19CRDWBTHERR-0005 Questions & Answers

Question: What type of documentation would the DNR like to see?

Answer: I would like to see pictures of completed sites (before and after) and be supplied with a list of at least 3 references from projects with like work.

Question: Is there any stipulation for the contactor using a subcontractor for some or all of the work?

Answer: Yes subcontractors can be used. If you intend to utilize a subcontractor, that fact must be stated in your bid.

Question: Are the below requirements outlined in the bid packet and I missed them?

Answer: The only listed requirement in the document is "Knowledge and expertise in, but not limited to, mowing native prairie plantings and pulling trees and /or shrubs with a skid-steer mounted tree puller."

In order to gauge "*knowledge and expertise*" of prospective bidders I need to be provided with some sort of documentation that you can complete the project I have. My suggestion is pictures (with a short explanation) and references of like work (same suggestion I would give to every prospective bidder).

Question: Will all questions submitted and your responses be posted on the DNR website so we can view others questions?

Answer: Yes all questions and answers will be posted to the website no later than April 28, 2019.
