:

Fits 20 – 30 hp tractors (2WD & FWA)
Lift height: 96 inches
Clearance with attachment dumped: 79 inches
Lift cylinders: 1.77 inches; Bucket cylinders: 1.77 inches
Lift capacity at bucket pins: 1175 lbs.
Lift capacity at 19.7 inches ahead of bucket pivot pins: 850 lbs.
Breakout at bucket pins: 2175 lbs.
Breakout at 19.7 inches ahead of bucket pivot pins: 1650 lbs.
System pressure for capacity ratings: 2350 psi
Maximum digging depth: 3.5 inches
Maximum dump angle: 41 degrees
Maximum roll back angle: 24 degrees
Reach at maximum height: 17.3 inches
Pivot pins diameter: 1.00 inch
Number of bucket cylinders: 2
Bucket width: 60”
Bucket heaped capacity: 8.4 cu. ft.
Skid Steer Quick Attach: Optional

To Order a Complete Loader Using the Woods® Quick Order System

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Compact Series).
- Go to the appropriate Loader Model **Quick Order** tab.
- Find the tractor brand / model you are fitting.
- Order loader package.
- Order pin-on bucket or Quick Attachment Carrier System and quick attach bucket.

Be sure to refer to the “Notes” column; Tractor Notes are found at the end of each tabbed section in the Loader price pages. Prices for each component are listed in the appropriate component section.
If you have any questions, please contact Woods Dealer Services.

EXAMPLE

When ordering a loader to fit a Kubota® tractor, model L2800 ROPS, do the following:

1. The Kubota L2800 ROPS tractor is fit by Woods loader model: LS96R. (Reference Tractor/Loader Adaptability Chart.)
2. Flip to the LS96R **Quick Order** tab.
3. **Section 1** – Select tractor brand and model that the LS96R loader is to fit: Kubota L2800 ROPS.
   a. Order the loader package #2196004 (Black).
   b. Order the bucket #2180060 (60” pin-on attachment bucket).
      Note: If selecting a quick change system, order Quick Attach Coupler System and 60” QA bucket.

Unless noted, each "Loader Complete" STANDARD configuration includes loader, bucket, and components (mount, hydraulics and grill guard). Any deviation from standard configuration will require ordering components individually.

Lift cylinders: 1.77 inches; Single bucket cylinder: 2.76 inches
Lift capacity at bucket pins: 1200 lbs.
Lift capacity at 19.7 inches ahead of bucket pivot pins: 900 lbs.
Breakout at bucket pins: 2150 lbs.
Breakout at 19.7 inches ahead of bucket pivot pins: 1650 lbs.
Maximum digging depth: 4 inches
Dump angle: 45 degrees
Roll back angle: 24 degrees
Reach: 30 inches
Pivot pins diameter: 1.00 and 1.25 inches

To Order a Complete Loader Using the Woods® Quick Order System

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Compact Series).
- Go to the appropriate Loader Model **Quick Order** tab.
- Find the tractor brand / model you are fitting.
- Order loader frame.
- Order pin-on bucket or Quick Attachment Carrier System and quick attach bucket.
- Order completing kit.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages.
Prices for each component are listed in the appropriate component section.
If you have any questions, please contact Woods Dealer Services.

EXAMPLE

When ordering a loader to fit a Kubota® tractor, model L3540 ROPS, do the following:

1. The Kubota L3540 ROPS tractor is fit by two Woods loader models: LC96 and LC102. (Reference the Tractor/Loader Adaptability Chart.) We are selecting the LC96 model.
2. Flip to the LC96 **Quick Order** tab.
3. **Section 1** – Select tractor brand and model that the LC96 loader is to fit: Kubota L3540 ROPS.
   a. Order the loader frame #2209624 (Orange to match Kubota).
   b. Order the bucket #2230066 (66" pin-on attachment bucket).
   Note: If selecting a quick change system, order Quick Attach Coupler System and 66" QA bucket.
   c. Order the completing kit #2200004H. Completing kit includes loader mount, hose kit (that will connect to tractor valve) and grill guard (if available). List price of complete loader is $5,799; total weight is 966 lbs.

Unless noted, each "Loader Complete" STANDARD configuration includes loader, bucket, and completing kit (mount, hydraulics and grill guard, if grill guard is available). Any deviation from standard configuration will require ordering components individually.

* Completing Kits that end in D or D* contain mounting kit, Woods Hydraulic Package (2-spool direct control valve and hose kit) and grill guard, if available.
Completing Kits that end in C1 contain mounting kit, Woods Hydraulic Package (2-spool cable control valve and hose kit) and grill guard, if available.
Completing Kits that end in H or H* contain mounting kit, 4-hose kit (to connect loader to OEM remote valve) and grill guard, if available.

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

Unless noted, each "Loader Complete" STANDARD configuration includes loader, bucket, and completing kit (mount, hydraulics and grill guard, if grill guard is available). Any deviation from standard configuration will require ordering components individually.

* Completing Kits that end in D or D* contain mounting kit, Woods Hydraulic Package (2-spool direct control valve and hose kit) and grill guard, if available.
Completing Kits that end in C1 contain mounting kit, Woods Hydraulic Package (2-spool cable control valve and hose kit) and grill guard, if available.
Completing Kits that end in H or H* contain mounting kit, 4-hose kit (to connect loader to OEM remote valve) and grill guard, if available.

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

Unless noted, each "Loader Complete" STANDARD configuration includes loader, bucket, and completing kit (mount, hydraulics and grill guard, if grill guard is available). Any deviation from standard configuration will require ordering components individually.

COMPACT SERIES LOADERS – MISCELLANEOUS SECTION 3

Miscellaneous – Loader Model LC96

Part No.	Description	Shipping Wt. (lbs.)	Suggested List Price
1005093	Paint – Case of 12 Spray Cans – Red to match Case IH®	13	**$ 170.00**
1005095	Paint – Case of 12 Spray Cans – Blue to match New Holland® Vibrant Blue	13	**170.00**
1005096	Paint – Case of 12 Spray Cans – Blue to match New Holland Ford® Blue	13	**170.00**
1005097	Paint – Case of 12 Spray Cans – Orange to match Kubota®	13	**170.00**
1005098	Paint – Case of 12 Spray Cans – Red to match Massey Ferguson®	13	**170.00**

COMPACT SERIES LOADERS – TRACTOR NOTES SECTION 4

Tractor Notes – Loader Model LC96

1. **Mount fits with OEM auxiliary valve – OEM auxiliary valve required Woods® hose kit 1023613.**
2. **Fits with Super Steer® front axle.**
3. **If tractor is equipped with John Deere® BM18010 rear quick coupler kit, use Woods hose kit 1023542. If tractor is equipped with John Deere Selective Control Valve (SCV), use Woods hose kit 1023616.**
4. **Tractor must have power steering to use hose kit.**
5. **Requires John Deere Selective Control Valve (SCV) and Woods hose kit to connect to tractor mid-remote couplers.**
6. **Grill guard included with mounting kit.**
7. **Will not fit 3-cylinder tractors with 29 x 12.5 x 15 turf tires.**
8. **Fits with Woods mower models C360 & C372.**
9. **L3010 and L3410 only – fits with Kubota mid-mount mower model RC72-29A.**
10. **2-function valve kit 1023511 includes all hoses and fittings to connect to tractor hydraulic system.**
11. **Requires reinforcement kit 1004750 to fit OEM mower model 914A. Reinforcement kit is NOT compatible with Super Steer front axle.**
12. **Tractors with Cab must be equipped with OEM loader valve and mid-remote quick couplers. Order hose kit 1023613 to connect.**
13. **Tractor must be equipped with Kioti® mid-remote cable valve and couplers to use hose kit 1025236.**
14. **Weight box 1006124 is recommended for tractor stability.**
15. **Tractor must be equipped with OEM loader valve and mid-remote quick couplers.**
16. **Tractor must be equipped with OEM loader valve and mid-remote quick couplers. Order hose kit 1033412 to connect.**
17. **Not compatible with Ag tires. Compatible with industrial and turf tires only.**

COMPACT SERIES LOADERS – COMPONENT ORDER

LC96 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored in loader boom cross tube
Bucket rod level indicator
Manual tube on the loader boom cross tube
Optional Quick Attach Coupler System
Construction grade, heavy-duty, round back bucket
2–year warranty

SPECIFICATIONS:

Fits 20 – 35 hp tractors (2WD & FWA)
Lift height: 96 inches
Lift cylinders: 1.77 inches; Single bucket cylinder: 2.76 inches
Lift capacity at bucket pins: 1200 lbs.
Lift capacity at 19.7 inches ahead of bucket pivot pins: 900 lbs.
Breakout at bucket pins: 2150 lbs.
Breakout at 19.7 inches ahead of bucket pivot pins: 1650 lbs.
Maximum digging depth: 4 inches
Dump angle: 45 degrees
Roll back angle: 24 degrees
Reach: 30 inches
Pivot pins diameter: 1.00 and 1.25 inches

To Order a Complete Loader by Ordering Individual Components

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Compact Series).
- Go to the appropriate Loader Model **Component Order** tab.
- Find the tractor brand / model you are fitting in the **Tractor Reference** section – part numbers needed to configure a loader are listed (except loader frame and bucket).
- Order loader frame.
- Order front-end attachment(s).
- Order mounting kit.
- Order valve kit.
- Order hose kit OR 4-hose kit to connect to OEM remote valve.
- Order grill guard.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages.
Prices for each component are listed in the appropriate component section.
If you have any questions, please contact Woods® Dealer Services.

EXAMPLE:

When ordering a loader to fit a Kubota® tractor, model L3430 ROPS, do the following:

1. The Kubota L3430 ROPS tractor is fit by three Woods loader models: LC96, LC102 and LC108. (Reference Tractor/Loader Adaptability Chart.) We are selecting the LC96 model.
2. Flip to the LC96 **Components** tab and go to the Tractor Reference Chart for components to order to complete the LC96 Loader.
   a. **Section 1** – Order the loader frame #2209624 (Orange to match Kubota).
   b. **Section 2** – Order the bucket #2230066 (66" pin-on attachment bucket).
   Note: If selecting a quick change system, order Quick Attach Coupler System and buckets compatible with the Quick Attach Coupler System. Other front end attachments may be ordered within this section.
   c. **Section 3** – Order the mounting kit #W111771.
   d. **Section 4** – Order the valve kit #1023511.
   e. **Section 5** – Order the hose kit # (included with valve) OR the 4-hose kit # (N/A).
   f. **Section 6** – Order grill guard #1006492.

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

1005098	Paint – Case of 12 Spray Cans – Red to match Massey Ferguson	13	**170.00**

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

Tractor Notes – Loader Model LC96

1. Mount fits with OEM auxiliary valve – OEM auxiliary valve required Woods® hose kit 1023613.
2. Fits with Super Steer® front axle.
3. If tractor is equipped with John Deere® BM18010 rear quick coupler kit, use Woods hose kit 1023542. If tractor is equipped with John Deere Selective Control Valve (SCV), use Woods hose kit 1023616.
4. Tractor must have power steering to use hose kit.
5. Requires John Deere Selective Control Valve (SCV) and Woods hose kit to connect to tractor mid-remote couplers.
6. Grill guard included with mounting kit.
7. Will not fit 3-cylinder tractors with 29 x 12.5 x 15 turf tires.
8. Fits with Woods mower models C360 & C372.
9. L3010 and L3410 only – fits with Kubota® mid-mount mower model RC72-29A.
10. 2-function valve kit 1023511 includes all hoses and fittings to connect to tractor hydraulic system.
11. Requires reinforcement kit 1004750 to fit OEM mower model 914A. Reinforcement kit is NOT compatible with Super Steer front axle.
12. Tractors with Cab must be equipped with OEM loader valve and mid-remote quick couplers. Order hose kit 1023613 to connect.
13. Tractor must be equipped with Kioti® mid-remote cable valve and couplers to use hose kit 1025236.
14. Weight box 1006124 is recommended for tractor stability.
15. Tractor must be equipped with OEM loader valve and mid-remote quick couplers.
16. Tractor must be equipped with OEM loader valve and mid-remote quick couplers. Order hose kit 1033412 to connect.
17. Not compatible with Ag tires. Compatible with industrial and turf tires only.

COMPACT SERIES LOADERS – QUICK ORDER SECTION

LC102 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored in loader boom cross tube
Bucket rod level indicator
4-bar bucket linkage
Manual tube on the loader boom cross tube
Optional Quick Attach Coupler System
Construction bucket
2-year warranty

SPECIFICATIONS:

Fits 20 – 35 hp tractors (2WD & FWA)
Lift height: 102 inches
Lift cylinders: 1.97 inches; Bucket cylinders: 1.97 inches
Lift capacity at bucket pins: 1650 lbs.
Lift capacity at 19.7 inches ahead of bucket pivot pins: 1200 lbs.
Breakout at bucket pins: 2950 lbs.
Breakout at 19.7 inches ahead of bucket pivot pins: 2250 lbs.
Maximum digging depth: 4 inches
Dump angle: 50 degrees
Roll back angle: 35 degrees
Reach: 30 inches
Pivot pins diameter: 1.00 and 1.25 inches

To Order a Complete Loader Using the Woods® Quick Order System

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Compact Series).
- Go to the appropriate Loader Model **Quick Order** tab.
- Find the tractor brand / model you are fitting.
- Order loader frame.
- Order Quick Attachment Carrier System and quick attach bucket.
- Order completing kit.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages. Prices for each component are listed in the appropriate component section. If you have any questions, please contact Woods Dealer Services.

EXAMPLE

When ordering a loader to fit a New Holland® tractor, model TC40D ROPS, do the following:

1. The New Holland TC40D ROPS tractor is fit by three Woods loader models: LC96, LC102 and LC108. (Reference Tractor/Loader Adaptability Chart.) We are selecting the LC102 model.
2. Flip to the LC102 **Quick Order** tab.
3. **Section 1** – Select tractor brand and model that the LC102 loader is to fit – New Holland TC40D ROPS.
   a. Order the loader frame #2210227 (NH Vibrant Blue to match New Holland).
   b. Order the bucket #2270066 (66" quick attach bucket).
   c. Order Quick Attach Coupler System #2350000.
   d. Order the completing kit #2200015D. Completing kit includes loader mount, valve, hose kit and grill guard. List price of complete loader is $8,564; total weight is 1245 lbs.

Unless noted, each "Loader Complete" STANDARD configuration includes loader, bucket, and completing kit (mount, hydraulics and grill guard, if grill guard is available). Any deviation from standard configuration will require ordering components individually.

COMPACT SERIES LOADERS – MISCELLANEOUS SECTION 3

Miscellaneous – Loader Model LC102

Part No.	Description	Shipping Wt. (lbs.)	Suggested List Price
1005093	Paint – Case of 12 Spray Cans – Red to match Case IH®	13	**$ 170.00**
1005095	Paint – Case of 12 Spray Cans – Blue to match New Holland® Vibrant Blue	13	**170.00**
1005096	Paint – Case of 12 Spray Cans – Blue to match New Holland Ford® Blue	13	**170.00**
1005097	Paint – Case of 12 Spray Cans – Orange to match Kubota®	13	**170.00**
1005098	Paint – Case of 12 Spray Cans – Red to match Massey Ferguson®	13	**170.00**

COMPACT SERIES LOADERS – TRACTOR NOTES SECTION 4

Tractor Notes – Loader Model LC102

1. **Mount fits with OEM auxiliary valve – OEM auxiliary valve required Woods® hose kit 1023613.**
2. **Fits with Super Steer® front axle.**
3. **If tractor is equipped with John Deere® BM18010 rear quick coupler kit, use Woods hose kit 1023542. If tractor is equipped with John Deere Selective Control Valve (SCV), use Woods hose kit 1023616.**
4. **Tractor must have power steering to use hose kit.**
5. **Requires John Deere Selective Control Valve (SCV) and Woods hose kit to connect to tractor mid-remote couplers.**
6. **Grill guard included with mounting kit.**
7. **Will not fit 3-cylinder tractors with 29 x 12.5 x 15 turf tires.**
8. **Fits with Woods mower models C360 & C372.**
9. **L3010 and L3410 only – fits with Kubota mid-mount mower model RC72-29A.**
10. **2-function valve kit 1023511 includes all hoses and fittings to connect to tractor hydraulic system.**
11. **Requires reinforcement kit 1004750 to fit OEM mower model 914A. Reinforcement kit is NOT compatible with Super Steer front axle.**
12. **Tractors with Cab must be equipped with OEM loader valve and mid-remote quick couplers. Order hose kit 1023613 to connect.**
13. **Tractor must be equipped with Kioti® mid-remote cable valve and couplers to use hose kit 1025236.**
14. **Weight box 1006124 is recommended for tractor stability.**
15. **Tractor must be equipped with OEM loader valve and mid-remote quick couplers. Order hose kit 1033412 to connect.**
16. **Tractor must be equipped with OEM loader valve and mid-remote quick couplers.**

COMPACT SERIES LOADERS – COMPONENT ORDER

LC102 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored in loader boom cross tube
Bucket rod level indicator
4-bar bucket linkage
Manual tube on the loader boom cross tube
Optional Quick Attach Coupler System
Construction bucket
2-year warranty

SPECIFICATIONS:

Fits 20 – 35 hp tractors (2WD & FWA)
Lift height: 102 inches
Lift cylinders: 1.97 inches; Bucket cylinders: 1.97 inches
Lift capacity at bucket pins: 1650 lbs.
Lift capacity at 19.7 inches ahead of bucket pivot pins: 1200 lbs.
Breakout at bucket pins: 2950 lbs.
Breakout at 19.7 inches ahead of bucket pivot pins: 2250 lbs.
Maximum digging depth: 4 inches
Dump angle: 50 degrees
Roll back angle: 35 degrees
Reach: 30 inches
Pivot pins diameter: 1.00 and 1.25 inches

To Order a Complete Loader by Ordering Individual Components

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Compact Series).
- Go to the appropriate Loader Model **Component Order** tab.
- Find the tractor brand / model you are fitting in the **Tractor Reference** section – part numbers needed to configure a loader are listed (except loader frame and bucket).
- Order loader frame.
- Order front-end attachment(s).
- Order mounting kit.
- Order valve kit.
- Order hose kit OR 4-hose kit to connect to OEM remote valve.
- Order grill guard.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages.
Prices for each component are listed in the appropriate component section.
If you have any questions, please contact Woods® Dealer Services.

EXAMPLE:
When ordering a loader to fit a Kubota® tractor, model L3430 ROPS, do the following:

1. The Kubota L3430 ROPS tractor is fit by three Woods loader models: LC96, LC102 and LC108. (Reference Tractor/Loader Adaptability Chart.) We are selecting the LC102 model.
2. Flip to the LC102 **Components** tab and go to the Tractor Reference Chart for components to order to complete the LC102 Loader.
   a. **Section 1** – Order the loader frame #2210224 (Orange to match Kubota).
   b. **Section 2** – Order the bucket #2270066 (66" quick attach bucket) and the Quick Attach Coupler System. Other front end attachments may be ordered within this section.
   c. **Section 3** – Order the mounting kit #W111771.
   d. **Section 4** – Order the valve kit #1023511.
   e. **Section 5** – Order the hose kit # (included with valve) OR the 4-hose kit # (N/A).
   f. **Section 6** – Order grill guard #1006492.

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

1005098	Paint – Case of 12 Spray Cans – Red to match Massey Ferguson	13	**170.00**

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

Tractor Notes – Loader Model LC102

1. Mount fits with OEM auxiliary valve – OEM auxiliary valve required Woods® hose kit 1023613.
2. Fits with Super Steer® front axle.
3. If tractor is equipped with John Deere® BM18010 rear quick coupler kit, use Woods hose kit 1023542. If tractor is equipped with John Deere Selective Control Valve (SCV), use Woods hose kit 1023616.
4. Tractor must have power steering to use hose kit.
5. Requires John Deere Selective Control Valve (SCV) and Woods hose kit to connect to tractor mid-remote couplers.
6. Grill guard included with mounting kit.
7. Will not fit 3-cylinder tractors with 29 x 12.5 x 15 turf tires.
8. Fits with Woods mower models C360 & C372.
9. L3010 and L3410 only – fits with Kubota® mid-mount mower model RC72-29A.
10. 2-function valve kit 1023511 includes all hoses and fittings to connect to tractor hydraulic system.
11. Requires reinforcement kit 1004750 to fit OEM mower model 914A. Reinforcement kit is NOT compatible with Super Steer front axle.
12. Tractors with Cab must be equipped with OEM loader valve and mid-remote quick couplers. Order hose kit 1023613 to connect.
13. Tractor must be equipped with Kioti® mid-remote cable valve and couplers to use hose kit 1025236.
14. Weight box 1006124 is recommended for tractor stability.
15. Tractor must be equipped with OEM loader valve and mid-remote quick couplers. Order hose kit 1033412 to connect.
16. Tractor must be equipped with OEM loader valve and mid-remote quick couplers.

COMPACT SERIES LOADERS – QUICK ORDER SECTION

LC108 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored in loader boom cross tube
Rod bucket level indicator
4-bar bucket linkage
Manual tube on the loader boom cross tube
Optional Quick Attach Coupler System
Construction bucket
2-year warranty

SPECIFICATIONS:

Fits 28 – 50 hp tractors (2WD & FWA)
Lift height: 108 inches
Lift cylinders: 2.36 inches; Bucket cylinders: 2.36 inches
Lift capacity at bucket pins: 2175 lbs.
Lift capacity at 19.7 inches ahead of bucket pivot pins: 1800 lbs.
Breakout at bucket pins: 3850 lbs.
Breakout at 19.7 inches ahead of bucket pivot pins: 3000 lbs.
Maximum digging depth: 5 inches
Dump angle: 58 degrees
Roll back angle: 35 degrees
Reach: 40 inches
Pivot pins diameter: 1.25 inches

To Order a Complete Loader Using the Woods® Quick Order System

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Compact Series).
- Go to the appropriate Loader Model **Quick Order** tab.
- Find the tractor brand / model you are fitting.
- Order loader frame.
- Order Quick Attachment Carrier System and quick attach bucket.
- Order completing kit.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages.
Prices for each component are listed in the appropriate component section.
If you have any questions, please contact Woods Dealer Services.

EXAMPLE

When ordering a loader to fit a Kubota® tractor, model L3430 ROPS, do the following:

1. The Kubota L3430 ROPS tractor is fit by one Woods loader model: LC108. (Reference the Tractor/Loader Adaptability Chart.)
2. Flip to the LC108 **Quick Order** tab.
3. **Section 1** – Select tractor brand and model that the LC108 loader is to fit: Kubota L3430 ROPS.
   a. Order the loader frame #2210844 (Orange to match Kubota).
   b. Order the bucket #2270066 (66" quick attach bucket).
   c. Order Quick Attach Coupler System #2350000.
   d. Order the completing kit #111771D1. Completing kit includes loader mount, valve, hose kit and grill guard (if available). List price of complete loader is $8,222; total weight is 882 lbs.

Unless noted, each "Loader Complete" STANDARD configuration includes loader, bucket, and completing kit (mount, hydraulics and grill guard, if grill guard is available). Any deviation from standard configuration will require ordering components individually.

COMPACT SERIES LOADERS – MISCELLANEOUS SECTION 3

Miscellaneous – Loader Model LC108

Part No.	Description	Shipping Wt. (lbs.)	Suggested List Price
1005093	Paint – Case of 12 Spray Cans – Red to match Case IH®	13	**$ 170.00**
1005095	Paint – Case of 12 Spray Cans – Blue to match New Holland® Vibrant Blue	13	**170.00**
1005096	Paint – Case of 12 Spray Cans – Blue to match New Holland Ford® Blue	13	**170.00**
1005097	Paint – Case of 12 Spray Cans – Orange to match Kubota®	13	**170.00**
1005098	Paint – Case of 12 Spray Cans – Red to match Massey Ferguson®	13	**170.00**
1024040	Rear Rail Kit – For Kubota L3240/L3540/L3940 (LC108 Loader only)	78	**$ 327.00**

COMPACT SERIES LOADERS – TRACTOR NOTES SECTION 4

Tractor Notes – Loader Model LC108

1. **Requires John Deere® Selective Control Valve (SCV) and Woods® hose kit to connect to tractor mid-remote couplers.**
2. **If tractor is equipped with John Deere BM18010 rear quick coupler kit, use Woods hose kit 1023542. If tractor is equipped with John Deere Selective Control Valve (SCV), use Woods hose kit 1023616.**
3. **Will not fit 3-cylinder tractors with 29 x 12.5 x 15 turf tires.**
4. **Grill guard required for LC108 Loader.**
5. **Recommend LC96 or LC102 Woods model loader on tractors without Super Steer®. LC108 Loader is required to fit tractors with Super Steer.**
6. **2-function valve kit 1023511 includes all hoses and fittings to connect to tractor hydraulic system.**
7. **Tractors with Cab must be equipped with OEM loader valve and remote quick couplers.**
8. **Hose kit 1023625 for tractor remotes does not include quick couplers.**
9. **Tractor must be equipped with Kioti® mid-remote cable valve and couplers to use hose kit 1025739.**
10. **LC108 Loader requires 1024040 Rear Rail Kit to prevent damage to tractor or mounting kit. Refer to Miscellaneous section for pricing.**

COMPACT SERIES LOADERS – COMPONENT ORDER

LC108 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored in loader boom cross tube
Rod bucket level indicator
4-bar bucket linkage
Manual tube on the loader boom cross tube
Optional Quick Attach Coupler System
Construction bucket
2-year warranty

SPECIFICATIONS:

Fits 28 – 50 hp tractors (2WD & FWA)
Lift height: 108 inches
Lift cylinders: 2.36 inches; Bucket cylinders: 2.36 inches
Lift capacity at bucket pins: 2175 lbs.
Lift capacity at 19.7 inches ahead of bucket pivot pins: 1800 lbs.
Breakout at bucket pins: 3850 lbs.
Breakout at 19.7 inches ahead of bucket pivot pins: 3000 lbs.
Maximum digging depth: 5 inches
Dump angle: 58 degrees
Roll back angle: 35 degrees
Reach: 40 inches
Pivot pins diameter: 1.25 inches

To Order a Complete Loader by Ordering Individual Components

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Compact Series).
- Go to the appropriate Loader Model **Component Order** tab.
- Find the tractor brand / model you are fitting in the **Tractor Reference** section – part numbers needed to configure a loader are listed (except loader frame and bucket).
- Order loader frame.
- Order front-end attachment(s).
- Order mounting kit.
- Order valve kit.
- Order hose kit OR 4-hose kit to connect to OEM remote valve.
- Order grill guard.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages. Prices for each component are listed in the appropriate component section.
If you have any questions, please contact Woods® Dealer Services.

EXAMPLE:
When ordering a loader to fit a Kubota® tractor, model L3430 ROPS, do the following:

1. The Kubota L3430 ROPS tractor is fit by one Woods loader model: LC108. (Reference the Tractor/Loader Adaptability Chart.)
2. Flip to the LC108 **Components** tab and go to the Tractor Reference Chart for components to order to complete the LC108 Loader.
   a. **Section 1** – Order the loader frame #2210844 (Orange to match Kubota).
   b. **Section 2** – Order the bucket #2270066 (66" quick attach bucket) and the Quick Attach Coupler System. Other front end attachments may be ordered within this section.
   c. **Section 3** – Order the mounting kit #W111771.
   d. **Section 4** – Order the valve kit #1023511.
   e. **Section 5** – Order the hose kit # (included with valve) OR the 4-hose kit # (N/A).
   f. **Section 6** – Order grill guard #1006492.

1005097	Paint – Case of 12 Spray Cans – Orange to match Kubota	13	**170.00**
1005098	Paint – Case of 12 Spray Cans – Red to match Massey Ferguson	13	**170.00**

1024040	Rear Rail Kit – For Kubota L3240/L3540/L3940 (LC108 Loader only)	78	**$ 327.00**

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

Tractor Notes – Loader Model LC108

1. **Requires John Deere® Selective Control Valve (SCV) and Woods® hose kit to connect to tractor mid-remote couplers.**
2. **If tractor is equipped with John Deere BM18010 rear quick coupler kit, use Woods hose kit 1023542. If tractor is equipped with John Deere Selective Control Valve (SCV), use Woods hose kit 1023616.**
3. **Will not fit 3-cylinder tractors with 29 x 12.5 x 15 turf tires.**
4. **Grill guard required for LC108 Loader.**
5. **Recommend LC96 or LC102 Woods model loader on tractors without Super Steer®. LC108 Loader is required to fit tractors with Super Steer.**
6. **2-function valve kit 1023511 includes all hoses and fittings to connect to tractor hydraulic system.**
7. **Tractors with Cab must be equipped with OEM loader valve and remote quick couplers.**
8. **Hose kit 1023625 for tractor remotes does not include quick couplers.**
9. **Tractor must be equipped with Kioti® mid-remote cable valve and couplers to use hose kit 1025739.**
10. **LC108 Loader requires 1024040 Rear Rail Kit to prevent damage to tractor or mounting kit. Refer to Miscellaneous section for pricing.**

COMPACT SERIES LOADERS – QUICK ORDER SECTION

LC114 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored in loader boom cross tube
Rod bucket level indicator
4-bar bucket linkage
Manual tube on the loader boom cross tube
Optional Quick Attach Coupler System
2-year warranty

SPECIFICATIONS:

Fits 30 – 50 hp tractors (2WD & FWA)
Lift height: 114 inches
Lift cylinders: 2.48 inches; Bucket cylinders: 2.36 inches
Lift capacity at bucket pins: 2400 lbs.
Lift capacity at 19.7 inches ahead of bucket pivot pins: 1950 lbs.
Breakout at bucket pins: 4600 lbs.
Breakout at 19.7 inches ahead of bucket pivot pins: 3400 lbs.
Maximum digging depth: 5 inches
Dump angle: 50 degrees
Roll back angle: 35 degrees
Reach: 32 inches
Pivot pins diameter: 1.25 inches

To Order a Complete Loader Using the Woods® Quick Order System

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Compact Series).
- Go to the appropriate Loader Model **Quick Order** tab.
- Find the tractor brand / model you are fitting.
- Order loader frame.
- Order Quick Attachment Carrier System and quick attach bucket.
- Order completing kit.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages.
Prices for each component are listed in the appropriate component section.
If you have any questions, please contact Woods Dealer Services.

EXAMPLE

When ordering a loader to fit a Ford®-New Holland® tractor, model 3930 ROPS, do the following:

1. The Ford-New Holland 3930 ROPS tractor is fit by two Woods loader models: LC108 and LC114. (Reference Tractor/Loader Adaptability Chart.) We are selecting the LC114 model.
2. Flip to the LC114 **Quick Order** tab.
3. **Section 1** – Select tractor brand and model that the LC114 loader is to fit: Ford-New Holland 3930 ROPS.
   a. Order the loader frame #2211443 (Blue to match Ford-New Holland).
   b. Order the bucket #2270072 (72" quick attach bucket).
   c. Order Quick Attach Coupler System #2350000.
   d. Order the completing kit #111764D2. Completing kit includes loader mount, valve, hose kit and grill guard (if available). List price of complete loader is $9,187; total weight is 921 lbs.

Unless noted, each "Loader Complete" STANDARD configuration includes loader, bucket, and completing kit (mount, hydraulics and grill guard, if grill guard is available). Any deviation from standard configuration will require ordering components individually.

COMPACT SERIES LOADERS – TRACTOR NOTES SECTION 4

Tractor Notes – Loader Model LC114

1. Requires John Deere® Selective Control Valve (SCV) and Woods® hose kit to connect to tractor mid-remote couplers.

2. 2-function valve kit 1023511 includes all hoses and fittings to connect to tractor hydraulic system.

3. Tractor must be equipped with OEM loader valve and remote quick couplers.

4. Hose kit 1023625 for tractor remotes does not include quick couplers.

COMPACT SERIES LOADERS – COMPONENT ORDER

LC114 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored in loader boom cross tube
Rod bucket level indicator
4-bar bucket linkage
Manual tube on the loader boom cross tube
Optional Quick Attach Coupler System
2-year warranty

SPECIFICATIONS:

Fits 30 – 50 hp tractors (2WD & FWA)
Lift height: 114 inches
Lift cylinders: 2.48 inches; Bucket cylinders: 2.36 inches
Lift capacity at bucket pins: 2400 lbs.
Lift capacity at 19.7 inches ahead of bucket pivot pins: 1950 lbs.
Breakout at bucket pins: 4600 lbs.
Breakout at 19.7 inches ahead of bucket pivot pins: 3400 lbs.
Maximum digging depth: 5 inches
Dump angle: 50 degrees
Roll back angle: 35 degrees
Reach: 32 inches
Pivot pins diameter: 1.25 inches

To Order a Complete Loader by Ordering Individual Components

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Compact Series).
- Go to the appropriate Loader Model **Component Order** tab.
- Find the tractor brand / model you are fitting in the **Tractor Reference** section – part numbers needed to configure a loader are listed (except loader frame and bucket).
- Order loader frame.
- Order front-end attachment(s).
- Order mounting kit.
- Order valve kit.
- Order hose kit OR 4-hose kit to connect to OEM remote valve.
- Order grill guard.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages.
Prices for each component are listed in the appropriate component section.
If you have any questions, please contact Woods® Dealer Services.

EXAMPLE:
When ordering a loader to fit a Kubota® tractor, model L4630 CAB, do the following:

1. The Kubota L4630 CAB tractor is fit by two Woods loader models: LC108 and LC114. (Reference the Tractor/Loader Adaptability Chart.) Let's select the LC114.
2. Flip to the LC114 **Components** tab and go to the Tractor Reference Chart for components to order to complete the LC114 Loader.
   a. **Section 1** – Order the loader frame #2211444 (Orange to match Kubota).
   b. **Section 2** – Order the bucket #2270072 (72" quick attach bucket) and the Quick Attach Coupler System. Other front end attachments may be ordered within this section.
   c. **Section 3** – Order the mounting kit #W111772.
   d. **Section 4** – Order the valve kit #1023510.
   e. **Section 5** – Order the hose kit #1023550 OR the 4-hose kit # (N/A).
   f. **Section 6** – Order grill guard #1006492.

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

COMPACT SERIES LOADERS – TRACTOR NOTES SECTION 8

Tractor Notes – Loader Model LC114

1. Requires John Deere® Selective Control Valve (SCV) and Woods® hose kit to connect to tractor mid-remote couplers.

2. 2-function valve kit 1023511 includes all hoses and fittings to connect to tractor hydraulic system.

3. Tractor must be equipped with OEM loader valve and remote quick couplers.

4. Hose kit 1023625 for tractor remotes does not include quick couplers.

UTILITY SERIES LOADERS – QUICK ORDER SECTION

LU126 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored in loader boom cross tube
Rod bucket level indicator
4-bar bucket linkage
Manual tube on the loader boom cross tube
Optional Quick Attach Coupler System
Construction grade buckets
2-year warranty

SPECIFICATIONS:

Fits 45 – 90 hp tractors (2WD & FWA)
Lift height: 126 inches
Lift cylinders: 2.48 inches; Bucket cylinders: 2.76 inches
Lift capacity at bucket pins: 3000 lbs.
Lift capacity at 31.5 inches ahead of bucket pivot pins: 1970 lbs.
Capacities rated at 2750 psi
Breakout at bucket pins: 4650 lbs.
Breakout at 31.5 inches ahead of bucket pivot pins: 3250 lbs.
Maximum digging depth: 5 inches
Dump angle: 50 degrees
Roll back angle: 35 degrees
Reach at maximum height: 29 inches
Pivot pins diameter: 1.25 inches

To Order a Complete Loader Using the Woods® Quick Order System

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Utility Series).
- Go to the appropriate Loader Model **Quick Order** tab.
- Find the tractor brand / model you are fitting.
- Order loader frame.
- Order Quick Attachment Carrier System and quick attach bucket.
- Order completing kit.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages. Prices for each component are listed in the appropriate component section. If you have any questions, please contact Woods Dealer Services.

EXAMPLE

When ordering a loader to fit a Case IH® tractor, model Farmall 65A 4WD ROPS, do the following:

1. The Case IH Farmall 65A 4WD ROPS tractor is fit by one Woods loader model: LU126. (Reference Tractor/Loader Adaptability Chart.)
2. Flip to the LU126 **Quick Order** tab.
3. **Section 1** – Select tractor brand and model that the LU126 loader is to fit: Case IH Farmall 65A 4WD ROPS.
   a. Order the loader frame #2312652 (Red to match Case IH).
   b. Order the bucket #2370072 (72" quick attach bucket).
   c. Order Quick Attach Coupler System #2350000.
   d. Order the completing kit #2300031D. Completing kit includes loader mount, valve, hose kit and grill guard (if available). List price of complete loader is $10,322; total weight is 1184 lbs.

Unless noted, each "Loader Complete" STANDARD configuration includes loader, bucket, and completing kit (mount, hydraulics and grill guard, if grill guard is available). Any deviation from standard configuration will require ordering components individually.

***** Completing Kits that end in D/D2/D3 contain mounting kit, Woods Hydraulic Package (2-spool direct control valve and hose kit) and grill guard, if available.
Completing Kits that end in C2 or C3 contain mounting kit, Woods Hydraulic Package (2-spool cable control valve and hose kit) and grill guard, if available.
Completing Kits that end in H, H2 or H3 contain mounting kit, 4-hose kit (to connect loader to OEM remote valve) and grill guard, if available.
Completing Kits that end in HM2 contain mounting kit, 4-hose kit (to connect loader to OEM midmount valve) and grill guard, if available.
Completing Kits that end in HR2 contain mounting kit, 4-hose kit (to connect loader to tractor rear remotes) and grill guard, if available.

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

Unless noted, each "Loader Complete" STANDARD configuration includes loader, bucket, and completing kit (mount, hydraulics and grill guard, if grill guard is available). Any deviation from standard configuration will require ordering components individually.

UTILITY SERIES LOADERS – MISCELLANEOUS SECTION 3

Miscellaneous – Loader Model LU126

Part No.	Description	Shipping Wt. (lbs.)	Suggested List Price
1005093	Paint – Case of 12 Spray Cans – Red to match Case IH®	13	**$ 170.00**
1005095	Paint – Case of 12 Spray Cans – Blue to match New Holland® Vibrant Blue	13	**170.00**
1005096	Paint – Case of 12 Spray Cans – Blue to match New Holland Ford® Blue	13	**170.00**
1005097	Paint – Case of 12 Spray Cans – Orange to match Kubota®	13	**170.00**
1005098	Paint – Case of 12 Spray Cans – Red to match Massey Ferguson®	13	**170.00**

UTILITY SERIES LOADERS – TRACTOR NOTES SECTION 4

Tractor Notes – Loader Model LU126

1. Hose kit 1023564 for open center hydraulics ONLY.
2. Fits Series I and II.
3. Does not fit with heavy-duty, I-beam front axle (585/595).
4. Use Case/New Holland joystick OEM valve.
5. John Deere® selective control valve (SCV) requires Woods hose kit 58025 to connect to tractor rear-remote couplers.
6. John Deere selective control valve (SCV) requires Woods hose kit 57924.
7. Fits 12.4 x 24 and smaller front tires.
8. Hose Kit 1023566 requires selector valve #TS300 from Tisco® or 1075120M92 from Massey Ferguson.
9. Does not fit tractors with swept-back front axles. For tractors with swept-back front axles use mounting kit 111877.
10. Does not fit tractors with straight front axles. For tractors with straight front axles use mounting kit 111876.
11. Does not fit tractors with Super Steer® or Orchard/Vineyard models.
12. Mount is compatible with OEM cable control valve kit, but additional fittings may be required.
13. Hose kit 1010460 requires OEM mid-remote loader valve.
14. Hose kit 1028835 may be used to connect to OEM mid-remote loader valve.
15. Grill guard can be used with or without optional front weight bracket.
16. Hose kit 1002877 connects to tractor mid-remote couplers, and requires John Deere Mid Selective Control Valve (SCV).
17. Hose kit 1028836 requires tractor mid-mount loader valve.
18. Hose kit 58029 requires one rear tractor remote valve to provide oil flow to the loader valve.
19. Tractor steering stop adjustment required for some tire sizes and front tread settings.
20. Requires OEM mid-mount loader control valve.
21. Not compatible with OEM "Loader Ready" mounting brackets.
22. Tractor must be equipped with vertical exhaust.
23. Tractors with Cab require valve kit 1028845 and hose kit 1023557 OR John Deere Selective Control Valve (SCV) and 4-hose kit.
24. Tractors with Cab, use Component Order pages to complete order.
25. Hose kit connects to OEM loader valve supplied with tractor.
26. Tractor must be equipped with OEM "Loader Ready" mounting brackets.
27. Hose kit 1028989 connects to tractor mid-remote couplers and requires John Deere Mid Selective Control Valve (SCV).
28. Not compatible with platform or row crop tractors.

UTILITY SERIES LOADERS – COMPONENT ORDER

LU126 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored in loader boom cross tube
Rod bucket level indicator
4-bar bucket linkage
Manual tube on the loader boom cross tube
Optional Quick Attach Coupler System
Construction grade buckets
2-year warranty

SPECIFICATIONS:

Fits 45 – 90 hp tractors (2WD & FWA)
Lift height: 126 inches
Lift cylinders: 2.48 inches; Bucket cylinders: 2.76 inches
Lift capacity at bucket pins: 3000 lbs.
Lift capacity at 31.5 inches ahead of bucket pivot pins: 1970 lbs.
Capacities rated at 2750 psi
Breakout at bucket pins: 4650 lbs.
Breakout at 31.5 inches ahead of bucket pivot pins: 3250 lbs.
Maximum digging depth: 5 inches
Dump angle: 50 degrees
Roll back angle: 35 degrees
Reach at maximum height: 29 inches
Pivot pins diameter: 1.25 inches

To Order a Complete Loader by Ordering Individual Components

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Utility Series).
- Go to the appropriate Loader Model **Component Order** tab.
- Find the tractor brand / model you are fitting in the **Tractor Reference** section – part numbers needed to configure a loader are listed (except loader frame and bucket).
- Order loader frame.
- Order front-end attachment(s).
- Order mounting kit.
- Order valve kit.
- Order hose kit OR 4-hose kit to connect to OEM remote valve.
- Order grill guard.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages.
Prices for each component are listed in the appropriate component section.
If you have any questions, please contact Woods® Dealer Services.

EXAMPLE:

When ordering a loader to fit a Ford®-New Holland® tractor, model TN60A, do the following:

1. The Ford-New Holland TN60A tractor is fit by two Woods loader models: LU126 and LU132. (Reference the Tractor/Loader Adaptability Chart.) Let's select the LU126.
2. Flip to the LU126 **Components** tab and go to the Tractor Reference Chart for components to order to complete the LU126 Loader.
   a. **Section 1** – Order the loader frame #2312657 (Vibrant Blue to match New Holland).
   b. **Section 2** – Order the bucket #2370072 (72" quick attach bucket) and the Quick Attach Coupler System. Other front end attachments may be ordered within this section.
   c. **Section 3** – Order the mounting kit #W111897.
   d. **Section 4** – Order the valve kit #1028841.
   e. **Section 5** – #1023583 included with valve OR the 4-hose kit #1010460 if using OEM loader valve.
   f. **Section 6** – Order grill guard #1012018.

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

Tractor Notes – Loader Model LU126

1. Hose kit 1023564 for open center hydraulics ONLY.
2. Fits Series I and II.
3. Does not fit with heavy-duty, I-beam front axle (585/595).
4. Use Case/New Holland® joystick OEM valve.
5. John Deere® selective control valve (SCV) requires Woods hose kit 58025 to connect to tractor rear-remote couplers.
6. John Deere selective control valve (SCV) requires Woods hose kit 57924.
7. Fits 12.4 x 24 and smaller front tires.
8. Hose Kit 1023566 requires selector valve #TS300 from Tisco® or 1075120M92 from Massey Ferguson®.
9. Does not fit tractors with swept-back front axles. For tractors with swept-back front axles use mounting kit 111877.
10. Does not fit tractors with straight front axles. For tractors with straight front axles use mounting kit 111876.
11. Does not fit tractors with Super Steer® or Orchard/Vineyard models.
12. Mount is compatible with OEM cable control valve kit, but additional fittings may be required.
13. Hose kit 1010460 requires OEM mid-remote loader valve.
14. Hose kit 1028835 may be used to connect to OEM mid-remote loader valve.
15. Grill guard can be used with or without optional front weight bracket.
16. Hose kit 1002877 connects to tractor mid-remote couplers, and requires John Deere Mid Selective Control Valve (SCV).
17. Hose kit 1028836 requires tractor mid-mount loader valve.
18. Hose kit 58029 requires one rear tractor remote valve to provide oil flow to the loader valve.
19. Tractor steering stop adjustment required for some tire sizes and front tread settings.
20. Requires OEM mid-mount loader control valve.
21. Not compatible with OEM “Loader Ready” mounting brackets.
22. Tractor must be equipped with vertical exhaust.
23. Tractors with Cab require valve kit 1028845 and hose kit 1023557 OR John Deere Selective Control Valve (SCV) and 4-hose kit.
24. Tractors with Cab, use Component Order pages to complete order.
25. Hose kit connects to OEM loader valve supplied with tractor.
26. Tractor must be equipped with OEM “Loader Ready” mounting brackets.
27. Hose kit 1028989 connects to tractor mid-remote couplers and requires John Deere Mid Selective Control Valve (SCV).
28. Not compatible with platform or row crop tractors.

UTILITY SERIES LOADERS – QUICK ORDER SECTION

LU132 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored in loader boom cross tube
Rod bucket level indicator
4-bar bucket linkage
Manual tube on the loader boom cross tube
Optional Quick Attach Coupler System
2-year warranty

SPECIFICATIONS:

Fits 45 – 90 hp tractors (2WD & FWA)
Lift height: 132 inches
Lift cylinders: 2.76 inches; Bucket cylinders: 2.76 inches
Lift capacity at bucket pins: 3500 lbs.
Lift capacity at 31.5 inches ahead of bucket pivot pins: 2400 lbs.
Capacities rated at 2750 psi
Breakout at bucket pins: 5000 lbs.
Breakout at 31.5 inches ahead of bucket pivot pins: 3800 lbs.
Maximum digging depth: 5 inches
Dump angle: 50 degrees
Roll back angle: 35 degrees
Reach at maximum height: 31 inches
Pivot pins diameter: 1.25 inches

To Order a Complete Loader Using the Woods® Quick Order System

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Utility Series).
- Go to the appropriate Loader Model **Quick Order** tab.
- Find the tractor brand / model you are fitting.
- Order loader frame.
- Order Quick Attachment Carrier System and quick attach bucket.
- Order completing kit.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages. Prices for each component are listed in the appropriate component section. If you have any questions, please contact Woods Dealer Services.

EXAMPLE

When ordering a loader to fit a Case-IH® tractor, model Farmall 90/95 4WD CAB, do the following:

1. The Case IH Farmall 90/95 4WD CAB, is fit by two Woods loader models: LU126 and LU132. (Reference Tractor/Loader Adaptability Chart.) We are selecting the LU132 model.
2. Flip to the LU132 **Quick Order** tab.
3. **Section 1** – Select tractor brand and model that the LU132 loader is to fit: Case IH Farmall 90/95 4WD CAB.
   a. Order the loader frame #2313252 (Red to match Case IH).
   b. Order the bucket #2370084 (84" quick attach bucket).
   c. Order Quick Attach Coupler System #2350000.
   d. Order the completing kit #2300014D. Completing kit includes loader mount, valve, hose kit and grill guard (if available). List price of complete loader is $11,352; total weight is 1789 lbs.

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

Unless noted, each "Loader Complete" STANDARD configuration includes loader, bucket, and completing kit (mount, hydraulics and grill guard, if grill guard is available). Any deviation from standard configuration will require ordering components individually.

1024092	Exhaust Relocation Kit	17	**$ 295.00**

UTILITY SERIES LOADERS – TRACTOR NOTES — SECTION 4

Tractor Notes – Loader Model LU132

1. **Requires Case/New Holland joystick OEM valve.**
2. **Does not fit tractors with Super Steer® or Orchard/Vineyard models.**
3. **Mount is compatible with OEM cable control valve kit, but additional fittings may be required.**
4. **Hose kit 1010460 requires OEM mid-remote loader valve.**
5. **Hose kit 1028835 may be used to connect to OEM mid-remote loader valve.**
6. **Hose kit 1028836 requires mid-mount loader valve.**
7. **ROPS tractors and some CAB models with exhaust in the middle of the hood must order Exhaust Relocation Kit 1024092. Refer to Miscellaneous section for pricing.**
8. **Tractor steering stop adjustment required for some tire sizes and front tread settings.**
9. **Requires OEM mid-mount loader control valve.**
10. **Not compatible with OEM "Loader Ready" mounting brackets.**
11. **Tractor must be equipped with vertical exhaust.**
12. **Hose kit connects to OEM loader valve supplied with tractor.**
13. **Tractor must be equipped with OEM "Loader Ready" mounting brackets.**

UTILITY SERIES LOADERS – COMPONENT ORDER

LU132 Features and Specifications

FEATURES:

Curved loader boom
Midmount loader boom attachment
Fast D-Tach loader
Parking stands – stored in loader boom cross tube
Rod bucket level indicator
4-bar bucket linkage
Manual tube on the loader boom cross tube
Optional Quick Attach Coupler System
2-year warranty

SPECIFICATIONS:

Fits 45 – 90 hp tractors (2WD & FWA)
Lift height: 132 inches
Lift cylinders: 2.76 inches; Bucket cylinders: 2.76 inches
Lift capacity at bucket pins: 3500 lbs.
Lift capacity at 31.5 inches ahead of bucket pivot pins: 2400 lbs.
Capacities rated at 2750 psi
Breakout at bucket pins: 5000 lbs.
Breakout at 31.5 inches ahead of bucket pivot pins: 3800 lbs.
Maximum digging depth: 5 inches
Dump angle: 50 degrees
Roll back angle: 35 degrees
Reach at maximum height: 31 inches
Pivot pins diameter: 1.25 inches

To Order a Complete Loader by Ordering Individual Components

- Find the tractor brand and model you are attempting to fit in the **Tractor/Loader Adaptability Chart**.
- Select the loader model you wish to price (each model belongs to a Loader Series, i.e., Utility Series).
- Go to the appropriate Loader Model **Component Order** tab.
- Find the tractor brand / model you are fitting in the **Tractor Reference** section – part numbers needed to configure a loader are listed (except loader frame and bucket).
- Order loader frame.
- Order front-end attachment(s).
- Order mounting kit.
- Order valve kit.
- Order hose kit OR 4-hose kit to connect to OEM remote valve.
- Order grill guard.

Be sure to refer to the "Notes" column; Tractor Notes are found at the end of each tabbed section in the Loader price pages. Prices for each component are listed in the appropriate component section. If you have any questions, please contact Woods® Dealer Services.

EXAMPLE:

When ordering a loader to fit a Ford®-New Holland® tractor, model TN65, do the following:

1. The Ford-New Holland TN65 tractor is fit by two Woods loader models: LU126 and LU132. (Reference the Tractor/Loader Adaptability Chart.) Let's select LU132.
2. Flip to the LU132 **Components** tab and go to the Tractor Reference Chart for components to order to complete the LU132 Loader.
   a. **Section 1** – Order the loader frame #2313257 (Vibrant Blue to match New Holland).
   b. **Section 2** – Order the bucket #2370072 (72" quick attach bucket) and the Quick Attach Coupler System. Other front end attachments may be ordered within this section.
   c. **Section 3** – Order the mounting kit #111874.
   d. **Section 4** – Order the valve kit #1028841.
   e. **Section 5** – Order hose kit #1023583 included with valve OR the 4-hose kit #58025 if using OEM loader valve.
   f. **Section 6** – Order grill guard #40448.

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

LOADER ATTACHMENTS – WOODS® ALITEC™ GRAPPLE BUCKETS

The attachments in this section are designed to fit various models of front end loaders and skid steer loaders.

Heavy-Duty, Low-Profile Root Grapples

FEATURES:

- Compatible with Skid Steer (ISO 24410) and Euro (ISO 23206) Quick Attach Systems
- Made with grade 80 steel – 2x stronger than mild steel – reducing the weight but maintaining the strength required for any skid steer or tractor application
- Woods proprietary serrated cutting edge holds fast to trees and debris
- Unique design allows smooth grading of surfaces after removing debris
- Twin hydraulic cylinders allow for independent clamping on uneven material while cylinder placement improves visibility
- Cylinder guards standard, protecting rods and hoses for longer life
- Optional slat kit adds versatility by reducing tine spacing when application requires
- Greasable Pivots
- Hydraulic hoses and QD couplers (per ISO standard 16028) included
- Ag Tractor Sizes: 45 – 100 hp (up to 10,000 lbs.)
- Length: 34”
- Height: 27”
- Grapple Opening: 37”
- Grapple Width: 19”
- Cylinder Bore: 2.76”
- Cylinder Rod: 1.38”
- Pivot Pins: 1.25”

LOADER ATTACHMENTS – WOODS® ALITEC™ GRAPPLE BUCKETS (Continued)

The attachments in this section are designed to fit various models of front end loaders and skid steer loaders.

Heavy-Duty, Low-Profile Scrap Grapples

FEATURES:

- Compatible with Skid Steer (ISO 24410) and Euro (ISO 23206) Quick Attach Systems
- Made with grade 80 steel – 2x stronger than mild steel – reducing the weight but maintaining the strength required for any skid steer or tractor application
- Single, beveled cutting edge with back-up bar
- Twin hydraulic cylinders allow for independent clamping on uneven material while cylinder placement improves visibility
- Cylinder guards standard, protecting rods and hoses for longer life
- Optional bolt-on, double beveled edge and end plate extensions enhance versatility
- Greasable Pivots
- Hydraulic hoses and QD couplers (per ISO standard 16028) included
- Ag Tractor Sizes: 45 – 100 hp (up to 10,000 lbs.)
- Length: 35”
- Height: 27”
- Grapple Opening: 39”
- Grapple Width: 19”
- Cylinder Bore: 2.76”
- Cylinder Rod: 1.38”
- Pivot Pins: 1.25”

BACKHOE – TRACTOR MOUNTED

6.5-foot – BH65 Groundbreaker®

FEATURES:

Excavator style curved boom for better visibility

Woods' unique easy on/easy off 4-point mounting – no tools required — EXCLUSIVE FEATURE

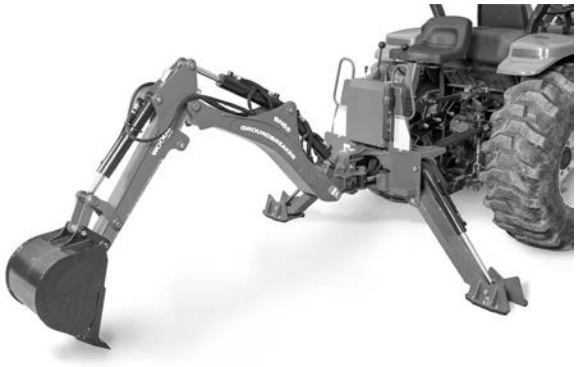
Available mechanical thumb

Available 3-point hitch SAF-T-LOK® mounting

Large walk-through operator's platform

Mountings compatible with 3-point and sub-frames

2-year warranty



Specifications:

Tractor PTO HP	15 – 30 hp
Digging Depth (2-foot flat bottom)	6 feet, 6 inches
Swing Arc	150 degrees
Bucket Rotation	180 degrees
Loading Height	5 feet
Loading Reach	2 feet, 9.5 inches
Transport Height	5 feet, 6.5 inches
Reach from Swing Pivot	8 feet, 6 inches
Dipperstick Digging Force	1590 lbs.
Bucket Digging Force	2800 lbs.
Required Hydraulic Flow	3 – 5 gpm
Rated Pressure	2030 psi

WARNING

To avoid hitch failure and possible operator injury, before mounting the BH65 backhoe to the tractor 3-point hitch, verify that the hitch meets ASABE Category 1 standards. Also observe the maximum and minimum hitch dimensions described in the safety and assembly sections of the Operator's Manuals. Woods® makes no warranty, implied or otherwise, concerning the structural integrity of any tractor's 3-point hitch or tractor frame housing assembly. Sub-frame kits, listed on the following pages, are required for all tractors listed, unless otherwise noted. If tractor is not equipped with front end loader, front end ballast is required for safety and stability.

NOTE: Includes basic unit only. Does not include bucket, mounting kit, seat or hydraulic kit. Order from below to complete.

BH65 - BASE UNIT (WITHOUT THUMB)

Part No.	Description	Shipping Wt. (lbs.)	Suggested List Price
1040300	Universal Black	695	**$ 5,670.00**

BACKHOE – TRACTOR MOUNTED

6.5-foot – BH65 Groundbreaker® (Continued)

NOTES:

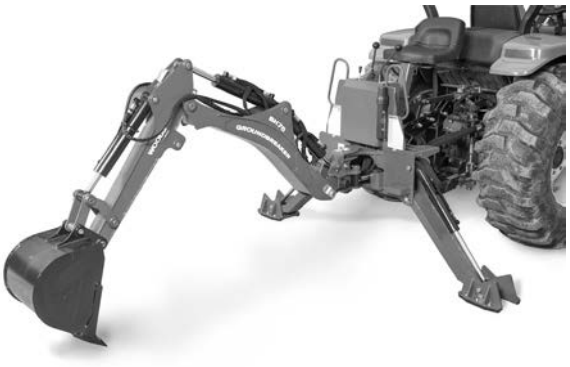
1. **Tractor must be equipped with Woods® or OEM loader.**
2. **Seat conversion kit (to use OEM seat purchased with tractor) is provided.**
3. **Woods seat provided as component of mounting kit.**
4. **Sub-frame required. Do NOT use 3-point hitch kit.**
5. **Backhoe mounting kit is compatible with OEM mid-mower, and requires John Deere® lock-up kit for mower.**
6. **Tractor must be equipped with John Deere PBY kit #BM19290.**
7. **Tractor requires OEM valve kit #590-620-100.**
8. **Front wheel weight kit #1007259 is recommended (see Accessories section on previous page).**
9. **Backhoe is NOT compatible with independent hydraulic lift kit for mid-mower.**
10. **Operators who are 6' tall or taller may not have adequate, comfortable head clearance with the ROPS on the Cub Cadet®/Yanmar® SC2400 and Kubota® BX1850, BX2350, BX2360 or BX2660 tractor while operating this backhoe. In some cases, use of a hard hat or other protective head gear may be necessary.**
11. **Must order wheel spacer kit #1016450 when mounting on JD2320, JD2520, JD2720, JD4110 or JD2025R.**
12. **Tractor must be equipped with John Deere PBY kit #LVB25603.**
13. **Backhoe may be installed with mid-mower in raised locked position. Remove backhoe to use mid-mower.**
14. **Tractor must be equipped with John Deere dual Selective Control Valve (SCV).**
15. **Tractor must be equipped with mid-mount valve for BH hydraulics.**
16. **Must order Kubota wheel spacer kit #B8785 for Kubota B3030 tractor equipped with turf tires.**
17. **Not recommended for use with industrial tires (27x12, 50-15 NHS).**

BACKHOE – TRACTOR MOUNTED

7.5-foot – BH75 Groundbreaker®

FEATURES:

Excavator style curved boom for better visibility
Two-cylinder swing mechanism
Woods' unique easy on/easy off 4-point mounting – no tools required (system available for many tractor models) ◀ EXCLUSIVE FEATURE
Available mechanical thumb
Available 3-point hitch SAF-T-LOK® mounting
Adjustable cushioned seat
Large walk-through operator's platform
Mountings compatible with 3-point and sub-frames
2-year warranty



Specifications:

Tractor PTO HP	20 – 40 hp
Digging Depth (2-foot flat bottom)	7 feet, 6 inches
Swing Arc	180 degrees
Bucket Rotation	180 degrees
Loading Height	6 feet, 1 inch
Loading Reach	3 feet, 10 inches
Transport Height	6 feet, 2 inches
Reach from Swing Pivot	9 feet, 11 inches
Dipperstick Digging Force	2230 lbs.
Bucket Digging Force	3380 lbs.
Required Hydraulic Flow	4 – 6 gpm
Rated Pressure	2470 psi

WARNING

To avoid hitch failure and possible operator injury, before mounting the BH75 backhoe to the tractor 3-point hitch, verify that the hitch meets ASABE standards. Also observe the maximum and minimum hitch dimensions described in the safety and assembly sections of the Operator's Manuals. Woods® makes no warranty, implied or otherwise, concerning the structural integrity of any tractor's 3-point hitch or tractor frame housing assembly. Sub-frame kits, listed on the following pages, are required for all tractors listed. If tractor is not equipped with front end loader, front end ballast is required for safety and stability. Skid steer mounting kits are required for all skid steers.

NOTE: Includes basic unit only. Does not include bucket, mounting kit or hydraulic kit. Order from below to complete.

BH75 - BASE UNIT (WITHOUT THUMB)

Part No.	Description	Shipping Wt. (lbs.)	Suggested List Price

BACKHOE – TRACTOR MOUNTED

7.5-foot – BH75 Groundbreaker® (Continued)

NOTES:

1. **Due to inadequate ROPS clearance, special John Deere® ROPS #AM107212 is required; order from John Deere.**
2. **Due to inadequate ROPS clearance, special John Deere ROPS #AM104044 is required; order from John Deere.**
3. **Fits 2WD & 4WD: Gear & HST.**
4. **For 1320, 1520, 1620 and 1715 – also order #51962 reinforcement kit. For 155/165 loader only (not needed with OEM loader).**
5. **Tractor must be equipped with Woods® or OEM loader.**
6. **Super Steer front axle compatible.**
7. **Due to inadequate ROPS clearance, special Kubota® ROPS #B1073 is required; order from Kubota.**
8. **Ground clearance approximately 5-3/4 inches at rear of sub-frame with Ag & Turf tires, approximately 6-3/4 inches with construction tires.**
9. **Optional tool box mounting bracket available; order #1001761.**
10. **Will fit cab and non-cab tractors.**
11. **Not recommended for installation on tractors with 41/18LL x 16.1 rear Galaxy® turf tires.**
12. **If using Woods loader mounting kit #111747; order mounting bracket #37994.**
13. **When using OEM loader or Woods 1008 loader, Woods kit #1001698 is required. Order separately.**
14. **Tractor must be equipped with Woods loader.**
15. **Woods SAF-T-LOK® 3-point hitch mounting may be used instead. Refer to #1006830 Top Link Bracket Kit – Mounting Kits, Group 1: 3-POINT.**
16. **If not using optional 6 gpm hydraulic PTO pump, use hose kit #1041233 to connect to Woods 1008 loader only.**
17. **Requires hose kit #1041234 to connect to tractor's hydraulic system. Pump kit not available.**
18. **Wheel counterweight #1007259 recommended to meet tractor weight distribution requirements.**
19. **Backhoe mounting kit is compatible with OEM mid-mowers KMR03-60SD and KMR03-60MM.**
20. **Tractor PTO safety lock-out does not allow use of PTO pump kit. Order hose kit #1041235 to connect to tractor's hydraulic system.**
21. **This mount only fits tractors with wet disc brakes.**
22. **PTO pump kit #1039002 is required.**
23. **When using PTO pump kit #1039002, 3-point arms must be removed.**
24. **Will fit only with AG tires; does not fit with industrial or turf tires because tire spacing cannot be adjusted.**
25. **Woods hose kit attaches to John Deere PBY kit, which must be purchased from John Deere.**
26. **Must order hardware package #1013278 for compatibility with Woods 1008 loader.**
27. **3-Point hitch arms can be left on when using hose kit #1041252.**
28. **Rear tire spacing must be set to 44" center with turf and industrial tires.**
29. **Backhoe may be installed with mid-mower in raised locked position. Remove backhoe to use mid-mower.**
30. **Not compatible with PTO pump kit. Order hose kit for tractor hydraulics.**
31. **Some tractors require #1014373 Power Beyond plug. Contact Woods Technical Services or refer to installation manual.**
32. **Hose kit #1041258 is not compatible with tractor remotes.**
33. **Approved with the following rear tire sizes: 16.9 x 28, 14.9 x 28 or 16.9 x 24.**
34. **Tractor PTO safety lock-out does not allow use of PTO pump kit. Order hose kit #1041266 to connect to tractor's hydraulic system.**
35. **Spacer kit #1019056 must be used if using PTO pump kit.**
36. **Adapter kit #1034178 is required for compatibility with McCormick® L250 loader.**
37. **Use hose kit #1041237 if using 1006 loader.**
38. **Must order Kubota wheel spacer kit #B8785 for Kubota B3030 tractor equipped with turf tires.**
39. **Must order spacer kit #1043331 for tractors with Cab.**
40. **Check tractor's hydraulic cover below right side of tractor seat. Hose kit #1041247 is for 4-bolt cover. Hose kit #1044473 is for 3-bolt cover.**
41. **Check tractor's hydraulic cover below right side of tractor seat. Hose kit #1041255 is for 4-bolt cover. Hose kit #1044474 is for 3-bolt cover.**
42. **Must order wheel spacer kit #1044145 for all Cab and ROPS models equipped with R3 (turf) or R4 (industrial) tires.**

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.

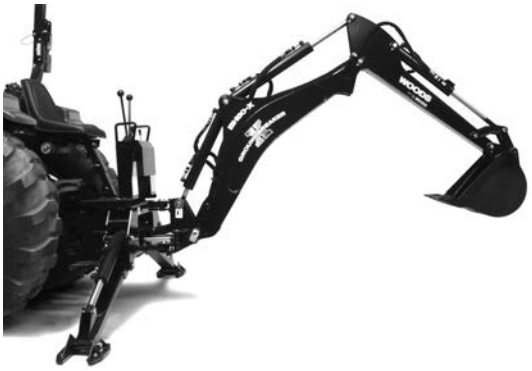
BACKHOE – TRACTOR MOUNTED

8-foot – BH80-X Groundbreaker®

DISCONTINUED
LIMITED QUANTITIES

FEATURES:

- Excavator style curved boom
- Two-cylinder swing mechanism
- Woods' unique easy on/easy off 4-point mounting system available for many tractor models — EXCLUSIVE FEATURE
- Adjustable, high back, cushioned seat
- Large, walk-through operator's platform
- Mountings compatible with 3-point, sub-frames or skid steer
- Construction grade Gannon® buckets — EXCLUSIVE FEATURE
- 2-year warranty



Specifications:

Tractor PTO HP	20 – 45 hp
Digging Depth (2-foot flat bottom)	8 feet, 1/2 inch
Swing Arc	180 degrees
Bucket Rotation	180 degrees
Loading Height	6 feet, 3 inches
Transport Height	6 feet, 10 inches
Reach from Swing Pivot	10 feet, 5 inches
Dipperstick Digging Force	2480 lbs.
Bucket Digging Force	3780 lbs.
Required Hydraulic Flow	5 – 7 gpm
Rated Pressure	2470 psi

WARNING

To avoid hitch failure and possible operator injury, before mounting the BH80-X backhoe to the tractor 3-point hitch, verify that the hitch meets ASABE standards. Also observe the maximum and minimum hitch dimensions described in the safety and assembly sections of the Operator's Manuals. Woods® makes no warranty, implied or otherwise, concerning the structural integrity of any tractor's 3-point hitch or tractor frame housing assembly. Sub-frame kits, listed on the following page, are required for all tractors listed. If tractor is not equipped with front end loader, front end ballast is required for safety and stability. Skid steer mounting kits are required for all skid steers.

NOTE: Includes basic unit only. Does not include bucket or mounting. Order from below to complete.

NOTES:

1. **Due to inadequate ROPS clearance, special John Deere® ROPS #AM107212 is required; order from John Deere.**
2. **Due to inadequate ROPS clearance, special John Deere ROPS #AM104044 is required; order from John Deere.**
3. **Tractor must be equipped with JD80, JD430 or Woods® loader.**
4. **For 1320, 1520, 1620 and 1715 – also order #51962 reinforcement kit. For 155/165 loader only (not needed with OEM loader).**
5. **Tractor must be equipped with Woods or OEM loader.**
6. **Super Steer front axle compatible.**
7. **When using Woods model LS84 or 1006 loader, order #1006363.**
8. **Will fit cab and non-cab tractors.**
9. **Not recommended for installation on tractors with 41/18LL x 16.1 rear Galaxy® turf tires.**
10. **To be used with Woods loader mount #111758.**
11. **Optional tool box mounting bracket available; order #1001761.**
12. **If using Woods loader mounting kit #111747; order mounting bracket #37994.**
13. **When using OEM loader or Woods 1008 loader, Woods kit #1001698 is required. Order separately.**
14. **Tractor must be equipped with Woods loader.**
15. **Woods SAF-T-LOK® 3-point hitch mounting may be used instead. Refer to #1006830 Top Link Bracket Kit – Mounting Kits, Group 1: 3-POINT.**
16. **If not using optional 6 gpm hydraulic PTO pump #1012558, use hose kit #1007189 to connect to Woods 1008 loader only.**
17. **Requires hose kit #1007248 to connect to tractor's hydraulic system. Pump kit not available.**
18. **Tractor PTO safety lock-out does not allow use of PTO pump kit. Order hose kit #1009575 to connect to tractor's hydraulic system.**
19. **This mount only fits tractors with wet disc brakes.**
20. **PTO pump kit #1012558 is required.**
21. **When using PTO pump kit #1012558, 3-point arms must be removed.**
22. **Will fit only with AG tires; does not fit with industrial or turf tires because tire spacing cannot be adjusted.**
23. **Woods hose kit attaches to John Deere PBY kit, which must be purchased from John Deere.**
24. **Must order hardware package #1013278 for compatibility with Woods 1008 loader.**
25. **3-Point hitch arms can be left on when using hose kit #1019008.**
26. **Rear tire spacing must be set to 44" center with turf and industrial tires.**
27. **Backhoe may be installed with mid-mower in raised locked position. Remove backhoe to use mid-mower.**
28. **Not compatible with PTO pump kit. Order hose kit for tractor hydraulics.**
29. **Some tractors require #1014373 Power Beyond plug. Contact Woods Technical Services or refer to installation manual.**
30. **Hose kit #1024864 is not compatible with tractor remotes.**
31. **Approved with the following rear tire sizes: 16.9 x 28, 14.9 x 28 or 16.9 x 24.**
32. **Spacer kit #1019056 must be used if using PTO pump kit.**
33. **Hose kit #1010605 used with Kubota® loaders; hose kit #1010604 used with Woods loaders.**
34. **Adapter kit #1034178 is required for compatibility with McCormick® L250 loader.**
35. **Must order Kubota wheel spacer kit #B8785 for Kubota B3030 tractor equipped with turf tires.**
36. **Not compatible with John Deere electro-hydraulic third function valve.**
37. **Must order spacer kit #1043331 for tractors with Cab.**
38. **Check tractor's hydraulic cover below right side of tractor seat. Host kit #1035602 is for 4-bolt cover. Hose kit #1035603 is for 3-bolt cover.**
39. **Must order wheel spacer kit #1044145 for all Cab and ROPS models equipped with R3 (turf) or R4 (industrial) tires.**

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

BACKHOE – TRACTOR MOUNTED

8.5-foot – BH85 Groundbreaker®

FEATURES:

Two lever operating controls
Woods' unique easy on/easy off 4-point mounting system – no tools required ◀ EXCLUSIVE FEATURE
High back seat
Wide stance stabilizer arms with flip-over cast pad (Street and claw)
Replaceable bushings
Easy access walk-through design
Wear rings on all cylinders
Mountings compatible with 3-point, sub-frames or skid steer
Construction grade buckets
2-year warranty

Specifications:

Tractor Horsepower	30 – 100 hp
Digging Depth (2-foot flat bottom)	8 feet, 6 inches
Swing Arc	180 degrees
Loading Height	6 feet, 11 inches
Transport Height	7 feet, 10 inches
Reach from Swing Pivot	11 feet, 9 inches
Dipperstick Digging Force	2940 lbs.
Bucket Digging Force	4600 lbs.
Required Hydraulic Flow	9 – 12 gpm
Rated Pressure	2465 psi

WARNING

To avoid hitch failure and possible operator injury, before mounting the BH85 backhoe to the tractor 3-pt. hitch, verify that the hitch meets ASABE standards. Also observe the maximum and minimum hitch dimensions described in the safety and assembly sections of the Operator's Manuals. Woods® makes no warranty, implied or otherwise, concerning the structural integrity of any tractor's 3-point hitch or tractor frame housing assembly. If tractor is not equipped with front end loader, front end ballast is required for safety and stability.

WARNING: Sub-frame kits listed are required for all tractors listed.

NOTE: Includes basic unit only. Does not include bucket, mounting kit or pump kit. Order from below to complete.

BACKHOE – TRACTOR MOUNTED

8.5-foot – BH85 Groundbreaker® (Continued)

NOTES:

1. **Tractor must be equipped with Woods® or OEM loader.**
2. **When using New Holland® Model 7309 Loader, Woods #44442 reinforcement kit is required.**
3. **Hose kit #46561 to be used to connect to tractor remote hydraulics in lieu of self-contained pump kit.**
4. **Will not fit tractors with 18.4 – 16.1 or 21.5 – 16.1 rear tires.**
5. **To be used only with Woods loader mount #111758.**
6. **Approved with the following rear tire sizes: 16.9 x 28, 14.9 x 28, 16.9 x 24 or 17.5 – 24.**
7. **Requires front counterweights, Woods 1020/1027 Loader, or Kubota® LA1002 Loader.**
8. **If using Woods loader mounting kit #111747; order mounting bracket #37994.**
9. **Includes special pump bracket #54084 to be used with optional PTO hydraulic pump #1012617.**
10. **May use Woods SAF-T-LOK® 3-point hitch mounting in place of sub-frame – 3rd point bracket may be required – see Group 2.**
11. **Tractor PTO safety lock-out does not allow use of PTO pump kit. Order hose kit #1009575 to connect to tractor's hydraulic system.**
12. **When using PTO pump kit #1012617, 3-point arms must be removed.**
13. **Spacer kit #1009666 moves backhoe to the rear an additional 2.5" for taller operators.**
14. **Must order hardware package #1013278 for compatibility with Woods 1008 loader.**
15. **Minimum rear tire width is 55 inches.**
16. **Backhoe may be installed with mid-mower in raised locked position. Remove backhoe to use mid-mower.**
17. **Not recommended for installation on tractors with 41/18LL x 16.1 rear Galaxy® turf tires.**
18. **Adapter kit #1034178 is required for compatibility with McCormick® L250 loader.**
19. **Adapter kit #1034846 is required for OEM loader.**
20. **Adapter kit #1029700 is required for OEM loader.**
21. **Hose kit #1024864 is not compatible with tractor remotes.**
22. **Woods hose kit attaches to John Deere PBY kit, which must be purchased from John Deere.**
23. **For use with L3560 Cab model, spacer kit #1009664 must be ordered.**
24. **Check tractor's hydraulic cover below right side of tractor seat. Hose kit #1035602 is for 4-bolt cover. Hose kit #1035603 is for 3-bolt cover.**

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

BACKHOE – TRACTOR MOUNTED

9-foot – BH90-X Groundbreaker®

FEATURES:

- Two lever operating controls
- Woods' unique easy on/easy off 4-point mounting system – no tools required ◀ EXCLUSIVE FEATURE
- High back seat
- Wide stance stabilizer arms with flip-over cast pad (Street and claw)
- Replaceable bushings
- Easy access walk-through design
- Wear rings on all cylinders
- Mountings compatible with 3-point, sub-frames or skid steer
- Construction grade Gannon® buckets ◀ EXCLUSIVE FEATURE
- 2-year warranty

DISCONTINUED
LIMITED QUANTITIES

Specifications:

Tractor Horsepower	30 – 70 hp
Digging Depth (2-foot flat bottom)	9 feet, 1 inch
Swing Arc	180 degrees
Loading Height	7 feet, 5 inches
Transport Height	8 feet, 1 inch
Reach from Swing Pivot	12 feet, 1 inch
Dipperstick Digging Force	2900 lbs.
Bucket Digging Force	4180/5070 lbs.
Required Hydraulic Flow	9 – 12 gpm
Rated Pressure	2500 psi

WARNING

To avoid hitch failure and possible operator injury, before mounting the BH90-X backhoe to the tractor 3-pt. hitch, verify that the hitch meets ASABE standards. Also observe the maximum and minimum hitch dimensions described in the safety and assembly sections of the Operator's Manuals. Woods® makes no warranty, implied or otherwise, concerning the structural integrity of any tractor's 3-point hitch or tractor frame housing assembly. If tractor is not equipped with front end loader, front end ballast is required for safety and stability.

WARNING: Sub-frame kits listed are required for all tractors listed.

NOTE: Includes basic unit only. Does not include bucket, mounting kit or pump kit. Order from below to complete.

Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

9-foot – BH90-X Groundbreaker® (Continued)

NOTES:

1. **Tractor must be equipped with Woods® or OEM loader.**
2. **When using New Holland® Model 7309 Loader, Woods #44442 reinforcement kit is required.**
3. **Hose kit #46561 to be used to connect to tractor remote hydraulics in lieu of self-contained pump kit.**
4. **Will not fit tractors with 18.4 – 16.1 or 21.5 – 16.1 rear tires.**
5. **To be used only with Woods loader mount #111758.**
6. **Approved with the following rear tire sizes: 16.9 x 28, 14.9 x 28, 16.9 x 24 or 17.5 – 24.**
7. **Requires front counterweights, Woods 1020/1027 Loader, or Kubota® LA1002 Loader.**
8. **If using Woods loader mounting kit #111747; order mounting bracket #37994.**
9. **Includes special pump bracket #54084 to be used with optional PTO hydraulic pump #1012617.**
10. **May use Woods SAF-T-LOK® 3-point hitch mounting in place of sub-frame – 3rd point bracket may be required.**
11. **Tractor PTO safety lock-out does not allow use of PTO pump kit. Order hose kit #1009575 to connect to tractor's hydraulic system.**
12. **When using PTO pump kit #1012617, 3-point arms must be removed.**
13. **Spacer kit #1009666 moves backhoe to the rear an additional 2.5" for taller operators.**
14. **Must order hardware package #1013278 for compatibility with Woods 1008 loader.**
15. **Minimum rear tire width is 55 inches.**
16. **Backhoe may be installed with mid-mower in raised locked position. Remove backhoe to use mid-mower.**
17. **Not recommended for installation on tractors with 41/18LL x 16.1 rear Galaxy® turf tires.**
18. **Adapter kit #1034178 is required for compatibility with McCormick® L250 loader.**
19. **Adapter kit #1034846 is required for OEM loader.**
20. **Adapter kit #1029700 is required for OEM loader.**
21. **Hose kit #1024864 is not compatible with tractor remotes.**
22. **Woods hose kit attaches to John Deere PBY kit, which must be purchased from John Deere.**
23. **For use with L3560 Cab model, spacer kit #1009664 must be ordered.**
24. **Check tractor's hydraulic cover below right side of tractor seat. Hose kit #1035602 is for 4-bolt cover. Hose kit #1035603 is for 3-bolt cover.**

WOODS®

BACKHOE – TRACTOR MOUNTED

10-foot – BH100 Groundbreaker®

FEATURES:

Two lever operating controls

Woods' unique easy on/easy off 4-point mounting system – no tools required ◀ EXCLUSIVE FEATURE

High back seat

Wide stance stabilizer arms with flip-over cast pad (Street and claw)

Replaceable bushings

Easy access walk-through design

Wear rings on all cylinders

Mountings compatible with 3-point, sub-frames or skid steer

Construction grade buckets

2-year warranty

Specifications:

Tractor Horsepower	40 – 100 hp
Digging Depth (2-foot flat bottom)	10 feet
Swing Arc	180 degrees
Loading Height	8 feet, 4 inches
Transport Height	8 feet, 8 inches
Reach from Swing Pivot	13 feet, 5 inches
Dipperstick Digging Force	2720 lbs.
Bucket Digging Force	4600 lbs.
Required Hydraulic Flow	9 – 12 gpm
Rated Pressure	2465 psi

WARNING

To avoid hitch failure and possible operator injury, before mounting the BH100 backhoe to the tractor 3-pt. hitch, verify that the hitch meets ASABE standards. Also observe the maximum and minimum hitch dimensions described in the safety and assembly sections of the Operator's Manuals. Woods® makes no warranty, implied or otherwise, concerning the structural integrity of any tractor's 3-point hitch or tractor frame housing assembly. If tractor is not equipped with front end loader, front end ballast is required for safety and stability.

WARNING: Sub-frame kits listed are required for all tractors listed.

NOTE: Includes basic unit only. Does not include bucket, mounting kit or pump kit. Order from below to complete.

10-foot – BH100 Groundbreaker® (Continued)

NOTES:

1. **Tractor must be equipped with Woods® or OEM loader.**
2. **When using New Holland® Model 7309 Loader, Woods #44442 reinforcement kit is required.**
3. **Hose kit #46561 to be used to connect to tractor remote hydraulics in lieu of self-contained pump kit.**
4. **Will not fit tractors with 18.4 – 16.1 or 21.5 – 16.1 rear tires.**
5. **To be used only with Woods loader mount #111758.**
6. **Approved with the following rear tire sizes: 16.9 x 28, 14.9 x 28, 16.9 x 24 or 17.5 – 24.**
7. **Requires front counterweights, Woods 1020/1027 Loader, or Kubota® LA1002 Loader.**
8. **If using Woods loader mounting kit #111747; order mounting bracket #37994.**
9. **Includes special pump bracket #54084 to be used with optional PTO hydraulic pump #1012617.**
10. **May use Woods SAF-T-LOK® 3-point hitch mounting in place of sub-frame – 3rd point bracket may be required – see Group 2.**
11. **Tractor PTO safety lock-out does not allow use of PTO pump kit. Order hose kit #1009575 to connect to tractor's hydraulic system.**
12. **When using PTO pump kit #1012617, 3-point arms must be removed.**
13. **Spacer kit #1009666 moves backhoe to the rear an additional 2.5" for taller operators.**
14. **Must order hardware package #1013278 for compatibility with Woods 1008 loader.**
15. **Minimum rear tire width is 55 inches.**
16. **Backhoe may be installed with mid-mower in raised locked position. Remove backhoe to use mid-mower.**
17. **Not recommended for installation on tractors with 41/18LL x 16.1 rear Galaxy® turf tires.**
18. **Adapter kit #1034178 is required for compatibility with McCormick® L250 loader.**
19. **Adapter kit #1034846 is required for OEM loader.**
20. **Adapter kit #1029700 is required for OEM loader.**
21. **Hose kit #1024864 is not compatible with tractor remotes.**
22. **Woods hose kit attaches to John Deere PBY kit, which must be purchased from John Deere.**
23. **For use with L3560 Cab model, spacer kit #1009664 must be ordered.**
24. **Check tractor's hydraulic cover below right side of tractor seat. Hose kit #1035602 is for 4-bolt cover. Hose kit #1035603 is for 3-bolt cover.**

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.

ALITEC™ SKID STEER ATTACHMENTS

AUGERS

Planetary Drive – Compact Excavator and Backhoe Mounted

FEATURES:

Hydraulic drive unit
Attach cradle
Planetary drive
2-inch hex output shaft
Hydraulic hoses included
All auger bit diameters are suitable for each auger model
Welded to American Welding Society standards
Shipped fully assembled

APPLICATIONS:

Drill holes for posts, deck footers, trees, signs, shrubs and soil sampling

Construction Discounts Apply

ALITEC™ SKID STEER ATTACHMENTS

BUCKETS (Continued)

Heavy-Duty, Low-Profile Root Grapples

FEATURES:

Skid Steer (ISO 24410) Quick Attach System

Made with grade 80 steel – 2x stronger than mild steel – reducing the weight but maintaining the strength required for any skid steer or tractor application

Woods® proprietary serrated cutting edge holds fast to trees and debris

Unique design allows smooth grading of surfaces after removing debris

Twin hydraulic cylinders allow for independent clamping on uneven material while cylinder placement improves visibility

Cylinder stroke control standard for long cylinder life

Cylinder guards standard, protecting rods and hoses for longer life

Optional slat kit adds versatility by reducing tine spacing when application requires

Greasable Pivots

Hydraulic hoses and QD couplers (per ISO 16028) included

SAE Rated Operating Capacity: up to 4800 lbs.

Length: 34"; Height: 27"

Grapple Opening: 37"; Grapple Width: 19"

Cylinder Bore: 2.76"; Cylinder Rod: 1.38"

Pivot Pins: 1.25"

Clamping Force per Grapple: 3,000 lbs. @ 3,000 psi

Construction Discounts Apply

Prices and specifications subject to change without notice.
Prices effective November 25, 2019. Supersedes all previous pricing.
Woods reserves the right to limit quantities and apply surcharges at any time.

ALITEC™ SKID STEER ATTACHMENTS

COLD PLANERS

Cold Planer for Standard-Flow Skid Steers

FEATURES:

- Skid Steer (ISO 24410) Quick Attach System
- Operates on standard auxiliary hydraulics
- Hydraulic side-shift (up to 22 inches)
- Manual depth (up to 5 inches)
- Manual tilt
- Front and rear wheels
- Low speed, high torque drive motor
- Hydraulic hoses and QD couplers (per ISO 16028) included
- Pick removal tool
- Welded to American Welding Society standards

APPLICATIONS:

- Curb cuts (wedge cuts)
- Butt joints
- Pothole repair
- Milling of frost heaves in pavement
- Re-establish proper drainage characteristics of pavement
- Texture pavement for skid resistance
- Remove asphalt around manholes and storm drains prior to overlay
- Traffic stripe removal
- Mill small areas inaccessible by larger dedicated planers

Construction Discounts Apply

ALITEC™ SKID STEER ATTACHMENTS

COLD PLANERS (Continued)

Cold Planers for High-Flow Skid Steers

FEATURES:
Skid Steer (ISO 24410) Quick Attach System
Hydraulic depth up to 6 inches
22-inch Hydraulic side-shift
Top center pivot design
Front and rear cast wheels
Dual depth cylinders
Double reduction planetary drive
Debris guards
Hydraulic hoses included
Top accessible drum
Pick removal tool
Welded to American Welding Society standards

OPTIONAL FEATURES:
Electro-hydraulic controls for tilt, depth and side-shift
Electric wiring harness to match host machine

APPLICATIONS:
For asphalt and concrete applications
Curb cuts (wedge cuts)
Butt joints
Pothole repair
Milling of frost heaves in pavement
Re-establish proper drainage characteristics of pavement
Texture pavement for skid resistance
Remove asphalt around manholes and storm drains prior to overlay
Traffic stripe removal (fine finish)
Mill small areas inaccessible by larger dedicated planers
Full depth utility cuts prior to installation or repair of gas, sewer and water lines
Bridge deck planing due to weight restrictions of larger planers

Construction Discounts Apply

BASE UNIT

ALITEC™ SKID STEER ATTACHMENTS

COLD PLANERS (Continued)

Cold Planers for High-Flow Skid Steers (Continued)

FEATURES:

Skid Steer (ISO 24410) Quick Attach System
Hydraulic depth up to 8 inches
22-inch Hydraulic side-shift
Heavy-duty skid shoes
Top center pivot design
Front and rear cast wheels
Dual depth cylinders
Double reduction planetary drive
Debris guards
Hydraulic hoses included
Pick removal tool
Welded to American Welding Society standards

OPTIONAL FEATURES:

Electro-hydraulic controls for tilt, depth and side-shift
Electric wiring harness to match host machine

APPLICATIONS:

For asphalt and concrete applications
Curb cuts (wedge cuts)
Butt joints
Pothole repair
Milling of frost heaves in pavement
Re-establish proper drainage characteristics of pavement
Texture pavement for skid resistance
Remove asphalt around manholes and storm drains prior to overlay
Mill small areas inaccessible by larger dedicated planers
Full depth utility cuts prior to installation or repair of gas, sewer and water lines
Bridge deck planing due to weight restrictions of larger planers

ALITEC™ SKID STEER ATTACHMENTS

PAVEMENT SAWS

PS-Series Pavement Saws

FEATURES:

Skid Steer (ISO 24410) Quick Attach System
9-inch cutting depth
Hydraulic side-shift up to 22 inches
Manual depth control
Hydraulic hoses included
Pick removal tool
Optional electric wiring harness
Welded to American Welding Society standards

APPLICATIONS:

Asphalt patch cuts
Create expansion joints in pavement
Pavement cuts for traffic loops
Utility or municipal public works projects

Construction Discounts Apply

FEATURES:

Skid Steer (ISO 24410) Quick Attach System
Electro-hydraulic controls: depth and sideshift
Hydraulic side-shift up to 22 inches
Hydraulic depth adjustment
Double reduction planetary drive
Hydraulic hoses included
Pick removal tool
Welded to American Welding Society standards

APPLICATIONS:

Asphalt patch cuts
Create expansion joints in roadways
Utility cuts for gas, sewer, water, electrical, cable installation and repair

Construction Discounts Apply

ALITEC™ SKID STEER ATTACHMENTS

STUMP GRINDERS

SG-Series Stump Grinders

FEATURES:

Skid Steer (ISO 24410) Quick Attach System
90° hydraulic swing control
16-inch below grade hydraulic depth control
14-inch hydraulic head extension
Hydraulic hoses included
QD couplers included (SG20 & SG40 models only)
Adjustable manual control valve
Debris guard
Removable wheel shroud
Welded to American Welding Society standards
Shipped fully assembled

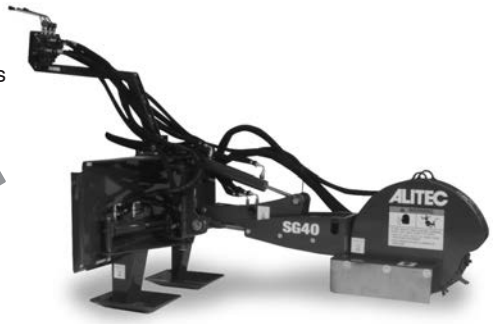
OPTIONAL FEATURES:

Electro-hydraulic controls for depth, swing and extend
Electric wiring harness to match host machine

APPLICATIONS:

Stump grinding in residential, commercial and agricultural areas

LIMITED AVAILABILITY



Construction Discounts Apply

ALITEC™ SKID STEER ATTACHMENTS

TILLERS

TL-Series Tillers

FEATURES:

Skid Steer (ISO 24410) Quick Attach System
Standard-flow and high-flow models
Adjustable to 6-inch depth
Dual drive motor
Hydraulic hoses and QD couplers included
Recessed drive motors
Welded to American Welding Society standards
Shipped fully assembled

APPLICATIONS:

Mix soils for improved seed beds, soil stabilization
Till construction sites
Till prior to landscaping

ALITEC™ SKID STEER ATTACHMENTS

VIBRATORY ROLLERS

VR-Series Vibratory Rollers

FEATURES:

Skid Steer (ISO 24410) Quick Attach System
Operates on standard auxiliary hydraulics
Shaft bearings lubricated in oil bath
Smooth or sheepsfoot padded drum
±15° free floating pivot
Drum scraper bar
Hydraulic hoses and QD couplers included
Welded to American Welding Society standards
Shipped fully assembled

APPLICATIONS:

Compact sand, gravel or dirt prior to asphalt or concrete overlay
Suited for compaction of sand, gravel or dirt when backfilling against new foundations and other concrete structures

Construction Discounts Apply

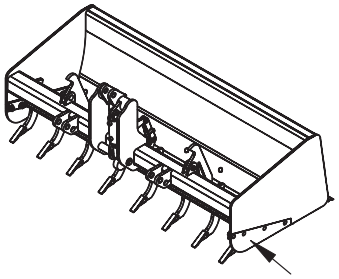
GANNON® UNIVERSAL INDUSTRIAL SCRAPERS

Heavy-Duty Hydraulic Scarifiers – 4x4 and 4x2

FEATURES:

- Hydraulic operating scarifier bar
- Category 2 hitch
- Full back moldboard for strength (4x4)
- Hinged, adjustable tailgate for fine or heavy grading (4x2)
- High back and low back models (4x2)
- Large capacity box, no gussets or obstructions
- Maxi-load moldboard front & rear, more load – less drag
- Adjustable scarifier shanks for chipping or deep scarifying
- Replaceable, heat-treated scarifier teeth
- "High Riser" scarifier bar keeps teeth clear of debris and permits clear view of cutting edges
- Double-beveled, reversible, interchangeable cutting edges



Bolt-On Replaceable Wear Bit (HSD models), **Part # KIT32** ▲

Gannon Box Scraper Discounts Apply.

Key Features

Gannon/Wain-Roy Severe-Duty Buckets (SD)

Our Severe-Duty Buckets are specially designed for durability in severe abrasion applications and high impact conditions. SD buckets incorporate high strength materials and heavier material thickness for extended bucket life, structural strength and durability. SD buckets are also available in high capacity versions.

Gannon/Wain-Roy General Purpose Ditching & Grading Buckets

Ditching & Grading Buckets are used for ditch cleaning, grading, backfilling and loose material loading applications. They feature a wide and shallow tub design that offers a shorter tip radius allowing for the increased width without losing material penetration. Ditching & Grading buckets are ideal for use in sand, topsoil, and other loose or soft materials.

Wain-Roy Ripper Buckets

Ripper Buckets are used in wide variety of severe applications where material is being both ripped and removed. Rip and dig with one attachment to increase performance and efficiency. As the current pass is dug and removed, the next pass is ripped and prepared. Standard applications for Ripper Buckets would include: frozen ground, sandstone, limestone, caliche, shale, coral, and other severe materials.

Wain-Roy Jaw Buckets
Jaw Buckets provide the versatility of a trenching bucket and a thumb in one unit without having to weld thumb brackets onto the boom. Jaw Buckets are effective jobsite trenchers and haulers of cumbersome materials. Remove, load, and backfill material with the front jaw in the closed position and then use the hydraulically actuated jaw to pick and place large objects such as boulders, stumps, pipe, logs, concrete slabs and other debris. Jaw Buckets are an effective multi-use tool for construction applications.

Wain-Roy Tilt Buckets
Tilt Buckets rotate up to a total of 90 degrees, 45 degrees each side of center, for greater control and flexibility during ditch cleaning, grading, backfilling and loose material loading and unloading applications. The tilting mechanism allows the bucket to rotate at various angles in order to form the surface to the desired shape without repositioning the machine. This is especially beneficial when working along roadways or in tight operating conditions.

Wain-Roy Pavement Removal Buckets
Our Wain-Roy pavement removal buckets are made from high-quality US steel, with T1-grade steel used in high-wear areas for exceptional strength and durability. Larger models have five teeth (versus competitors' four), to disperse the weight and provide greater stability when prying up pavement. The bucket profile is a bit wider and deeper than others on the market, with a unique opening design, to make it easier to get in there and under the pavement, then hold material in the bucket. Sizes range from 18 to 30 inches wide. Stronger, longer-lasting, more productive – it's measurably better than cheap imitations. Add a thumb for even greater versatility and productivity.

Gannon/Wain-Roy Cribbing Buckets
The Cribbing bucket is also known as a Railroad bucket for its unique ability to remove railroad ties. Long, narrow teeth and bucket profile enable you to excavate precisely in tight places. Built with high-strength materials for extended bucket life, structural integrity and durability.

Key Features (Continued)

(Shown with coupler)

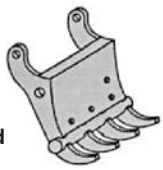
CF/Wain-Roy Single Point Rippers

Single Point Rippers are designed for the most demanding ripping applications of rock, clay, coral, and frost. Our standard design incorporates a heavy-duty OEM ear group mounting, and is available in many standard shank lengths and widths. Our rippers are manufactured with high strength steel shanks and can be custom designed to meet specific applications.

CF/Wain-Roy Heavy-Duty Thumbs/Material Clamps

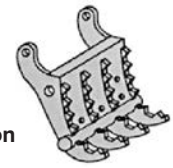
Thumbs are used in conjunction with a bucket as an efficient method to handle bulk material in landscaping and clearing, demolition, recycling, waste management, utility, and general contracting applications. Thumbs offer pick and place movement of large, awkward objects such as boulders, stumps, pipe, logs, concrete slabs, and other debris. Several variations of thumb attachment methods and tines are available to meet specific requirements.

Standard



Pad

Demolition



Wain-Roy Pin-On and Coupler Grapples

Grapples provide an efficient method of handling, recycling, and debris removal in land clearing, demolition, and landscape applications. We offer a stiff arm mount with single claw movement or a hydraulic configuration in which both claws can be operated independently. Our grapples can be used in conjunction with mechanical or hydraulic quick latch systems.

COMPACT EXCAVATOR COUPLERS

Key Features

CF Mechanical Quick Latch Coupler
The CF mechanical coupler offers a lightweight, yet durable design for your most demanding coupler requirements. The coupler design allows a simple method to quickly switch attachments on a machine. A manual locking pin securely locks the attachment to the coupler. Couplers are custom designed to fit Woods manufactured or OEM attachments. Optional jump latches allow machines to adapt to different manufacturers attachments and provide greater flexibility between machines and attachments on the job site.

Gannon Eliminator Manual Quick Coupler
The Eliminator manual quick coupler is designed for use with all Wain-Roy Original buckets and attachments. The manual coupler provides a simple and quick method to change excavator buckets and attachments. Maintaining close to the manufacturers pin-on performance specifications results in a near zero loss of breakout force. Eliminator coupler models are available to work with C&P, CAT, and Original Wain-Roy style buckets.

Wain-Roy XLS Coupler System
The Wain-Roy XLS coupler system allows the benefit of fast and efficient changing of excavator buckets and attachments while maintaining close to the manufacturers pin-on performance specifications. This results in a near zero loss of breakout force. The Wain-Roy XLS coupler system design significantly reduces the free play between the coupler and attachments. The design provides the close fit between coupler and attachments to be maintained through simple adjustments with hand tools and periodic shimming. The XLS coupler system is designed for use with Wain-Roy Original and XLS style buckets and attachments. The XLS coupler system is available in an easy-to-use manual or “operate from the seat” hydraulic release configuration.

Wain-Roy XLS Swinger Coupler System
Wain-Roy Swinger Couplers rotate up to a total of 90 degrees, 45 degrees each side of center, for greater control and flexibility of any quick change attachment system. Buckets and specialty attachments such as rippers, jaws, grapples, compactors and hammers can be rotated to the desired position to achieve maximum production. Greater tool and attachment positioning flexibility increases efficiency in any work area. The hydraulic cylinder is positioned to minimize movement and provide protection from debris and excessive wear.

Prices and specifications subject to change without notice.

FOREWORD

The fundamental responsibility of warranty is to reimburse the Woods® dealer for expenses the dealer may have generated in correcting defects in workmanship or material that are deemed to be the responsibility of Woods Equipment Company.

This manual was developed to assist the dealer in creating customer loyalty through customer satisfaction. The purpose of this manual is to explain to Woods dealers the responsibilities of the dealer, the customer and Woods Equipment Company in ensuring complete customer satisfaction. Woods Equipment Company and its dealers must cooperate in building strong customer relations by consistently providing equitable, careful, and courteous attention to every equipment owner who visits the dealership during the warranty period. Adequately serving customer needs strengthens the reputation of both Woods Equipment Company and its authorized dealers. Keep in mind that every customer carries their satisfaction (or lack of it) back to friends, neighbors, and business associates.

This manual is designed to aid dealers in addressing customer requests in a prompt and consistent manner. Authorized dealers may replace or repair any part found to be defective in workmanship or material within the time and hour limits outlined in this manual without obtaining prior approval from the Warranty Department of Woods Equipment Company.

Our Warranty Department welcomes any phone or mail inquiries and is prepared to render a prompt and fair decision on all warranty matters.

With a working knowledge of the procedures outlined in this manual, and the technical ability to determine the reason for repairs or replacements, warranty claims can be handled efficiently, courteously, and promptly.

WOODS EQUIPMENT COMPANY

THE PURPOSE OF A WARRANTY

Warranty assures the purchaser that should a defect in material or workmanship occur during the warranty period, Woods Equipment Company® will assume specific repair responsibilities, as listed in the warranty statement. The statement is also printed on the back cover of the operator's manual supplied with each new product. The warranty begins on the date the product is delivered to the original owner. Once the warranty has started, it cannot be stopped or interrupted.

DEALER RESPONSIBILITIES

The following responsibilities are to be performed when the dealer delivers a product to the purchaser or otherwise places it into warranty service:

1. Complete product registration online at dealer.woodsequipment.com if applicable. Warranty reimbursement is contingent on product registration.
2. Review warranty statement (and Operator's Manual if applicable) with purchaser to assure understanding of purchaser's responsibilities as related to warranty and service, along with the safe and correct operating procedures of the equipment. Purchaser should be instructed to have failed parts, repaired or replaced when their continued use would cause damage or excessive wear.
3. Provide warranty service requested by purchaser and **SUBMIT WARRANTY CLAIM FORMS TO WOODS EQUIPMENT COMPANY WITHIN 15 WORKING DAYS FROM THE DATE LABOR IS COMPLETED.** Warranty claims can be submitted to Woods when defects in material or workmanship are found while the products are still in dealer inventory.
4. Provide warranty and service repairs as directed by Woods Equipment Company Service Bulletins.
5. **All warranty work must be completed within 30 days from when the customer notifies the dealer of the problem.** If there is a problem with completing work in this time frame, you must contact the Woods Product Service Manager for an extension. **No claims will be accepted on machines that exceed this 30-day period.**

WOODS EQUIPMENT COMPANY RESPONSIBILITIES

See Addendum I, Page MISC11

OTHER WARRANTY PROVISIONS

See Addendum II, Page MISC23 and Addendum III, Page MISC33

SERVICE BULLETINS

Service Bulletins will be issued when necessary to alert dealers of special repairs. Each bulletin will give detailed directions and procedures to complete the services. The dealer is obligated to comply with all service bulletins.

Introduction (Continued)

PROCEDURES FOR COMPLETION OF ONLINE WARRANTY CLAIM FORM

(Example 1, Page MISC9)

1. Sign on to the Woods Dealer Website at dealer.woodsequipment.com.
2. Click on the "**Product Registrations & Warranty**" button.
3. Click on "**Download User's Manual**" to download a PDF of the User's Manual.

If you do not have access to the Internet, please contact Woods Equipment Company at 1-800-319-6637 for assistance.

USE OF PHOTOS

Pictures should be attached to the dealer's claim when their inclusion will help identify the condition of the part being repaired or replaced, thus assisting in approval of the claim. In many cases, the use of photos may eliminate the need to return the parts for evaluation. Photos will not be returned unless specified.

DELAYED WARRANTY REPAIR

Warranty repairs should be scheduled and performed as soon as they have been brought to the dealer's attention. It is recognized, however, that in some cases, due to use of products or availability of service replacement parts, the repair cannot always be made as soon as it should. If a repair is scheduled to occur after the warranty has expired; the dealer should send a letter explaining the circumstances to the Woods® Service Manager prior to expiration of the warranty. Included in this letter should be the purchaser's name, serial number of the product, purchase date, nature of failure, and approximate date when repair will be made. These claims will then be processed as if the product is still within the warranty period.

DENIED CLAIM

Once a claim has been denied for warranty, the dealer will receive a credit memo stating the reason for denial. The dealer has the right to appeal this denial and must do so within 30 days. If there has been no appeal within 30 days then the claim will be considered closed.

STATE LAW

If anything contained in this policy statement is inconsistent with state law, then state law applies rather than such provision, but the remainder of the policy statement still applies.

Example 1 – Online Warranty Claim Form

Example 3 – Warranty Statement Form **MISC20**

Example 4 – Limited Warranty Statement Form **MISC21**

Woods® Agriculture and Turf Addendum

WOODS EQUIPMENT COMPANY RESPONSIBILITIES

1. **Parts Credit**
   Reimbursement for parts used in warranty repair will be credited only when the parts are purchased from Woods Equipment Company. Parts will be credited at dealer net. Invoice numbers must be supplied for the purchased parts. **NO WARRANTY REIMBURSEMENT WILL BE MADE ON PARTS WHICH ARE PAST DUE.**

2. **Warranty Parts Freight**
   Woods Genuine Parts should be used from dealer parts stock. When parts must be shipped from Woods, freight will be paid by Woods when shipped in the most economical way. Shipment requested by special means will be at dealer's expense (e.g., air, next day air, priority, etc.).

3. **Warranty Labor**
   Reimbursement for labor expense to the dealer is made at dealer shop rate. Repair times will be reviewed by the Woods Service Manager and may be adjusted according to average repair time requirements. Labor is not paid on service parts warranty. No driving time or service call charges will be allowed.

4. **Outside Expenses**
   Reimbursement for materials or services are made to the dealer by payment of dealer net price. These expenses must be considered necessary to perform the warranty repair and are not normally expected to be provided by the dealer (e.g., special welding, precision machining, etc.). Outside repair invoice must be attached to the warranty claim.

OTHER WARRANTY PROVISIONS

The following provisions are to be followed when performing warranty repairs:

1. In all cases, the most economical repair should be performed unless otherwise directed. As an example a complete hydraulic or electrical component or gearbox requires service and the combined total of labor and parts equals or exceeds 75% of the total cost of the component then the complete component should be replaced.
2. WOODS PARTS ARE COVERED UNDER WARRANTY FOR A PERIOD OF 90 DAYS. A copy of the purchase receipt or invoice must be attached to the claim requesting warranty reimbursement. When large or expensive components such as complete hydraulic or electrical components are sold as service parts the serial number, spec number or date code needs to be documented on the customer invoice. The dealer should then use this document to verify that the component being returned for warranty consideration matches the unit listed on the customer invoice. A copy of that invoice will need to be returned with the part if requested.
3. All parts removed during a repair should be held for 60 days after the warranty claim has been submitted to Woods Equipment Company. These parts can be discarded if disposition or return request hasn't been made during this period. Parts that are returned for warranty and are not issued for credit can be returned to the dealer if Woods receives the return request within 30 days of the warranty denial. **The parts will be discarded after the 30-day period.**

All parts replaced must be held at dealership for sixty (60) days or until notification from Woods Equipment Company.

OTHER WARRANTY PROVISIONS (Continued)

4. Woods Equipment Company reserves the right to reverse any or all warranty credits for parts, labor, or miscellaneous charges when errors are found or warranty policies are not complied with.
5. Warranty reimbursement is not possible:
   - If parts returned for evaluation are not cleaned and tagged, or if they are damaged in return shipment due to poor packaging.
   - When failure falls under the “limitations” as identified in the warranty statements. (See Examples 3 and 4, Pages MISC20 and MISC21).
   - When Woods has requested the return of certain parts, assemblies, or information and has not received requested material within 30 days of date posted on return request.
   - On claims, due to damage or shortage, that are obviously the responsibility of the Woods dealer or the delivering carrier.
   - On the entire claim when warranty policy or provisions are not followed.
6. **Dealer Modifications**
   The dealer may not make modifications to products sold by Woods Equipment Company except to the extent necessary to include company authorized accessories or parts. The Limited Express Warranty shall be null and void with respect to any products otherwise modified. All liability for unauthorized modifications to products by the dealer shall be borne by the dealer and the dealer shall defend, indemnify and hold the Company harmless from any claims relating to said modification. All dealers warranty their own work to the purchaser.

WARRANTY

All Models Except Mow'n Machine™ Zero-Turn Mowers

Please Enter Information Below and Save for Future Reference.

Date Purchased: _____ From (Dealer): _____

Model Number: _____ Serial Number: _____

Woods Equipment Company ("WOODS") warrants this product to be free from defect in material and workmanship. Except as otherwise set forth below, the duration of this Warranty shall be for TWELVE (12) MONTHS COMMENCING ON THE DATE OF DELIVERY OF THE PRODUCT TO THE ORIGINAL PURCHASER.

All current model backhoes, loaders and mounts (except 3-pt. SAF-T-LOK® mounts) are warranted for two (2) years from the date of delivery to the original purchaser. The limited warranty covers any defects in the material and/or workmanship. Following the proper, recommended installation by an authorized Woods Dealer and normal use of a Woods mounting and backhoe or loader, if a tractor incurs damage resulting from the attachment, Woods will cover the existing tractor warranty in the event the manufacturer voids its tractor warranty because of the attachment. Warranty does not cover any misuse or abusive conditions that could cause premature wear or damage to attachment or tractor.

The warranty periods for specific parts or conditions are listed below:

Part or Condition Warranted	Model Number	Duration (from date of delivery to the original purchaser)
	All units invoiced after 4/30/2012	
Gearbox components	BB48X, BB60X, BB72X, BB84X, BB600X, BB720X, BB840X, BB6000X, BB7200X, BB8400X, DS12.50, TS14.60, DS1440, TS1680, DS8.30, DS10.40, DS8.50, DSO8.50, DS10.50, DSO10.50, DBH5.30, DBH6.30	6 years
	BW12, BW15, BW126X, BW180X, BW126XHD, BW180XHD, BW1260X, BW1800X BW10.50, BW10.50Q, BW15.50, BW15.50Q, BW15.60, BW15.60Q, BW10.60, BW10.60Q	
	BW240X, BW240XHD, BW1620X, BW2400X	
	RD990X, PRD6000, PRD7200, PRD8400, S15CD, S20CD, S22CD, S25CD, S27CD, S30CD, TC/R74, TC/R68, TC/R60, TBW144, TBW180, TBW204, TSG50, S12ED, S15ED, S18ED, S20ED, TPD25, TPD35, TPD65, TPD95	
	RDC54, RD60, RD72, TBW150C, TS/R60, TS/R52, TS/R44, RC3.5, RC4, RC5, RC6	3 years (1 year if used in rental or commercial applications)
Blade spindles	RD990X, PRD6000, PRD7200, PRD8400, TBW144, TBW180, TBW204	3 years

Under no circumstances will this Warranty apply in the event that the product, in the good faith opinion of WOODS, has been subjected to improper operation, improper maintenance, misuse, or an accident. This Warranty does not apply in the event that the product has been materially modified or repaired by someone other than WOODS, a WOODS authorized dealer or distributor, and/or a WOODS authorized service center. This Warranty does not cover normal wear or tear, or normal maintenance items. This Warranty also does not cover repairs made with parts other than those obtainable through WOODS.

This Warranty is extended solely to the original purchaser of the product. Should the original purchaser sell or otherwise transfer this product to a third party, this Warranty does not transfer to the third party purchaser in any way. There are no third party beneficiaries of this Warranty.

WOODS makes no warranty, express or implied, with respect to engines, batteries, tires or other parts or accessories not manufactured by WOODS. Warranties for these items, if any, are provided separately by their respective manufacturers.

WOODS' obligation under this Warranty is limited to, at WOODS' option, the repair or replacement, free of charge, of the product if WOODS, in its sole discretion, deems it to be defective or in noncompliance with this Warranty. **The product must be returned to WOODS with proof of purchase within thirty (30) days after such defect or noncompliance is discovered or should have been discovered, routed through the dealer and distributor from whom the purchase was made, transportation charges prepaid.** WOODS shall complete such repair or replacement within a reasonable time after WOODS receives the product. THERE ARE NO OTHER REMEDIES UNDER THIS WARRANTY. THE REMEDY OF REPAIR OR REPLACEMENT IS THE SOLE AND EXCLUSIVE REMEDY UNDER THIS WARRANTY.

THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION ON THE FACE OF THIS WARRANTY. WOODS MAKES NO OTHER WARRANTY, EXPRESS OR IMPLIED, AND WOODS SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTY OF MERCHANTABILITY AND/OR ANY IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

WOODS shall not be liable for any incidental or consequential losses, damages or expenses, arising directly or indirectly from the product, whether such claim is based upon breach of contract, breach of warranty, negligence, strict liability in tort or any other legal theory. Without limiting the generality of the foregoing, Woods specifically disclaims any damages relating to (i) lost profits, business, revenues or goodwill; (ii) loss of crops; (iii) loss because of delay in harvesting; (iv) any expense or loss incurred for labor, supplies, substitute machinery or rental; or (v) any other type of damage to property or economic loss.

This Warranty is subject to any existing conditions of supply which may directly affect WOODS' ability to obtain materials or manufacture replacement parts.

No agent, representative, dealer, distributor, serviceperson, salesperson, or employee of any company, including without limitation, WOODS, its authorized dealers, distributors, and service centers, is authorized to alter, modify, or

EXAMPLE 3 – WARRANTY STATEMENT FORM

LIMITED WARRANTY

Mow'n Machine™ Zero-Turn Mowers

Please Enter Information Below and Save For Future Reference.

Date Purchased: _____ From (Dealer): _____

Model Number: _____ Serial Number: _____

WHAT IS COVERED:

Woods Equipment Company ("WOODS") warrants Mow'n Machine™ zero-turn mowers, attachments and accessories to be free from defect in material and workmanship for the warranty periods listed below.

FOR HOW LONG:

Mow'n Machine Model #FZ22K, FZ23B, FZ25D, FZ28K & attachments are warranted for two (2) years from the date of delivery to the original purchaser or 2000 hours of operation, whichever occurs first.

IMPLIED WARRANTIES OF MERCHANTABILITY AND/OR FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED IN DURATION TO THE DURATION OF THE WRITTEN WARRANTY PERIODS LISTED ABOVE. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

WHO IS COVERED:

This Warranty is extended solely to the original purchaser of the product. Should the original purchaser sell or otherwise transfer the product to a third party, this Warranty does not transfer to the third party purchaser in any way. There are no third party beneficiaries of this Warranty.

WHAT IS NOT COVERED:

This Warranty does not cover normal wear or tear, or normal maintenance items, or any damage, failure or loss caused by:

1. Improper operation, improper maintenance, misuse, or an accident;
2. Any modification or repair by someone other than WOODS, a WOODS' authorized dealer or distributor, and/or a WOODS' authorized service center; or
3. Repairs made with parts other than those obtained through WOODS.

WOODS makes no warranty, express or implied, with respect to engines, batteries, tires or other parts or accessories with respect to which the manufacturer provides a separate warranty.

WHAT WOODS WILL DO TO CORRECT PROBLEMS:

WOODS' obligation under this Warranty is limited to, at WOODS' option, the repair or replacement, free of charge, of the product if the product is defective or in noncompliance with this Warranty. The product must be returned to WOODS with proof of purchase within thirty (30) days after such defect or noncompliance is discovered or should have been discovered, routed through the dealer and distributor from whom the purchase was made, transportation charges prepaid. WOODS shall complete such repair or replacement within a reasonable time after WOODS receives the product.

OTHER LIMITATIONS:

WOODS shall not be liable for any incidental or consequential losses, damages or expenses, arising directly or indirectly from the product, whether such claim is based upon breach of contract, breach of warranty, negligence, strict liability in tort or any other legal theory. Without limiting the foregoing, WOODS shall not be liable for any damages relating to (i) lost profits, business, revenues or goodwill; (ii) any expense or loss incurred for labor, supplies, substitute machinery or rental; or (iii) any other type of damage to property or economic loss. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you.

No agent, representative, dealer, distributor, service person, salesperson, or employee of any company, including without limitation, WOODS, its authorized dealers, distributors, and service centers, is authorized to alter, modify, or enlarge this Warranty.

HOW STATE LAW APPLIES:

This Warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Woods® Construction Equipment (CE) Addendum – Introduction

FOREWORD

The fundamental responsibility of warranty is to reimburse the Woods® dealer for expenses the dealer may have generated in correcting defects in workmanship or material that are deemed to be the responsibility of Woods Equipment Company.

This manual was developed to assist the dealer in creating customer loyalty through customer satisfaction. The purpose of this manual is to explain to Woods dealers the responsibilities of the dealer, the customer and Woods Equipment Company in ensuring complete customer satisfaction. Woods Equipment Company and its dealers must cooperate in building strong customer relations by consistently providing equitable, careful, and courteous attention to every equipment owner who visits the dealership during the warranty period. Adequately serving customer needs strengthens the reputation of both Woods Equipment Company and its authorized dealers. Keep in mind that customers carry their satisfaction (or lack of it) back to friends, neighbors, and business associates.

This manual is designed to aid dealers in addressing customer requests in a prompt and consistent manner. Authorized dealers may replace or repair any part found to be defective in workmanship or material within the time and cost limits outlined in this manual without obtaining prior approval from the Warranty Department of Woods Equipment Company. Woods reserves the right to accept, modify, or reject any warranty claim.

Our Warranty Department welcomes any phone or mail inquiries and is prepared to render a prompt and fair decision on all warranty matters.

With a working knowledge of the procedures outlined in this manual, and the technical ability to determine the reason for repairs or replacements, warranty claims can be handled efficiently, courteously, and promptly.

WARRANTY CLAIM REPORTING

By Mail: Woods Equipment Company
Attn: Warranty Dept.
PO Box 1000
Oregon, IL 61061

By Phone: (800) 848-3447, Option 2 (Alitec/Technical Services)

By E-mail: CEWarranty@WoodsEquipment.com

Woods Website: www.WoodsEquipment.com

THE PURPOSE OF A WARRANTY

Warranty assures the purchaser that should a defect in material or workmanship be found during the warranty period, Woods Equipment Company will assume specific repair responsibilities, as listed in the warranty statement (Example 5, page MISC29). The statement is also printed on the back cover of the operator's manual (where provided). The duration of this warranty shall be twelve (12) months commencing on the in-service date of the product, or fifteen months after shipment from the factory, or 1,500 hours of service, whichever occurs first. Proof of the in-service date must be provided for claims against product that originally shipped more than twelve (12) months prior to the date of the claim. Once the warranty period has started, it cannot be stopped or interrupted.

DEALER PRE-DELIVERY RESPONSIBILITIES AT TIME OF SALE OR LEASE OF WOODS® CE ATTACHMENT

The following responsibilities are to be performed when the dealer delivers a product to the purchaser or lessee or otherwise places it into warranty service:

1. Complete product registration online at dealer.woodsequipment.com.
2. Review warranty statement and common, non-covered warranty claim examples (Example 5, page MISC29) (and Operator's Manual if applicable) with purchaser to assure understanding of purchaser's responsibilities as related to warranty and service, along with the safe and correct operating procedures of the equipment.
3. Purchaser or Lessee should be instructed to:
   - Repair or replace failed or failing parts when their continued use would cause damage or excessive wear.
   - Maintain weld and structural integrity by re-welding as required to prevent excessive weld erosion.
   - Repair or replace wear parts such as teeth and cutting edges when their continued use would cause damage or excessive wear to tooth holders and associated parts.
   - Repair, re-weld or replace areas of the attachment that are being eroded by soil abrasion.
   - Report to the dealer and repair any cracking of welds or structural members.
   - Not misuse the attachment such as using a general-purpose bucket where a severe duty bucket is required.
   - Not modify the attachment as material modifications may damage or shorten the operating life or reduce performance of the attachment.

DEALER RESPONSIBILITIES AT TIME OF WARRANTY CLAIM BY OWNER OR LESSEE OF A WOODS CE ATTACHMENT

The following responsibilities are to be performed by the Woods CE attachment dealer:

1. Provide warranty service and support for any Woods CE attachments that are operating in the dealer's area of trade responsibility whether sold by the dealer or not.
2. Provide warranty service requested by the customer and **SUBMIT WARRANTY CLAIM FORMS (Example 6, page MISC30) TO WOODS EQUIPMENT COMPANY WITHIN 15 WORKING DAYS FROM THE DATE LABOR IS COMPLETED**.
3. Submit warranty claims to Woods when defects in material or workmanship are found while the product remains in dealer inventory.
4. Provide warranty and service repairs as directed by Woods Equipment Company Service Bulletins.
5. **Complete all warranty work within 30 days from when the customer notifies the dealer of the problem.** If there is a problem with completing work in this time frame, the dealer must contact the Woods Product Service Manager for an extension. **No claims will be accepted on equipment that exceeds this 30-day period.**
6. Provide appropriate field support as required for a recall or field modification to Woods CE attachments.

WOODS EQUIPMENT COMPANY® RESPONSIBILITIES

1. **Parts Credit**

   Woods will provide the dealer with a parts credit on parts purchased from Woods that are used in the warranty repair. Reimbursement for parts used in warranty repair will be credited only when the parts are purchased from Woods Equipment Company. Parts will be credited at dealer net. Invoice numbers must be supplied for the purchased parts. **NO WARRANTY REIMBURSEMENT WILL BE MADE ON PARTS FOR WHICH PAYMENT IS PAST DUE.**

2. **Warranty Parts Freight**

   In order to receive credit for freight on parts used in a warranty repair, freight charges must be included on the warranty claim form before submitting to Woods. Shipment requested by special means will be at dealer's expense (e.g., air, next day air, priority, etc.).

3. **Warranty Labor**

   Reimbursement for labor expense to the dealer is made at dealer shop rate. Repair times will be reviewed by the Woods Service Manager and may be adjusted according to average repair time requirements. Labor is not paid on service parts warranty. No driving time or service call charges will be allowed.

4. **Outside Expenses**

   Woods will reimburse the dealer for authorized warranty services that the dealer is unable to perform. Reimbursement for materials or services is made to the dealer by payment of dealer net price. These expenses must be considered necessary to perform the warranty repair and are not normally expected to be provided by the dealer (e.g., special welding, precision machining, etc.). Outside repair invoice must be attached to the warranty claim.

OTHER WARRANTY PROVISIONS

The following provisions are to be followed when performing warranty repairs:

1. In all cases, the most economical repair should be performed unless otherwise directed. As an example, a complete hydraulic component requires service and the combined total of labor and parts equals or exceeds 75% of the total cost of the component, then the complete component should be replaced.
2. When it is determined that an attachment with a serial tag on it is to be scrapped at the dealer's facility, the serial tag must be removed and returned to Woods Equipment Company® at the address on page MISC24 of this document. Additionally one of the mounting ears should be cut off the attachment. A digital picture of the attachment without the mounting ear and the warranty claim number must be sent to CEWarranty@WoodsEquipment.com. The dealer may then scrap the attachment, and the dealer may retain the scrap value proceeds of the attachment.
3. **Woods parts are covered under warranty for a period of 90 days.** A copy of the purchase receipt or invoice must be attached to the claim requesting warranty reimbursement. When large or expensive components such as hydraulic cylinders are sold as service parts, the serial number, spec number or date code needs to be documented on the customer invoice. The dealer should then use this document to verify that the component being returned for warranty consideration matches the unit listed on the customer invoice. A copy of that invoice will need to be returned with the part if requested.
4. All parts removed during a repair should be held for 45 days after the warranty claim has been submitted to Woods Equipment Company. These parts can be discarded if disposition or return request has not been made during this period. Parts that are returned for warranty and are not issued for credit can be returned to the dealer if Woods receives the return request within 30 days of the warranty denial. **The parts will be discarded after the 30-day period.**
5. Woods Equipment Company reserves the right to reverse any or all warranty credits for parts, labor, or miscellaneous charges when errors are found or warranty policies are not complied with.
6. Warranty reimbursement is not possible:
   - If parts returned for evaluation are not cleaned and tagged, or if they are damaged in return shipment due to poor packaging.
   - When failure falls under the "limitations" as identified in the warranty statement.
   - When Woods has requested the return of certain parts, assemblies, or information and has not received requested material within 30 days of date posted on return request.
   - On claims, due to damage or shortage, that is obviously the responsibility of the Woods dealer or the delivering carrier.
   - On the entire claim when warranty policy or provisions are not followed.
7. **Dealer Modifications:** The dealer may not make modifications to products sold by Woods Equipment Company except to the extent necessary to include company authorized accessories or parts. The Limited Express Warranty shall be null and void with respect to any products otherwise modified. All liability for unauthorized modifications to products by the dealer shall be borne by the dealer and the dealer shall defend, indemnify and hold the Company harmless from any claims relating to said modification. All dealers warrant their own work to the purchaser.
8. **Return of Goods:** Goods cannot be returned, and orders once accepted cannot be canceled without the seller's prior written consent and a return authorization. A restocking fee of 20% will be applied to any credit deemed not to be the responsibility of Woods Equipment Company.
9. **Termination for Convenience:** If buyer notifies seller that it terminates an order for its convenience, seller will stop all work as promptly as reasonably possible, but buyer shall be responsible for a termination charge, computed on the basis of the seller's full cost including overhead, plus 20% for all engineering work, work in process, raw materials, supplies, administrative expenses and all commitments made by seller in connection with the order, less such allowances as seller may be in position to make for any standard components and for the balance of the material as scrap.

SERVICE BULLETINS

Service Bulletins will be issued when necessary to alert dealers of special repairs. Each bulletin will give detailed directions and procedures to complete the services. The dealer is obligated to comply with all service bulletins.

USE OF DIGITAL PICTURES

Digital pictures showing the material or manufacturing defect must be forwarded with the dealer's warranty claim number to CEWarranty@WoodsEquipment.com as their inclusion will help identify the condition of the part being repaired or replaced, thus assisting in rapid approval of the claim. Suggested photos include pictures of the defect itself in both close-up and at a slight distance, and pictures showing the general condition of the Woods attachment. In many cases, the use of photos will eliminate the need to return parts for evaluation, expedite the dealer being able to scrap the parts from the dealer's premises and expedite warranty claim approvals.

DELAYED WARRANTY REPAIR

Warranty repairs should be scheduled and performed as soon as they have been brought to the dealer's attention. It is recognized, however, that in some cases, due to use of products or availability of service replacement parts, the repair cannot always be made as soon as it should. If a repair is scheduled to occur after the warranty has expired; the dealer should send a letter explaining the circumstances to the Woods Service Manager prior to expiration of the warranty. Included in this letter should be the purchaser's name, serial number of the product, purchase date, nature of failure, and approximate date when repair will be made. These claims will then be processed as if the product is still within the warranty period.

DENIED CLAIM

If a claim has been denied for warranty, the dealer will receive a credit memo stating the reason for denial. The dealer has the right to appeal this denial and must do so within 30 days. If there has been no appeal within 30 days then the claim will be considered closed.

STATE LAW

If anything contained in this policy statement is inconsistent with state law, then state law applies rather than such provision, but the remainder of the policy statement still applies.

WARRANTY

Date of Purchase: _____ From (Dealer): _____

Model Number: _____ Serial Number: _____

Woods Equipment Company ("WOODS") warrants this product to be free from defects in material and workmanship. Except as otherwise set forth below, the duration of this Warranty shall be twelve (12) months commencing on the in-service date of the product or fifteen months after shipment from the factory or 2,000 hours of service, whichever occurs first. Proof of the in-service date must be provided for claims involving product that originally shipped more than twelve (12) months prior to the date of the claim.

Under no circumstances will this Warranty apply in the event that the product, in the good faith opinion of WOODS, has been subjected to improper operation, improper maintenance, misuse, inappropriate application or an accident. This Warranty does not apply in the event that the product has been materially modified or repaired by someone other than WOODS, a WOODS authorized dealer or distributor, and/or a WOODS authorized service center. This Warranty does not cover normal wear and tear, or normal maintenance items, as more specifically described below. This Warranty also does not cover repairs made with parts other than those obtained through WOODS.

This Warranty is extended solely to the original purchaser of new and unused product, including, but not limited to, purchases made from authorized Woods dealers. Should such original purchaser sell or otherwise transfer this product to a third party, this Warranty does not transfer to the third party purchaser in any way. There are no third party beneficiaries of this Warranty.

WOODS' obligation under this Warranty is limited to, at WOODS' option, the repair or replacement, free of charge, of the product if WOODS, in its sole discretion, deems it to be defective or in noncompliance with this Warranty. **The product must be returned to WOODS with proof of purchase within thirty (30) days after such defect or noncompliance is discovered or should have been discovered, routed through the dealer and distributor from whom the purchase was made, transportation charges prepaid.** WOODS shall complete such repair or replacement within a reasonable time after WOODS receives the product. THERE ARE NO OTHER REMEDIES UNDER THIS WARRANTY. THE REMEDY OF REPAIR OR REPLACEMENT IS THE SOLE AND EXCLUSIVE REMEDY UNDER THIS WARRANTY.

THERE ARE NO WARRANTIES, WHICH EXTEND BEYOND THE DESCRIPTION ON THE FACE OF THIS WARRANTY. WOODS MAKES NO OTHER WARRANTY, EXPRESS OR IMPLIED, AND WOODS SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTY OF MERCHANTABILITY AND/OR ANY IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

WOODS shall not be liable for any incidental or consequential losses, damages or expenses, arising directly or indirectly from the product, whether such claim is based upon breach of contract, breach of warranty, negligence, strict liability in tort or any other legal theory. Without limiting the generality of the foregoing, WOODS specifically disclaims any damages relating to (i) lost profits, business, revenue or goodwill; (ii) any expense or loss incurred for labor, supplies, substitute machinery or rental; or (iii) any other type of damage to property or economic loss.

This Warranty is subject to any existing conditions of supply, which may directly affect WOODS' ability to obtain materials or manufacturer replacement parts.

No agent, representative, dealer, distributor, serviceperson, or employee of any company, including without limitation, WOODS, its authorized dealers, distributors, and service centers, is authorized to alter, modify or enlarge this Warranty.

Contact an authorized WOODS dealer or service center for warranty service. Common issues that would NOT be covered by this Warranty Policy include, but are not limited to, the examples listed below this Policy.

Examples of Common, Non-Covered Claims

1. The owner and operator are responsible for maintaining weld integrity on attachments subject to weld erosion from ongoing contact with soils, rocks, and other materials. Different materials have differing abrasive characteristics that will erode the structural welds of ground-engaging attachments at differing rates. Structural failures may occur as a result of excessive weld erosion. The owner and operator are responsible for maintaining necessary weld sizes and re-welding eroded welds with industry-approved procedures. Woods will not accept warranty claims for weld erosion or structural failures of the attachment as a result of weld erosion.
2. Attachments are used extensively in ground-engaging operations and, as a result, the teeth, tooth holders, cutting edges, bucket edges, ripper shanks, and other portions of the attachment are subject to abrasion and resulting wear. Woods will not accept warranty claims for wear of components or wear of areas of the attachment subject to ground-engaging wear.
3. The owner and operator are responsible for examining the attachment for any weld or structural cracking. Any such cracking caused by a defect in materials or workmanship by Woods will be covered under the Woods Warranty Policy. If the owner or operator continues to operate the attachment after weld cracking or structural cracking is visible or should have reasonably been visible, and as a result of continued operation, additional damage to the attachment results, Woods will not accept responsibility for the additional damage caused to other welds or to the attachment structure.
4. Materially modifying Woods attachments may result in premature failures of the attachment. Woods will not accept warranty claims on attachments that have been materially modified.
5. Misapplications of attachments may result in premature wear, breakage, or structural failures of the attachment. Woods will not accept warranty claims on attachments that have been misapplied. For instance, using a general purpose excavator bucket in an application requiring a heavy or severe duty bucket or using the excavator bucket as a "jack hammer" to break concrete are considered misapplications.

Woods® Genuine Parts Addendum

WOODS EQUIPMENT COMPANY RESPONSIBILITIES

1. **Parts Credit**
   Reimbursement for parts used in warranty repair will be credited only when the parts are purchased from the Woods Equipment Company. Parts will be credited at dealer net. Invoice numbers must be supplied for the purchased parts. **NO WARRANTY REIMBURSEMENT WILL BE MADE ON PARTS WHICH ARE PAST DUE.**
2. **Warranty Parts Freight**
   When parts must be shipped from Woods, freight will be paid by Woods when shipped in the most economical way. Shipment requested by special means will be at dealer's expense (e.g., air, next day air, priority, etc.).
3. **Warranty Labor**
   Reimbursement for labor expense to the dealer is made at dealer shop rate. Repair times will be reviewed by the Woods Service Manager and may be adjusted according to average repair time requirements. Labor is not paid on service parts warranty. No driving time or service call charges will be allowed.
4. **Outside Expenses**
   Reimbursement for materials or services are made to the dealer by payment of dealer net price. These expenses must be considered necessary to perform the warranty repair and are not normally expected to be provided by the dealer. (e.g., special welding, precision machining, etc.). Outside repair invoice must be attached to the warranty claim.

OTHER WARRANTY PROVISIONS

The following provisions are to be followed when performing warranty repairs:

1. In all cases, the most economical repair should be performed unless otherwise directed. As an example a complete hydraulic or electrical component or gearbox requires service and the combined total of labor and parts equals or exceeds 75% of the total cost of the component then the complete component should be replaced.
2. WOODS GENUINE PARTS ARE COVERED UNDER WARRANTY FOR A PERIOD OF 90 DAYS.
   A copy of the purchase receipt or invoice must be attached to the claim requesting warranty reimbursement. When large or expensive components such as complete hydraulic or electrical components are sold as service parts the serial number, spec number or date code needs to be documented on the customer invoice. The dealer should then use this document to verify that the component being returned for warranty consideration matches the unit listed on the customer invoice. A copy of that invoice will need to be returned with the part if requested.
3. Woods Equipment Company reserves the right to reverse any or all warranty credits for parts, labor, or miscellaneous charges when errors are found or warranty policies are not complied with.
4. Warranty reimbursement is not possible:
   - If parts returned for evaluation are not cleaned and tagged, or if they are damaged in return shipment due to poor packaging.
   - When failure falls under the "limitations" as identified in the warranty statement (See Examples 7 and 8, Pages MISC35 and MISC36).
   - When Woods has requested the return of certain parts, assemblies, or information and has not received requested material within 30 days of date posted on return request.
   - On claims, due to damage or shortage, that are obviously the responsibility of the Woods dealer or the delivering carrier.
   - On the entire claim when warranty policy or provisions are not followed.
5. **Dealer modifications**
   The dealer may not make modifications to products sold by Woods Equipment Company except to the extent necessary to include company authorized accessories or parts. The Limited Express Warranty shall be null and void with respect to any products otherwise modified. All liability for unauthorized modifications to products by the dealer shall be borne by the dealer and the dealer shall defend, indemnify and hold the Company harmless from any claims relating to said modification. All dealers warranty their own work to the purchaser.

WARRANTY

(Replacement Parts For All Models Except Mow'n Machine™ Zero-Turn Mowers)

Woods Equipment Company ("WOODS") warrants this product to be free from defect in material and workmanship for a period of ninety (90) days from the date of delivery of the product to the original purchaser with the exception of V-belts, which will be free of defect in material and workmanship for a period of 12 months.

Under no circumstances will this Warranty apply in the event that the product, in the good faith opinion of WOODS, has been subjected to improper operation, improper maintenance, misuse, or an accident. This Warranty does not cover normal wear or tear, or normal maintenance items.

This Warranty is extended solely to the original purchaser of the product. Should the original purchaser sell or otherwise transfer this product to a third party, this Warranty does not transfer to the third party purchaser in any way. There are no third party beneficiaries of this Warranty.

WOODS' obligation under this Warranty is limited to, at WOODS' option, the repair or replacement, free of charge, of the product if WOODS, in its sole discretion, deems it to be defective or in noncompliance with this Warranty. **The product must be returned to WOODS with proof of purchase within thirty (30) days after such defect or noncompliance is discovered or should have been discovered, routed through the dealer and distributor from whom the purchase was made, transportation charges prepaid.** WOODS shall complete such repair or replacement within a reasonable time after WOODS receives the product. THERE ARE NO OTHER REMEDIES UNDER THIS WARRANTY. THE REMEDY OF REPAIR OR REPLACEMENT IS THE SOLE AND EXCLUSIVE REMEDY UNDER THIS WARRANTY.

THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION ON THE FACE OF THIS WARRANTY. WOODS MAKES NO OTHER WARRANTY, EXPRESS OR IMPLIED, AND WOODS SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTY OF MERCHANTABILITY AND/OR ANY IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

WOODS shall not be liable for any incidental or consequential losses, damages or expenses, arising directly or indirectly from the product, whether such claim is based upon breach of contract, breach of warranty, negligence, strict liability in tort or any other legal theory. Without limiting the generality of the foregoing, Woods specifically disclaims any damages relating to (i) lost profits, business, revenues or goodwill; (ii) loss of crops; (iii) loss because of delay in harvesting; (iv) any expense or loss incurred for labor, supplies, substitute machinery or rental; or (v) any other type of damage to property or economic loss.

This Warranty is subject to any existing conditions of supply which may directly affect WOODS' ability to obtain materials or manufacture replacement parts.

No agent, representative, dealer, distributor, service person, salesperson, or employee of any company, including without limitation, WOODS, its authorized dealers, distributors, and service centers, is authorized to alter, modify, or enlarge this Warranty.

F-8494 (Rev. 11/12/2018)

EXAMPLE 7 – WARRANTY STATEMENT FORM

LIMITED WARRANTY

(Mow'n Machine™ Zero-Turn Mower Replacement Parts)

Woods Equipment Company ("WOODS") warrants replacement parts for Mow'n Machine™ zero-turn mowers and attachments to be free from defect in material and workmanship for a period of ninety (90) days from the date of delivery of the product to the original purchaser.

IMPLIED WARRANTIES OF MERCHANTABILITY AND/OR FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED IN DURATION TO A PERIOD OF NINETY (90) DAYS FROM THE DATE OF DELIVERY OF THE PRODUCT TO THE ORIGINAL PURCHASER. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

This Warranty is extended solely to the original purchaser of the product. Should the original purchaser sell or otherwise transfer the product to a third party, this Warranty does not transfer to the third party purchaser in any way. There are no third party beneficiaries of this Warranty.

This Warranty does not cover normal wear or tear, or normal maintenance items, or any damage, failure or loss caused by improper operation, improper maintenance, misuse, or an accident.

WOODS' obligation under this Warranty is limited to, at WOODS' option, the repair or replacement, free of charge, of the product if the product is defective or in noncompliance with this Warranty. **The product must be returned to WOODS with proof of purchase within thirty (30) days after such defect or noncompliance is discovered or should have been discovered, routed through the dealer and distributor from whom the purchase was made, transportation charges prepaid.** WOODS shall complete such repair or replacement within a reasonable time after WOODS receives the product.

WOODS shall not be liable for any incidental or consequential losses, damages or expenses, arising directly or indirectly from the product, whether such claim is based upon breach of contract, breach of warranty, negligence, strict liability in tort or any other legal theory. Without limiting the foregoing, WOODS shall not be liable for any damages relating to (i) lost profits, business, revenues or goodwill; (ii) any expense or loss incurred for labor, supplies, substitute machinery or rental; or (iii) any other type of damage to property or economic loss. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you.

No agent, representative, dealer, distributor, service person, salesperson, or employee of any company, including without limitation, WOODS, its authorized dealers, distributors, and service centers, is authorized to alter, modify, or enlarge this Warranty.

This Warranty gives you specific legal rights, and you may also have other rights which may vary from state to state.
