Re: Educational Savings Accounts

Dear Karl Wendt,

Odyssey is pleased to respond to the State of Iowa's Request for Proposal #005-RFP-0317-2023 for Educational Savings Accounts Administration. In this response, we take great care to address the specific requirements of the RFP to demonstrate our comprehensive understanding of Education Savings Account (ESA) programs.

Odyssey is an experienced provider of technology solutions for microgrant and Education Savings Account (ESA) programs nationwide. The Odyssey payment management platform has been designed specifically to reduce the administrative burden for states implementing ESAs and to empower families utilizing them. Odyssey's experienced team, comprised of highly skilled team members from companies such as Google, Amazon, Lyft, AngelList, and Brex, has created a simple turnkey solution that oversees all aspects of administering an Educational Savings Accounts program, such as the Students First program. Our platform provides tools that allow families and guardians quick and easy access to funds while giving Iowa the means to limit fraud, waste, and abuse. Student learning loss and recovery is one of the most significant issues facing Iowa families today, and we are eager to help by sharing our expertise and platform with them.

In the past year, we have successfully distributed \$50 million to families in ESA and microgrant programs. We worked closely with the state of Idaho to develop and launch a customized, user-friendly platform within four weeks. This partnership has allowed us to distribute \$50 million in public funds to families, allowing students to obtain tutoring and other remedial and supplemental academic services. Our work at Odyssey reflects our mission of making ESA and microgrant programs accessible to families and vendors while ensuring states securely and responsibly administer public funds.

Today, Odyssey is the only experienced platform in the country that has managed to distribute the entirety of the funds earmarked for a program while eliminating fraud. Although we consider this the minimum necessary for the successful administration of an ESA or microgrant program, the industry has struggled with improper payment controls and lack of oversight in other states. Accordingly, we urge the Iowa Department of Education to carefully consider the experience of each applicant concerning their administration of microgrants.

The attached response thoroughly states our qualifications and demonstrates our ability to serve the State of Iowa. We look forward to collaborating with you and your team on this critical initiative. If you have any questions regarding this response, please contact me at (515) 368-9564 or joe@withodyssey.com.

My best,

CEO & Founder
Odyssey

Exhibit 2 – Executive Summary

The Respondent shall prepare an executive summary and overview of the goods and/or services it is offering, including all of the following information:

- Statements that demonstrate that the Respondent has read and understands the terms and conditions of the RFP including the Contract provisions in Section 6.
- An overview of the Respondent’s plans for complying with the specifications of this RFP.
- Any other summary information the Respondent deems to be pertinent.

The State of Iowa seeks a responsible respondent offering a full turnkey operation to support the Education Savings Account program administration. We are that partner. Odyssey is the first company to offer an all-encompassing solution geared solely towards providing ESA and microgrant programs.

Odyssey was founded with the mission of empowering families by helping connect them to an education savings account and microgrant funding. We understand that this ESA is a major shift for Iowa, and we are committed to partnering to ensure it is successful.

Our work at Odyssey reflects our mission of making ESA and microgrant programs accessible to families and vendors, and giving states the tools to limit waste, fraud, and abuse. We are enthusiastic about working with states, families, and vendors to accomplish that goal, which is why our product has many features tailored for each user. Odyssey would be delighted to partner with the State of Iowa to bring our platform to the State of Iowa.

We have thoroughly reviewed the terms and conditions of this RFP, including the Contract provisions in Section 6, and are eager to partner with the state to deliver an innovative ESA program for Iowa’s families.

Accessibility

Odyssey is an experienced and successful ESA and microgrant administrator that has helped over 50,000 children access these programs in the past year. At Odyssey, we have designed a user-friendly platform that allows families or guardians (“family users”) to sign up and gain approval in as few as five minutes, an industry-leading statistic. We can accomplish this lightning-fast approval by securely utilizing state databases, such as the Department of Revenue’s database or social services in some instances, to verify eligibility or by having families upload their eligibility documents. Alternatively, we are able to utilize publicly available databases to confirm identity or have parents upload documents for verification. Odyssey’s experienced team of staff members from large technology companies such as Google, Amazon, and AngelList has built a platform that allows us to collect and verify information quickly, efficiently, and accurately. Our ability to provide access immediately helps the state deliver on the funding promptly, and our extensive statewide outreach allowed us to identify key parts of the service for Iowan families.

Our platform is accessible to families who are not native English speakers. Our application and customer service are bilingual and provided in English and Spanish. If selected, we are also committed to assisting families who speak other non-English languages, including Chinese and Bosnian, languages are spoken by many Iowa families.

Transparency

Odyssey prioritizes transparency to limit fraud and offer insight into where users spend their grant money. In 2022, this helped us distribute \$50 million to families in the Empowering Parent program in Idaho with no reported cases of fraud.

Odyssey is unique in allowing states complete access to all financial transaction information, including real time and historical access. Our platform is the only one capable of allowing administrators a complete live look at the application process and all financial transactions in a single easy to use dashboard. This helps states prevent fraud both at the application level and at the financial level. Other companies only provide access to financial transactions, but no support for verification, which has historically led to state money being improperly assigned to non-state residents.

Odyssey will allow Iowa to control all platform aspects and receive direct real-time access to account activity, payments, and financial information. We also allow Iowa administrators to generate and export historical reports at the click of a button. Iowa will have constant access to required information through an easy-to-use administrative portal and Odyssey's staff is always happy to answer any questions that may arise during the process.

Odyssey has developed a vendor vetting process that gives states a clear understanding of where and what services families use. We require every vendor to go through a two-step vetting process. The vendor must:

- 1) Provide documents demonstrating that they are a registered legal entity in good standing.
- 2) Provide information about the services or products they will provide for the ESA and microgrant program.

The Odyssey team reviews each vendor individually to ensure they meet the program's parameters. This vetting process is augmented by software and typically takes up to 10 minutes per vendor. This process has allowed us to successfully review and approve hundreds of vetted vendors in the past year. The State of Iowa can rest assured that families will spend their Educational Savings Account program money productively and efficiently.

Customization

Odyssey will tailor all the program's features to reflect Iowa's unique needs for the Educational Savings Account program. Within a week after the contract signing, we will demonstrate a version of the Odyssey platform customized to the Educational Savings Account program and tailored to service Iowa families. Each part of the process – from family application to verification criteria to payments to report generation – will have been customized to Iowa's exact needs.

Odyssey is unique among ESA vendors for our focus on customizing our software for each state. To that end, we have met with several Iowa based organizations to learn more about Iowa families' needs. These organizations include American Federation for Children, the Iowa Catholic Conference, Inspired Life, and Hispanics Aligned for Choice in Education Reform. These conversations have helped us better understand the issue of student learning loss and recovery facing Iowa's families today.

Additionally, we will work closely with the State of Iowa to provide customer support, application approval, and all other administrative tasks within the secure Odyssey platform. This will free the State of Iowa administration to focus on other endeavors that serve Iowa families.

The State of Iowa's Source for Efficient Spending

Odyssey is committed to maximizing value for both Iowa families and taxpayers. Our corporate structure and culture hinge on providing a streamlined service that demonstrates the best management practices and satisfies all state and federal compliance requirements.

Odyssey's vendor recruitment efforts will reflect a focus on private schools since the ESA payments must first be used for tuition and fees. Additionally, we will also recruit qualified Iowa-based providers, including local tutoring centers, special education services, and other specialized education services, onto our platform. Our work has already started, and we have done extensive outreach to generate a list of more than 1,000 Iowa-based small businesses that are eligible and ready to participate in the Educational Savings Account program. We have included that list in this proposal in [Appendix A](#).

This approach is a proven success and exemplifies a cycle of efficiency.

- 1) A lean, nimble, and innovative provider will serve Iowa.
- 2) Qualifying Iowa families will receive needed funds to bolster their child's education.
- 3) Qualifying Iowa vendors will receive payment for critical academic services, and the state will reap additional tax revenue through enhanced business activity and a better-educated workforce of tomorrow.

Odyssey is a newer entrant to the microgrant and ESA space, but in our 1.5 years of experience, we have processed more than 75,000 parent applications, distributed \$50 million to more than 50,000 students, and have had no reported cases of fraud. There is no company that is better equipped to administer the Iowa ESA program than Odyssey.

Exhibit 3 - Firm Proposal Terms

The Respondent shall guarantee in writing the goods and/or services offered in the Proposal are currently available and that all Proposal terms, including price, will remain firm for the number days indicated on the RFP cover sheet following the deadline for submitting Proposals.

Odyssey confirms that all products and services offered in this proposal are currently available and that our Proposal terms, including price, will remain firm through Wednesday, June 14, 2023, 120 days following the deadline for submitting proposals.

Exhibit 4 - Respondent Background Information

Does your state have a preference for instate Contractors? Yes or No. If yes, please include the details of the preference.	No.

Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Go to www.irs.gov/FormW9 for instructions and the latest information.

Give Form to the requester. Do not send to the IRS.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.
Primary Class Inc.

2 Business name/disregarded entity name, if different from above
Odyssey

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only one of the following seven boxes.

<input type="checkbox"/> Individual/sole proprietor or single-member LLC	<input checked="" type="checkbox"/> C Corporation	<input type="checkbox"/> S Corporation	<input type="checkbox"/> Partnership	<input type="checkbox"/> Trust/estate
<input type="checkbox"/> Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ _____				
<small>Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is not disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.</small>				
<input type="checkbox"/> Other (see instructions) ▶ _____				

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):
 Exempt payee code (if any) _____
 Exemption from FATCA reporting code (if any) _____
(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.
100 Jane Street Apartment 2B

6 City, state, and ZIP code
New York, NY 10014

7 List account number(s) here (optional)

Requester's name and address (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number								
OR								
Employer identification number								
8	7		3	8	9	5	7	1 8

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here Signature of U.S. person ▶ Date ▶ 1/03/23

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, later.

Cat. No. 10231X Form W-9 (Rev. 10-2018)

Exhibit 5 – Experience

Number of years in business. Two (2)

Number of years of experience with providing the types of services sought by the RFP. Two (2)

The level of technical experience in providing the types of services sought by the RFP.

Odyssey is an experienced and successful administrator for microgrant and ESA programs as evidenced by our work in Idaho operating the Empowering Parents program.

The Empowering Parents program was created to help families attending public school, charter schools, private schools or homeschools, supplemental funding to help make up for learning loss experienced during the pandemic. The program is a microgrant, very similar to the Iowa ESA program, that sets aside \$50 million to distribute to 50,000 kids in Grades K-12.

Odyssey ensured the program was fully operational and live just four weeks from contract award, and in the first six months alone, more than \$34 million was distributed to more than 34,000 kids.

We have accomplished this successful program by partnering closely with our state partners to allow them to develop and launch customized, user-friendly platforms in as little as 4 weeks. Our experience in Idaho, working closely with the Idaho State Board of Education to administer the Empowering Parents program, is especially relevant for the Iowa Department of Education as it looks to ensure a successful launch for its new ESA program this year.

A list of all goods and/or services similar to those sought by this RFP that the Respondent has provided to other businesses or governmental entities. Please describe Respondent's experience with installations similar in size.

Empowering Parents Idaho State Board of Education

In 2022, the program was fully operational within four weeks of contract award. From August 2022 through present, we have provided the Idaho State Board of Education with the following services:

- ▶ Marketing and outreach
- ▶ Application verification
- ▶ Marketplace creation
- ▶ Payments
- ▶ Data retention

Arizona Tax Credit Scholarship Child Opportunity Fund

From November 2022-Present, we have provided the Child Opportunity Fund with the following services:

- ▶ Marketing and outreach
- ▶ Application verification
- ▶ Marketplace creation
- ▶ Payments
- ▶ Data retention

Arizona Microgrant Love Your School

From August 2022-Present, we have provided Love Your School with the following services:

- ▶ Marketing and outreach
- ▶ Application verification
- ▶ Marketplace creation
- ▶ Payments
- ▶ Data retention

Letters of Reference

Letters of reference from three (3) previous or current customers or clients knowledgeable of the Respondent's performance in providing goods and/or services similar to the goods and/or services described in this RFP and a contact person and telephone number for each reference.

650 W. State Street • Room 307 • Boise, ID • 83702
P.O. Box 83720 • Boise, ID • 83720-0037

February 13, 2023

To Whom It May Concern,

The purpose of this letter is to confirm Odyssey as a vendor currently under contract.

Odyssey was awarded the opportunity to administer the Idaho Empowering Parents grant program in August 2022 by the Idaho State Board of Education. The process was an open competition in which we received several responses, and Odyssey received the highest score of all the applicants.

Since that time, Odyssey has administered the microgrant program under the supervision of the Idaho State Board of Education. Odyssey has provided services for application verification, customer support, marketplace creation, payments, and data and record retention.

Sincerely,

Matt Freeman
Executive Director
Idaho State Board of Education

To whom it may concern,

Odyssey has bridged the gap between our mission to provide hands-on science education to students and the families who need it. Their system allows parents to see the educational resources available and choose the best way to apply their funds for the needs of their students.

Odyssey has worked to navigate any issues that arise and seek feedback to better serve both family and vendor needs. We're grateful to be part of this program!

Sincerely,

Rebecca Fisher

LAPTOPS & MORE OF IDAHO

To whom it may concern,

I can say, without reservations, working with the Odyssey team has been rewarding on many levels. As a small business here in Idaho we've found the teamwork and responsiveness from Odyssey to be exceptional and in proportion to the great task of serving the educational needs of my fellow Idahoans. The Idaho legislature took great pains to charter a program that serves the people of Idaho and yet attempts to thwart fraud throughout the grant process. This process created undue and additional issues not normally seen in the public marketplace. Odyssey has created a system that is basic and easy to navigate once you realize the simplicity. This simplicity helped us as a local vendor to adjust our business practices and streamline our onboarding and fulfillment/delivery to the benefit of grant recipients.

In closing, if you are considering working with Odyssey I would wholeheartedly recommend Joe, Allie and the rest of the Odyssey team. As a former Field Representative for the National Rifle Association's charity (NRA Foundation) I directly oversaw the grant program for the State of Washington and Idaho. I learned how important it is to have the lead organization ready to manage expectations and fulfill its duties quickly and efficiently for the benefit of all stakeholders. Odyssey has done just that. Of course, as with any program there are protagonists with different opinions and I have found Odyssey to be a conscientious and worthy team member in dealing with such opportunities that come with dealing with constituents.

Cordially,

Brendon & Julie Hill

“With ESAs Soaring, Tech Platform Odyssey Emerges to Help Families Access State Funding”

Michael B. Horn, www.forbes.com

“Idaho recently selected Odyssey to administer its \$50 million Empowering Parents grant program. In the first six weeks of implementation, Odyssey processed over 47,000 student applications, approved 27,000 of them, and awarded \$27 million in government dollars. That early track record compares favorably to programs in other states where, for example, the department of education struggles to move 300 applications in three months.”

“Idaho to Dole Out Over 50K Microgrants for K-12 Families”

Giovanni Albanese, www.govtech.com

The Empowering Parents grants program was passed by state senators in February and later awarded to Primary Class, the developer of Odyssey. This K-12 microgrant platform houses education savings accounts through its online portal to manage alongside the Idaho State Board of Education.

Exhibit 6 - Termination, Litigation, and Debarment

The Respondent must provide the following information for the past five (5) years:

- Has the Respondent had a contract for goods and/or services terminated for any reason? If so, provide full details regarding the termination.

No, Odyssey has not had a contract for goods and/or services terminated for any reason.

- Describe any damages or penalties assessed against or dispute resolution settlements entered into by Respondent under any existing or past contracts for goods and/or services. Provide full details regarding the circumstances, including dollar amount of damages, penalties and settlement payments.

Odyssey has not had any damages or penalties assessed against or dispute resolution settlements entered under any existing or past contracts for goods and/or services.

- Describe any order, judgment or decree of any Federal or State authority barring, suspending or otherwise limiting the right of the Respondent to engage in any business, practice or activity.

Odyssey has not had any order, judgment, or decree of any Federal or State authority barring, suspending or otherwise limiting the right of Odyssey to engage in any business, practice or activity.

- A list and summary of all litigation or threatened litigation, administrative or regulatory proceedings, or similar matters to which the Respondent or its officers have been a party.

Odyssey has not been a party to any litigation or threatened litigation, administrative or regulatory proceedings, or similar matters.

- Any irregularities discovered in any of the accounts maintained by the Respondent on behalf of others. Describe the circumstances and disposition of the irregularities. Failure to disclose these matters may result in rejection of the Proposal or termination of any subsequent Contract. The above disclosures are a continuing requirement of the Respondent. Respondent shall provide written notification to the Agency of any such matter commencing or occurring after submission of a Proposal, and with respect to the successful Respondent, following execution of the Contract.

Odyssey has not had any irregularities discovered in any of the accounts maintained by Odyssey on behalf of others.

Exhibit 7 - Criminal History and Background Investigation

The Respondent hereby explicitly authorizes the Agency to conduct criminal history and/or other background investigation(s) of the Respondent, its officers, directors, shareholders, partners and managerial and supervisory personnel who will be involved in the performance of the Contract. Respondent shall confirm.

Yes, Odyssey authorizes the Agency to conduct criminal history and/or other background investigation(s) of Odyssey, its officers, directors, shareholders, partners, and managerial and supervisory personnel who will be involved in the performance of the Contract.

Exhibit 8 - Acceptance of Terms and Conditions

By submitting a Proposal, Respondent acknowledges its acceptance of the terms and conditions of the RFP and the General Terms and Conditions without change except as otherwise expressly stated in its Proposal. If the Respondent takes exception to a provision, it must identify it by page and section number, state the reason for the exception, and set forth in its Proposal the specific RFP or General Terms and Conditions language it proposes to include in place of the provision. If Respondent's exceptions or responses materially alter the RFP, or if the Respondent submits its own terms and conditions or otherwise fails to follow the process described herein, the Agency may reject the Proposal, in its sole discretion.

Odyssey acknowledges and accepts the terms and conditions of the RFP and the General Terms and Conditions without change.

Exhibit 9 - Mandatory Specifications

The Respondent shall answer whether or not it will comply with each specification in Section 4 of the RFP. Where the context requires more than a yes or no answer or the specific specifications so indicates, Respondent shall explain how it will comply with the specification. Merely repeating the Section 4 specifications may be considered non-responsive and result in the rejection of the Proposal. Proposals must identify any deviations from the specifications of the RFP or specifications the Respondent cannot satisfy. If the Respondent deviates from or cannot satisfy the specification(s) of this section, the Agency may reject the Proposal.

Overview

The successful Respondent shall provide the goods and/or services to the State in accordance with the specifications and technical specifications as provided in this Section. The Respondent shall address each specification in this Section and indicate whether or not it will comply with the specification. If the context requires more than a yes or no answer or the section specifically indicates, Respondent shall explain how it will comply with the specification. Proposals must address each specification. Merely repeating the specifications may be considered non-responsive and may disqualify the Respondent. Proposals must identify any deviations from the specifications of this RFP or specifications the Respondent cannot satisfy. If the Respondent deviates from or cannot satisfy the specification (s) of this section, the Agency may reject the Proposal.

All items listed in this section are Mandatory Specifications. Respondents must indicate either “**yes**” or “**no**” to each specification in their Proposals and provide an explanation as to how the specification is met. By indicating “yes” a Respondent agrees that it shall comply with that specification throughout the full term of the Contract, if the Respondent is successful. In addition, if specified by the specifications or if the context otherwise requires, the Respondent shall provide references and/or supportive materials to verify the Respondent’s compliance with the specification. The Agency shall have the right to determine whether the supportive information and materials submitted by the Respondent demonstrate that the Respondent will be able to comply with the Mandatory Specifications. If the Agency determines the responses and supportive materials do not demonstrate the Supplier will be able to comply with the Mandatory Specifications, the Agency may reject the Proposal.

4.1 Respondent Requirements

4.1.1 Respondent must have ability to administer funds for all Qualified Educational Expenses.

Yes, Odyssey is able to administer funds for all Qualified Educational Expenses through our platform’s integrated digital wallet. Once transferred, these funds are available instantly. From there, families can use the funds to purchase qualified goods and services directly through the platform using the vendor marketplace. This is very similar to the system we used in Idaho for the Empowering Parents program.

4.1.2 Respondent must be familiar with and comply with the applicable aspects of the following requirements regarding pupil’s personally identifying including but not limited to:

- Family Educational Rights and Privacy Act (FERPA)
- Health Insurance Portability and Accountability Act (HIPAA)
- Iowa laws, rules, and regulations applicable to State’s current and published privacy and security policies and procedures

Yes, Odyssey is both familiar with and complies with FERPA and HIPAA. As Odyssey is an experienced provider, our system has been required to be compliant from previous implementations before. We have also studied Iowa laws, rules, and regulations applicable to the state's current and published privacy and security policies and procedures and are confident our system is compliant with them.

Additionally, Odyssey treats all Personally Identifying Information (PII) appropriately, adhering to all privacy and security requirements.

4.1.3 Respondent must be liable and bear all the responsibility of and resolve any complaints or issues a student's representative may have towards the conduct of the evaluation and/or any privacy or data breaches under state or federal law.

Yes, Odyssey provides best in class security for all the data that we collect. We have never had a data or privacy breach, unlike other administrators in the marketplace. Odyssey stipulates that we will be liable and bear all the responsibility of and resolve any complaints or issues a student's representative may have regarding the conduct of the evaluation and/or any privacy or data breaches under state or federal law.

4.2 Service Requirements

4.2.1 Services shall comply with HF68.

Yes, Odyssey has reviewed HF68 and can confirm that our services will be compliant with all the requirements.

4.2.2 Services must be operational to allow a minimum of 30 days, and preferably 60 days or more, for parents or guardians of eligible pupils to submit an application to meet the June 30 deadline for the 2023-2024 school year.

Yes, Odyssey's services will be operational within 4 weeks after the award is made so we can guarantee a 60-day period for applications. We have experience with implementing software quickly based on our experience in Idaho where we had our system operational within 30 days after the contract was awarded to us.

4.2.3 Families are to be notified of acceptance or denial within 30 days of submitting an application.

Yes, Odyssey's system currently provides notification of acceptance or denial in as soon as minutes, and all applicants hear back on their status within 7 days of applying.

We have designed a user-friendly platform that allows families or guardians ("family users") to sign up and gain approval in as few as five minutes. We can accomplish this lightning-fast approval by using Iowa's databases, such as a tax department database (or social services in some instances), to verify eligibility or by having families upload their eligibility documents.

Alternatively, we are able to use publicly available databases to confirm identity or have parents upload documents for verification. Our experienced team of staff members from companies such as Google, Amazon, and Angellist has built a platform that allows us to collect and verify information quickly, efficiently, and accurately.

4.2.4 Respondent must allocate funds from each pupil's account for the payment of Qualified Educational Expenses incurred by the pupil's parent or guardian.

Yes, Odyssey's platform allocates funds from each pupil's account for the payment of Qualified Educational Expenses. Any goods or services purchased by a family user generates an invoice. When that invoice is paid, an ACH payment is made from the family user's account to the vendor's appropriate account. We typically utilize ACH payments in marketplace transactions as they are often the fastest and most secure. We also utilize an integrated marketplace that allows us to instantly process orders.

Odyssey is by far the fastest payments operator available in the sector today. On average, our ACH payments are settled within 2-3 days, while our integrated marketplace transactions are settled within 24-48 hours.

Additionally, we offer the Department the ability to conduct reimbursement transactions and debit card payments if needed.

4.2.5 Respondent must have procedures in place to prevent waste, fraud, and abuse.

"[Making good on the potential of education savings accounts] demands a relentless focus on **transparency** and **accountability** to ensure that state leaders can safeguard taxpayer investments and quantify their impact."

www.forbes.com, 10/26/2022

Odyssey is the only provider available today that has successfully transacted more than \$50 million with no confirmed cases of fraud.

We have accomplished this stellar record through a laser focus on setting in place the proper procedures and safeguards to eliminate waste, fraud, and abuse, including

- 1) Integrated program administration.
- 2) Secure financial transactions.
- 3) Robust vendor verification.

Integrated Program Administration

Limiting waste, fraud, and abuse starts with application verification. Unfortunately, most platforms only allow the state or administrator to review applications and payments in separate systems and across different contractors. This is inefficient, leads to miscommunication, and in other states, has historically led to fraud.

Odyssey is the only platform that is capable of allowing administrators a complete live look at the application process and all financial transactions in a single, easy-to-use dashboard.

Welcome, Adam

Administrators can easily track application status and view applications through the parent directory.

Secure Financial Transactions

Odyssey currently supports thousands of transactions daily via secure payment methods. For all transactions, we use a combination of industry-standard third-party services for managing Financial Ledger activities (Modern Treasury) and Money Transfer activities (Stripe).

Odyssey processes transactions daily and pays 2-5 business days via ACH after processing.

Robust Vendor Verification

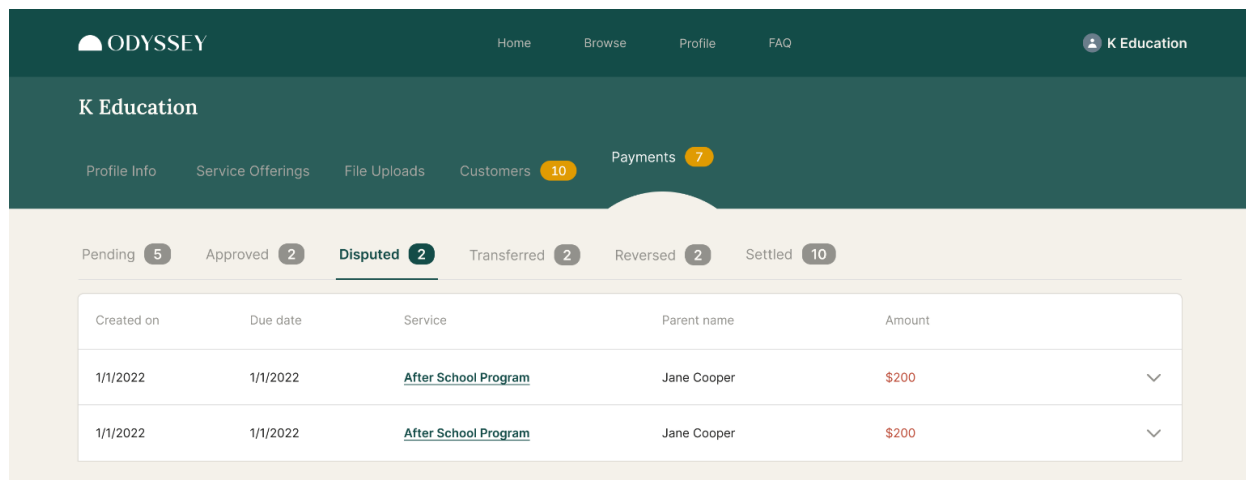

We also complete vendor verification as well. Each vendor must go through a multi-level step vetting process. The vendor must:

- 1) Provide documents demonstrating that they are a registered legal entity in good standing.
- 2) Provide information about the services or products they will provide for the program.

The Odyssey team reviews each vendor individually. This vetting process has allowed us to successfully review and approve hundreds of vetted vendors for participation in the Empowering Parents program. This ensures that families have access to their choice of vendor while limiting fraud.

Our platform allows us to collaborate with vendors to predetermine approved purchases and services at the product level. We do this in two ways, in the first small business and private schools can submit individual services and goods for approval by Odyssey. That means that there are not goods or services that can be provided without explicit approval from Odyssey. Second, we have integrated our marketplace with large vendors such as Office Depot and Lakeshore. This integration means that we can limit the catalog that parents can shop at each vendor to only approved items. For example, we can eliminate candy and office furniture as an option for purchase from an office supply store while still allowing qualified educational expenses as defined in Iowa Code and Administrative Rules. This prevents some of the prohibited purchases we have seen in other states causing federal investigations of programs and the contractors operating those programs.

Additionally, Odyssey's payment system is closed, meaning that Odyssey reviews each payment individually before confirmation. Suspicious charges automatically elevate within the company and undergo a more rigorous review. Our built-in transaction management software allows us to triage cases with the appropriate team, freeze and unfreeze accounts, and report any suspected fraud to the appropriate state agencies. Through the portal, parents, vendors, and administrators can review the status of invoices and payments, as seen above.

The screenshot shows the Odyssey K Education portal interface. At the top, there is a navigation bar with the Odyssey logo, 'Home', 'Browse', 'Profile', and 'FAQ' links, and a user profile icon labeled 'K Education'. Below this is a 'K Education' header with sub-navigation for 'Profile Info', 'Service Offerings', 'File Uploads', 'Customers' (10), and 'Payments' (7). Under 'Payments', there are filters for 'Pending' (5), 'Approved' (2), 'Disputed' (2), 'Transferred' (2), 'Reversed' (2), and 'Settled' (10). The 'Disputed' filter is selected. A table displays the following data:

Created on	Due date	Service	Parent name	Amount	
1/1/2022	1/1/2022	After School Program	Jane Cooper	\$200	▼
1/1/2022	1/1/2022	After School Program	Jane Cooper	\$200	▼

The portal allows transparent access to all platform transactions, giving administrators clear insight into where state funds are spent.

The Odyssey platform custodies state funding at an FDIC-insured bank. Our software creates sub-accounts, or digital wallets, from the main account, transferring funds to each digital wallet. Our platform only allows funding from the state to fund program users' accounts and prevents program users from making personal deposits into application accounts.

It is important to note that our software allows an exception for users who are purchasing services or goods that are more expensive than the remaining account balance. In those cases, Odyssey can unlock the ability for a user to "pay the difference" between the cost of the good and their balance. This ability can be turned on or off by the Iowa Department of Education, and we would work closely with the Department to customize it for Iowa's needs.

4.2.6 Upon determination of a false claim for an ESA, or improper payment from an ESA, respondent shall close the pupil's ESA. If improperly obtained amounts have been disbursed, respondent shall recover such amounts from the parent or guardian, including initiating legal proceedings to recover such amounts, if necessary.

Yes, Odyssey can recover state funding due to a false claim or an improper payment from an ESA. As an experienced provider that has distributed millions of dollars, Odyssey has experience identifying, investigating, and recovering funds from improperly claimed money. We have dealt with this situation a few dozen times before and have been able to resolve each one successfully and to the state's satisfaction by prioritizing appropriate action and communication. Further, Odyssey is prepared and can coordinate with our internal legal counsel to recover improperly disbursed funds from the family through legal proceedings.

4.2.7 Respondent must establish an individual account for that pupil in the education savings account fund. The amount of the pupil's education savings account payment shall be deposited into the pupil's individual account on July 15 or thirty days following submission of the application, whichever is later, and such amount shall be immediately available for the payment of qualified educational expenses incurred by the parent or guardian for the pupil during that school budget year.

Yes, Odyssey can and does provide each pupil with an individual account with access to their ESA funds. As soon as we receive funding from the state, we are able to instantly deposit all funds and make them available for parents. We are prepared to meet the timeline required by Iowa of July 15th, 2023, or thirty days following application submission. Available funds will then be available for the payment of qualified educational expenses within the vendor marketplace and through approved, integrated third-party vendors.

4.2.8 Respondent must hold funds remaining in a pupil's individual account upon conclusion of the school budget year, and funds shall remain in the pupil's individual account for the payment of qualified educational expenses in future fiscal years during which the pupil participates in the program until the pupil becomes ineligible under the program or until the remaining amounts are transferred to the state general fund.

Yes, Odyssey's platform currently holds funds remaining in a pupil's account as long as the state requires. For example, in Idaho, we are holding all funds for a two-year period. In Iowa, we can customize the platform so that the funding remains in a pupil's individual account upon conclusion of the school budget year, and that the funds remain in the pupil's individual account for the payment of qualified educational expenses in future fiscal years.

4.2.9 Offshore performance of work is prohibited. Any services included in the resulting contract that directly serve the State or its clients and involve access to secure or sensitive data or personal client data shall be performed within the United States. This provision applies to work performed by subcontractors at all tiers.

Yes, Odyssey understands that the State of Iowa prohibits offshore work performance. All our work is performed within the United States.

4.3 System Requirements

4.3.1 Keep data secure. Any technology platform used for the program meets the State's highest security requirements, including compliance.

Yes, Odyssey's platform adheres to the highest security and compliance requirements.

Our approach to transactional security includes filtering logs and messages and using HTTPS and secure encryption of all credentials, both in our code and on the platform for our users. This approach is in line with industry-standard security practices, such as PCI-DSS (Payment Card Industry Data Security Standard), which applies to transactions involving credit and debit card information. We also follow OWASP (Open Web Application Security Project) guidelines and best practices for web application security.

We also have additional security via our web services partners like Sentry and New Relic, giving us further insight into potential bad actors and DDOS (distributed denial of service) attacks.

4.3.1.1 If Respondent evaluates their organization and produce a System and Organization Controls 1 (SOC-1) and System and Organization Controls 2 (SOC2) report or similar, the Respondent shall provide this annually to the State of Iowa.

Yes, Odyssey is committed to providing a SOC1 and SOC2 report, or any similar reports, to the State of Iowa.

4.3.1.2 The Respondent shall immediately report within five (5) business days to the Department of Education any use or disclosure of Confidential Information not provided for by this Contract, of which it becomes aware. Respondent shall cooperate with the State of Iowa's investigation, analysis, notification and mitigation activities, and shall be responsible for all costs incurred by the Department of Education for those activities.

Yes, Odyssey agrees to immediately report within five (5) business days to the Department of Education any use or disclosure of Confidential Information not provided for by this Contract, of which it becomes aware. To date, Odyssey has had no data breaches, and our state partners can confirm this upon request. Unfortunately, this is not the case for the sector as a whole. Accordingly, we urge the State of Iowa to carefully review each applicant's experience and request documentation regarding data breaches.

Furthermore, Odyssey shall cooperate with the State of Iowa's investigation, analysis, notification, and mitigation activities and shall be responsible for any costs incurred by the Department of Education for those activities.

4.3.1.3 Ensure that Respondent or its employees and subcontractors will not reuse, sell, make available, or make use in any format the data researched or compiled for this Contract for any venture, profitable or not, outside this Contract.

Yes, Odyssey can and will ensure that none of the data emanating from this contract will be reused, sold, made us of, or made available in any way. At Odyssey, data privacy is of the utmost importance, and we employ best practices to protect our data, including as-needed access restrictions and at-rest data encryption.

4.3.1.4 The Respondent shall encrypt all data at rest and in transit at minimum at 256 AES.

Yes, Odyssey encrypts all data at rest and in transit using ED25519 level encryption on our sFTP server, allowing "information" drops to and from the states we interact with. On top of this, each state has a unique key that limits them to each encrypted instance.

4.3.1.5 Storage of data at rest shall be located solely in data centers in the continental United States.

Yes, Odyssey stores all data in data centers located within the continental United States.

4.3.2 Must offer the Department of Education the capability of automated clearinghouse transactions, electronic commerce transactions, reimbursement transactions, and debit card payments in order to meet the diverse needs of participating parents and guardians to pay for qualified educational expenses.

Yes, Odyssey provides states with the ability to utilize ACH payments, electronic commerce, reimbursement, or debit card payments. In our experience, we typically utilize ACH payments for in-marketplace transactions as they are often the fastest and most secure. We also utilize an integrated marketplace, also known as electronic commerce transaction, with approved third-party vendors such as Office Depot and Lakeshore that allow us to process orders instantly.

It is important to note that Odyssey is by far the fastest payments operator available in the sector today. On average our ACH payments are settled within 2-3 days, while our integrated marketplace transactions are settled within 24-36 hours.

Additionally, we offer the Department the ability to conduct reimbursement transactions and debit card payments if needed.

4.3.3 Application system must:

4.3.3.1 Allow for secure transmission of applications, to include any required supporting documents, such as tax returns, applicable nontaxable income documents, and documents verifying school enrollment.

Yes, Odyssey's platform is built to quickly approve and deny applicants. We do allow applicants to upload supporting documents such as tax returns and other documents. In Idaho, we utilized the Idaho State Board of Education's database to verify approximately 90% of students. For the remaining students, we requested documentation to verify, and parents were able to upload it through our portal.

All data transmission is done via a secure, SSL-based upload process. Data is then stored in an encrypted and secured location.

4.3.3.2 Have the ability for applicants to input personal information for multiple students in household on same application.

Yes, Odyssey's platform allows applicants to submit information for multiple students in a household on the same application. This system has worked well for us in Idaho, where on average, each parent submits 1.87 students per application.

4.3.3.1 Allow for secure transmission of applications, to include any required supporting documents, such as tax returns, applicable nontaxable income documents, and documents verifying school enrollment.

Yes, Odyssey's platform allows for the secure transmission of applications to include any required supporting documents such as tax returns, applicable nontaxable income documents, and documents verifying school enrollment.

Yes, Odyssey's platform is built to allow upload of documents for applicants and to securely transmit them. In Idaho, we utilized the Idaho State Board of Education's database to verify approximately 90% of students. For the remaining students, we requested documentation to verify, and Family Users were able to upload it through our portal.

All data transmission is done via a secure, SSL-based upload process. Data is then stored in an encrypted and secured location.

4.3.3.2 Have the ability for applicants to input personal information for multiple students in household on same application.

Yes, Odyssey's platform has the ability for applicants to input personal information for multiple students in a household on the same application.

4.3.3.3 Provide review based on income data inputted by the applicant and identify any need for additional document submissions from the applicants.

Yes, Odyssey can review income data provided by the applicant, make a determination regarding eligibility and identify if there is a need for additional documentation. As

explained previously, any additional documentation can be uploaded directly by the applicant in the Odyssey platform.

4.3.3.4 Compare Applicant reported income to income thresholds defined by the Client to determine whether Applicant meets Client's eligibility requirements.

Yes, Odyssey can review the applicant's report income, compare it to income eligibility criteria determined by the client, and make a determination regarding eligibility. In the Empowering Parents program, all eligibility determinations are conducted by Odyssey based on the income eligibility criteria set up by the Idaho State Board of Education.

4.3.3.5 Allow electronic verification and acknowledgment by the Applicant of required assurances and rules.

Yes, the Odyssey platform allows applicants to electronically sign and verify a contract or acknowledgment of the rules. We are able to customize the contract or acknowledgment as well as move it around in the process. For the Empowering Parents program, we requested that parents sign the following language to parents after they had been verified to receive their funds.

We are happy to work closely with the Iowa Department of Education to modify this feature to their needs.

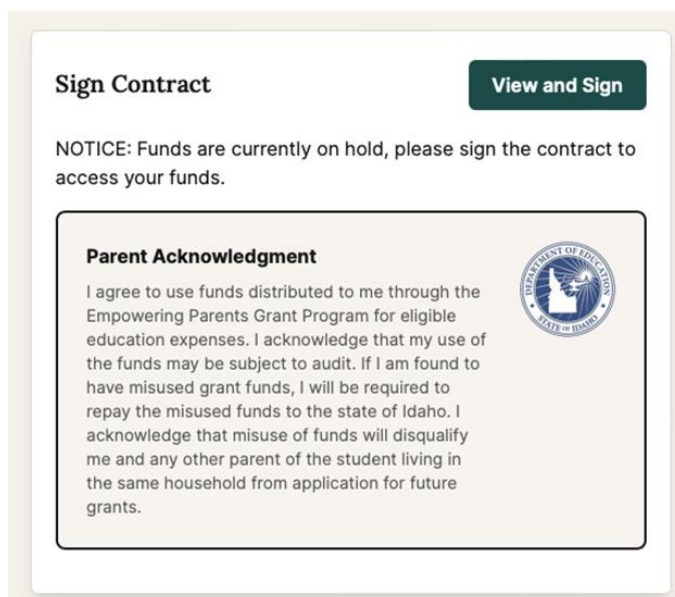

4.3.3.6 Allow Applicant to start and stop an application mid-stream and save information to be able to resume later.

Odyssey has been built by a team of engineers and designers to make life easier for parents. Odyssey allows all applicants to start and stop an application and save that information as they go through the process. Each family user can save the information and resume before submitting the application.

4.3.3.7 Provide status of application within application reporting. This may include: Submitted, Documents in Process, Does Not File, and Verified.

Yes, Odyssey provides statuses of applications within our portal and through generated reports. We currently provide several stages of application status to a family user, including:

- ▶ Pending,
- ▶ Ready for Review,
- ▶ Approved,
- ▶ Waiting for Contract Signature,
- ▶ Awarded,
- ▶ Changes Requested,
- ▶ Denied,
- ▶ Suspended.

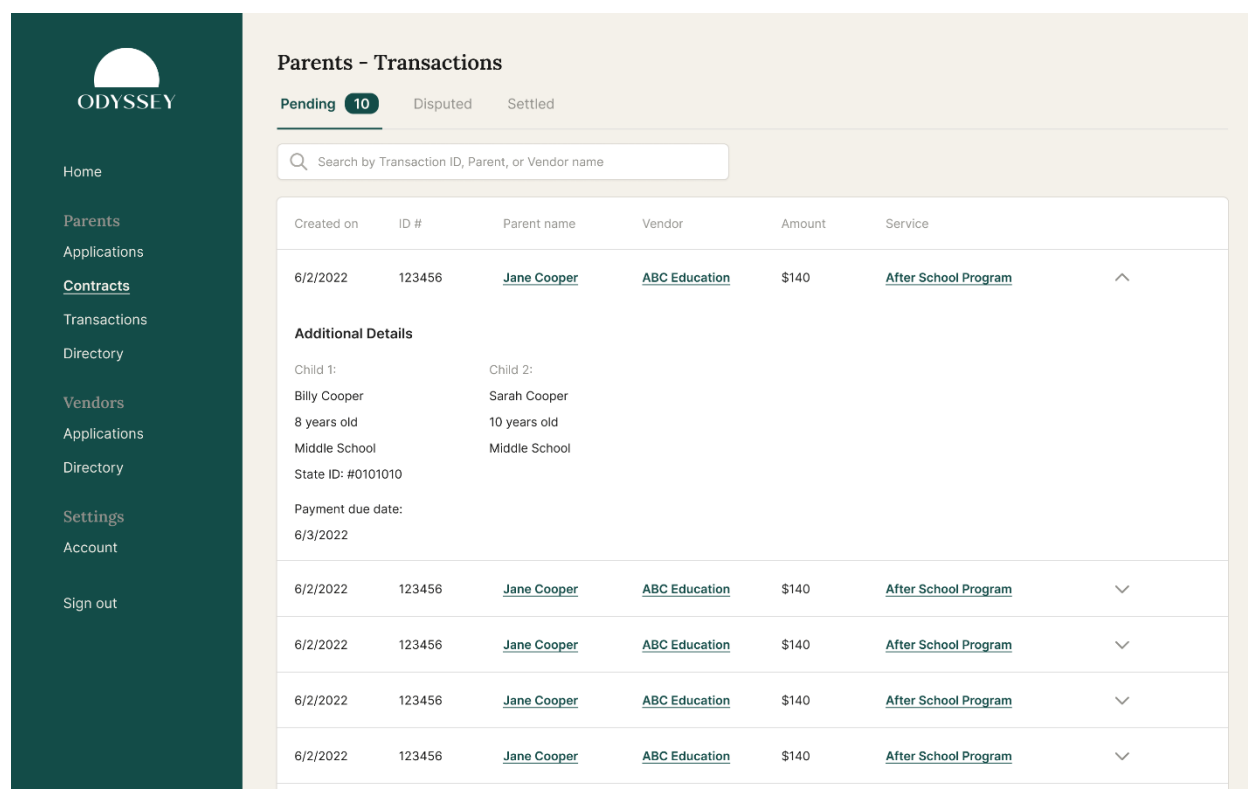

Families can read and sign program contracts directly within the system.

We are happy to modify the software to include Iowa’s requested statuses, including:

- ▶ Submitted.
- ▶ Does Not File.
- ▶ Documents in Process.
- ▶ Verified.

4.3.3.8 Allow a Client administrator to view application data, including reporting fields related to eligibility criteria.

Yes, Odyssey’s platform currently allows state administrators to view application data, including reporting fields related to eligibility criteria. Odyssey’s platform will allow Iowa to receive direct real-time access to application data, including reporting fields related to eligibility criteria. All this information is accessible through an easy-to-use administrative portal, and Odyssey’s staff is always happy to answer any questions that may arise during the process.

The screenshot shows the 'Parents - Transactions' page in the Odyssey portal. The page has a dark green sidebar with navigation links: Home, Parents, Applications, Contracts, Transactions, Directory, Vendors, Applications, Directory, Settings, Account, and Sign out. The main content area is titled 'Parents - Transactions' and has tabs for 'Pending' (10), 'Disputed', and 'Settled'. A search bar is present with the placeholder text 'Search by Transaction ID, Parent, or Vendor name'. Below the search bar is a table of transactions with columns: Created on, ID #, Parent name, Vendor, Amount, and Service. The first transaction is expanded to show 'Additional Details' for Child 1 (Billy Cooper, 8 years old, Middle School) and Child 2 (Sarah Cooper, 10 years old, Middle School). The payment due date is 6/3/2022. Below the expanded view, there are four more rows of transactions, each with a dropdown arrow.

Created on	ID #	Parent name	Vendor	Amount	Service
6/2/2022	123456	Jane Cooper	ABC Education	\$140	After School Program
Additional Details					
Child 1:		Child 2:			
Billy Cooper		Sarah Cooper			
8 years old		10 years old			
Middle School		Middle School			
State ID: #0101010					
Payment due date:					
6/3/2022					
6/2/2022	123456	Jane Cooper	ABC Education	\$140	After School Program
6/2/2022	123456	Jane Cooper	ABC Education	\$140	After School Program
6/2/2022	123456	Jane Cooper	ABC Education	\$140	After School Program
6/2/2022	123456	Jane Cooper	ABC Education	\$140	After School Program

Through the admin portal, administrators can view all available reports, including household information and program transactions.

Further, Odyssey allows state administrators to generate and export historical reports at the click of a button. This feature is useful for requests the Department may receive from the Governor, state legislators, other state agencies, nonprofits, or the media.

4.3.3.9 Generate an acceptance or denial e-mail to Applicants.

Yes, the Odyssey platform allows state administrators to draft and send acceptance or denial emails to all applicants. Additionally, Odyssey is happy to take on this task as we have performed it in Idaho for the Empowering Parents program. In that capacity, we

would generate emails for the Department to review, and then setup automatic emails to go out to Applicants based on whether they were accepted or denied.

4.3.3.10 Bundle siblings into the same Applicant user account.

Yes, the Odyssey platform currently allows applicants to bundle siblings into the same applicant user account. This feature is not the industry standard, and some states, like Arizona, require an Applicant to log into and out of each account. Once again, we have designed our platform to provide an easy customer experience for families, so we have included this feature in our platform.

4.3.3.11 Provide a two-week document processing turn-around once all required documentation is received from applicant(s).

Yes, Odyssey can meet the minimum two-week document processing turnaround. However, we promise to turn documents around within 5 days of receiving them. Once again, we are committed to being responsive to parents and to the state's needs.

4.3.3.12 Provide Client access to perform student level eligible school verification and existing ESA program participation status.

Yes, Odyssey allows states access to the entire platform, including eligible school verification and existing ESA program participation status. As explained above, state administrators will have access to real-time data on these metrics and be able to generate exportable reports.

4.4 Implementation

Upon award of a Contract for services the Agency shall negotiate an implementation schedule with the successful Respondent.

Odyssey shall negotiate an implementation schedule with the State of Iowa upon award of a contract.

Exhibit 10 - Proposed Software Platform Details

Describe the proposed software platform to include, but not limited to, the following:

- The information that is required for applications.
- Process for validating participant eligibility.
- The timeline for processing applications.
- Process for transactions that occur between the State and the nonpublic school accepting resident pupils.
- Process for non-tuition transactions that occur between the State and other parties receiving funds such as tutors, material providers, etc. If applicable, type of online marketplace of approved items for participants in the program.
- Capabilities surrounding the integration with government information systems in order to validate program eligibility.
- Procedures for prevention of funds from being spent on items not included in the Qualified Educational Expenses (such as transportation costs for the pupil, the cost of food or refreshments consumed by the pupil, the cost of clothing for the pupil, or the cost of disposable materials).

Odyssey's platform is a one-stop shop for managing the Education Savings Accounts program. Odyssey will provide all the functionality that Iowa needs directly within the administrative portal, where either the State of Iowa team, or the Odyssey team under Iowa's supervision, can review and process applications, substantiate family and vendor eligibility, send out approvals and denials, fund awards, review uploaded documents, approve payments, fund transfers, and generate reports. Odyssey will customize these features for the State of Iowa Educational Savings Accounts program.

Our fully integrated system allows families to submit their applications and receive approval within minutes. We have worked successfully with state agencies to automatically verify income and residency once an application is submitted, and we anticipate establishing a similar process with appropriate Iowa agencies. This allows us to create a straightforward and quick method for families that reduces time-consuming and bureaucratic delays and helps streamline operations while ensuring accuracy.

As the Educational Savings Account program processor, Odyssey's platform will:

- ▶ Enable online application submission and processing.
- ▶ Quickly and efficiently determine Iowa families' eligibility, approve applications, and award funding.
- ▶ Support documentation upload and transmittal to:
 - Substantiate a user's eligibility.
 - Display outstanding invoices from qualifying education service providers.
- ▶ Facilitate secure payment and fund transfers.
- ▶ Provide comprehensive reporting capabilities for State of Iowa administrators.

Odyssey's internal vendor marketplace provides families with a diverse selection of products and services. We bring a portfolio of established national partners and have

already begun recruiting and finding Iowa small businesses that can provide services and goods to Iowa families.

Vendors must go through a rigorous application and approval process before they are eligible for the marketplace. This process helps us ensure that families will only use state-provided funds on acceptable and qualifying purchases.

To date, Odyssey's team has identified 1,000 Iowa-based small businesses throughout the state that are eligible and ready to participate in the program. These Iowa companies are based statewide in urban, suburban, and rural areas and will allow families to access high-quality local options. These businesses are included as part of this proposal in [Appendix A](#). Odyssey will also bring existing prominent vendors from other states to the Iowa marketplace. We have partnered with a national tutoring provider, Varsity Tutors, to create a program specifically for Iowa that can be turned on immediately by the State of Iowa. This would allow Iowa families to access thousands of tutors statewide, including more than 10,000 tutors with special qualifications in special education, ESL/ELL, Dyslexia, ADHD, Autism, and Gifted Programs. We created this partnership in response to conversations we have had with Iowa families.

Odyssey categorizes every qualifying education service as part of the approval process for each vendor. For the Educational Savings Accounts program in Iowa, we will organize all qualifying educational expenses as defined in HF 68. We are happy to work with the Department of Education on any modifications to the list below.

- ▶ Tuition and fees at a nonpublic school.
- ▶ Textbooks.
- ▶ Educational therapies: Tutoring or cognitive skills training and possibly other therapies, including occupational, behavioral, physical, specialized reading services, speech-language, and audiology.
- ▶ Tutors: remote, hybrid, and in-person; one-on-one, small group, and large group.
- ▶ Curriculum fees, software, and materials for a course of study.
- ▶ Tuition or fees for nonpublic online education programs.
- ▶ Tuition for vocational and life skills education approved by the Department of Education.
- ▶ Education materials and services for pupils with disabilities from an accredited provider.
- ▶ Standard test fees and advanced placement examinations or examinations related to postsecondary education admission or credentialing.

We are happy to collaborate with the State of Iowa on expanding the marketplace to include additional eligible expenses.

Exhibit 11 – Technology

Describe the technologies used to fulfill the proposed services to include, but not limited to, the following:

- What is your organization’s approach to transactional security?

Our organization’s approach to transactional security includes filtering logs and messages and using HTTPS and secure encryption of all credentials, both in our code and on the platform for our users. This approach is in line with industry-standard security practices, such as PCI-DSS (Payment Card Industry Data Security Standard), which applies to transactions involving credit and debit card information. We also follow OWASP (Open Web Application Security Project) guidelines and best practices for web application security.

We also have additional security via our web services partners like Sentry and New Relic, giving us further insight into potential bad actors and DDOS (distributed denial of service) attacks.

- Please identify security standards your systems comply with.

All user-focused data access is done via industry-standard browser-based Secure Sockets Layer security. Our SSL certificates are automatically rotated on a regular basis and provided by Let’s Encrypt.

User passwords are encrypted using bcrypt in a non-reversible, one-way fashion. Password resets use an expiring token, and once set, a password is never available in plain text.

Backend system access is available on a “minimal-access-needed” and “as-needed” basis and regularly audited. Access tokens and passwords are stored in a secure, third-party encrypted password store (LastPass).

Additionally, we adhere to the following security standards.

NIST (National Institute of Standards and Technology) SP 800-61: This guideline provides a comprehensive framework for incident response procedures, including the identification, containment, eradication, and recovery of compromised systems and networks.

- ▶ ISO 27035: This standard provides guidelines for incident management, including the reporting, assessment, and handling of security incidents.
- ▶ PCI-DSS: The Payment Card Industry Data Security Standard (PCI-DSS) also provides specific requirements for incident response procedures, including developing incident response plans and reporting security breaches to relevant authorities.

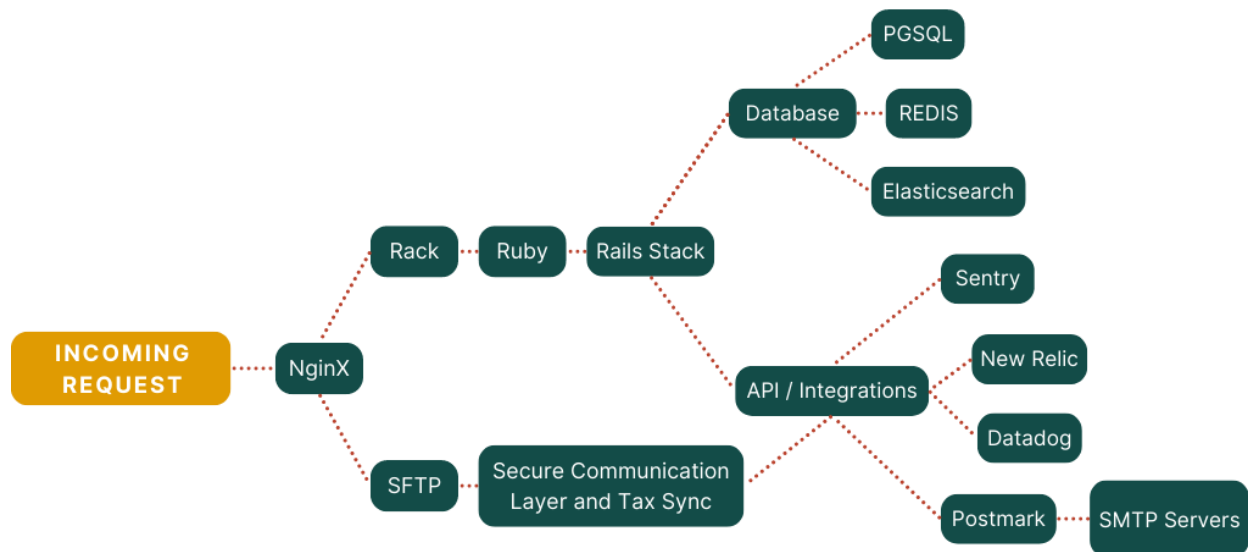

- Explain your system architecture and provide an architecture diagram.

Incoming requests are routed to our NginX server. This routes requests to either rack or secure file transfer protocol (SFTP) for web or state-level communications. Our SFTP server is secure and uses private/public key handshakes to communicate between our system and the state system(s). This is used for tax verification, child and school enrollment status, and more. Once a web request is sent to our r middleware rack, it is

processed and elevated to ruby and the rails stack, which handles our web app, homepage, and loads balancer delegation.

Our web server is Puma, running rack and ruby as backing technologies, and our rails application runs with PostgreSQL, Redis, and Elasticsearch as our data storage technologies. All our databases are updated on a rolling monthly basis. We also use Greenkeeper and similar technologies to ensure our stacks have no known security issues and keep them as up to date as possible.

Our system uses several external APIs and products for monitoring, tracking, and communications. Our system uses Sentry to track exceptions and code errors and New Relic to track infrastructure and server health. Our Datadog integration tracks logs, events, and other RPC tracking. Postmark manages our email, and we make daily changes to allow emails and domains to prevent spam, bounces, and hard bounces.

GitHub hosts our codebase, and our application is heavily tested using the unit and integration tests. We use an MVVC setup with multiple layers of data models, services, and query objects. Our mission-critical systems are not exposed online (databases, etc.) and require access through the servers' local network to help segment systems from the WAN.

- What is your security design and architectural features incorporated into the proposed services?

Odyssey uses industry-standard security practices, including reliance on vetted third-party services' security.

System-Level

Source code is maintained at GitHub, a Microsoft-owned, industry-standard source code repository. Access to this source code is on a small-as-required basis, focused on those actively working on development. Accounts accessing GitHub must have two-factor authentication (2FA) turned on.

Heroku, a Salesforce-owned, industry-standard PAAS, manages the system's production execution. The PAAS runs on AWS servers, which have different security levels. Access

to their system is on a small-as-required basis, focused on those actively managing and maintaining the integrity of the production system.

Heroku also manages data access. An encrypted, non-public-facing, internal communication pipeline manages communication between the production-running code and production data.

Communication with third-party services is encrypted using industry-standard, protocol-appropriate technologies (HTTPS, SSL, SFTP). Keys are in ED25519 format.

All user data is stored in any encrypted-at-rest fashion using industry-standard encryption.

Access Keys and Passwords

All passwords are stored in a third-party, industry-standard password encryption and access system. These are shared on an only-as-needed per-password basis.

All access keys are stored on production servers in an encrypted fashion.

End-User Access

Users access the Odyssey system with a combination of email addresses and passwords. This password is stored using a one-way salted-hash encryption method.

Odyssey uses two-factor authentication to access any part of the system. This requires two separate, distinct forms of identification and ensures that data is protected.

- Explain your process for ESA document storage.

Odyssey is committed to personal data and documents security. We adhere to industry standards including ISO 27001, and HIPAA. These standards provide guidelines for the secure storage and protection of customer data. We store documents in an encrypted format, and access to the records is restricted to authorized personnel only and logged for auditing purposes. Regular backups of the ESA documents are also created and stored in a secure location to ensure data availability in case of a disaster or security breach.

We currently use S3, an industry-standard file upload host that stores the files in private buckets we can access when needed. SSL, keys, and hashes are all used to obfuscate the process.

- What are your procedures for ensuring compliance with industry standards for data security?

The Odyssey program is a living program that undergoes rigorous testing and updating on a regular basis. Though we have already designed and built the ESA and microgrant program, our engineers work daily to keep the program up-to-date and running as smoothly as possible. By updating the program continuously, our engineers have intimate insight into changes made, potential security threats, and new developments in industry security standards.

- Describe the security audits and penetration analysis performed, by whom, and the frequency at which it is performed.

Odyssey performs regular internal security audits with every software release and integration. The software release workflow is controlled through a code review, which includes a focus on security, deployment to a staging environment, then a managed

production deployment. This ensures that no code is entered into the system without at least one other member of the team reviewing it along several axis, including security. Further, software engineers perform continuous system monitoring, averaging daily audits and analysis. Additionally, Odyssey performs security testing on a regularly scheduled basis with an external company.

- Provide evidence of certification or registration according to national quality or security standards. Describe your adherence to standardized quality principles, such as through registration as ISO 9001 (general quality) and/or ISO/IEC 27001 (information security). Both are strongly preferred. If you do not follow a standardized quality principle, provide your documented processes and evidence that you monitor adherence to those processes.

Odyssey adheres to NIST (National Institute of Standards and Technology) SP 800-61: This guideline provides a comprehensive framework for incident response procedures, including the identification, containment, eradication, and recovery of compromised systems and networks.

ISO 27035: This standard provides guidelines for incident management, including the reporting, assessment, and handling of security incidents.

- Describe in detail the controls placed on data and access to data. Include requirements for location, access rights, maintenance and enforcement of access rights, encryption, incident response and backup capabilities, and logging and forensics capabilities.

The industry standards that we adhere to for security design and architectural features include:

Access Controls:	We shall maintain strict access controls to ensure that only authorized personnel can access sensitive information, such as ESA documents. This can include multi-factor authentication and role-based access controls.
Data Encryption:	We shall encrypt all sensitive information stored within the program to protect against unauthorized access.
Network Security:	Our infrastructure shall protect against unauthorized access and network-based attacks. This can include firewalls, intrusion detection and prevention systems, and virtual private networks (VPNs).
Application Security:	We shall maintain application security with features such as input validation, authentication, and access controls built into the application. The services should also be regularly tested for vulnerabilities.
Compliance:	We shall comply with relevant regulations and standards such as ISO 27001, HIPAA, and PCI-DSS.
Incident Response:	We shall have incident response procedures in place in case of a security breach and be able to respond quickly and effectively to minimize the impact.

Auditing & Monitoring:

We shall have auditing and monitoring capabilities to detect and respond to security incidents and ensure compliance with security policies and standards. We offload most of this responsibility to third-party services at the moment, which is a standard for the industry.

- For user- and client-specific software and applications, confirm on which types of systems and/or browsers the product will have full functionality.

Odyssey is compatible with the current and two previous versions of widely used device platforms and software, including personal computers and mobile devices. Specifically, Odyssey is compatible with Chrome, Firefox Safari, and Edge and provides equal access to all eligible grant participants across the state.

Category	Standard
Hardware Standards	
Desktop / Laptop / Workstation	✓ PC And Mac Computers
Tablets	✓ iPad and Android via Web Browser
Software Standards	
Workstation Operating Systems	✓ Windows 10 and 11
	✓ OS X Monterey and higher
	✓ Linux Kernel 5.X and higher
Web Browsers	✓ Edge
	✓ Google Chrome
	✓ Firefox
	✓ Safari
Development Standards	✓ Ruby on Rails web framework
	✓ PostgreSQL database server
	✓ Redis for caching and data structure store
	✓ Sidekiq for background jobs
User Interface	✓ Hotwire (Ruby on Rails front-end / HTML)
	✓ HTML
	✓ CSS
	✓ Javascript
Archival Procedures	✓ Weekly full backups, physically redundant location for data recovery.
	✓ Daily incremental backups to facilitate data restoration in the event of catastrophic hardware failure.
	✓ Planned outages in off-peak hours whenever reasonably possible.

- Describe the safeguards utilized to ensure confidentiality, integrity, and availability of data.

Data is stored in a secure, third-party-hosted (Salesforce-backed service, Heroku, using Amazon database services) system. All data is encrypted at rest. Direct access is only provided on an as-needed basis to a guarded group.

Odyssey has regular, automated database backups with rollback capabilities on a rolling 4-day window, allowing for easy availability and recovery in the case of an incident. Longer-term backups and snapshots are created and stored regularly.

- Describe your processes and procedures for addressing security incidents and data breaches.
 - ▶ **Incident response teams:** Odyssey has trained incident response teams who handle security breaches. These teams are responsible for identifying and mitigating the impact of security breaches and include a combination of IT staff, security personnel, and management.
 - ▶ **Communication plan:** Odyssey has a communication plan to notify the necessary parties, such as employees, customers, and regulatory agencies, of breaches.

We exclusively use ISO 27035, as most organizations strictly follow one program. Though with our incident response procedures, we also cover a percentage of the other programs due to similar processes.

- Describe the contractual remedies you offer in the event of a security incident or data breaches.

Odyssey is committed to data security and takes appropriate steps to safeguard all sensitive information. In the event of a security incident or data breach, Odyssey promises to take prompt corrective action to cure any deficiency and any action required by applicable federal and state laws and regulations.

- Describe business practices in place to ensure administrative, technical, and organizational security measures to safeguard against unauthorized access, disclosure, or theft of Data. Such security measures shall be in accordance with recognized industry practice.

We rely on both internal processes and the processes for the third-party external services we use. By ensuring that we use industry-standard third-party services (Salesforce hosting on Heroku, AWS services by Amazon), we benefit from their efforts on data protection.

Internally, we rely on an “as-needed” access policy for production data, regularly auditing access and controls. We use an industry-standard password management system (LastPass) with randomly generated secure passwords. Access to these passwords is segregated by business area with a “minimal access necessary” approach.

- Describe your financial protection frameworks such as Payment Card Industry Data Security Standard or NACHA.

Information resources, including non-public personal information, financial information of a natural person, and payment account numbers, are protected both through internal and external access control systems with internal controls including tokenization, passwords, encryption, access control lists, and constrained user interfaces and external controls including port protection devices, firewalls, and host-based authentication.

- Describe your organization's personnel background check policy.

Odyssey runs the most comprehensive background checks in the industry on all individuals as part of our recruitment and hiring process. We believe that it is essential

that employees with access to sensitive information have been fully vetted, and more importantly it reduces the risk to our state clients.

These background checks include:

- ▶ Identity verification.
- ▶ Education verification.
- ▶ Employment verification.
- ▶ Criminal background checks.
- ▶ Credit background checks.
- ▶ Fingerprint background checks.
- ▶ E-Verify background checks.

If awarded the contract, Odyssey is happy to produce these background checks upon request.

Exhibit 12 - Approach to Accountability

Describe your organization's approach to accountability and prevention of fraud:

- Provide your methods of distributing funds

Odyssey currently supports thousands of transactions daily via secure payment methods. For all transactions, we use a combination of industry-standard third-party services for managing Financial Ledger activities (Modern Treasury) and Money Transfer activities (Stripe).

We typically utilize ACH payments for in marketplace transactions as they are often the fastest and most secure in our opinion. We also utilize an integrated marketplace that allows us to instantly process orders.

Odyssey is by far the fastest payments operator available in the sector today. On average our ACH payments are settled within 2-3 days, while our integrated marketplace transactions are settled within 24-48 hours.

Additionally, we offer the Department the ability to conduct reimbursement transactions and debit card payments if needed.

- Provide the frequency of funds distribution

Odyssey is capable of distributing funds at any frequency that the State of Iowa prefers.

Exhibit 13 – Reporting

Describe available reporting that demonstrates status of the ESA program. To include but not limited to:

- Standard Reports, for example monthly account balances by pupil.

Odyssey allows state administrators to access real time data and historical data. Our historical data is constantly available and able to be generated at the click of a button. We are including our current report information that the State of Idaho has found useful for their Empowering Parents program. Odyssey is happy to work with the Iowa Department of Education on customizing our standard reports.

Available Report	Filtered by Day / Month / Year to Include:
Application Report	<ul style="list-style-type: none"> ▶ Tax Status (verified, not verified). ▶ Parent status (approved, denied, needs more information). ▶ Child verification (verified, not verified). ▶ Zip code. ▶ School district. ▶ School type.
Award Statistics	<ul style="list-style-type: none"> ▶ Total funds distributed. ▶ Award contracts (awaiting signature, signed). ▶ Award amount per parent.
Transaction Statistics	<ul style="list-style-type: none"> ▶ Amount spent by parent. ▶ Amount spent with vendor. ▶ Amount spent by spend category (Technology, Instructional Materials, Therapies, etc.).
Support Statistics	<ul style="list-style-type: none"> ▶ Contacts by channel (phone, chat, email). ▶ Response and resolution times (HH:MM). ▶ Service level agreements by channel (phone, chat, email) (%). ▶ Customer satisfaction (CSAT).

- Ad Hoc reports.

Available Report	Filtered by Day / Month / Year to Include:
Application Information	<ul style="list-style-type: none">▶ Outliers, e.g. students claimed by multiple parents (#)▶ Denied reasons (#) (not tax verified, etc.)▶ Time between application submission and [approval, funding, award] (DD:HH)
Award Information	<ul style="list-style-type: none">▶ Amount remaining in family's wallet.
Support Metrics	<ul style="list-style-type: none">▶ Contacts by reason.

Exhibit 14 - Customer Service

- Provide ongoing customer support plan for nonpublic schools and pupils' families.

At Odyssey, our platform is designed and built with the family's experience in my mind. We work diligently to ensure that our platform is easy to use and that families can easily access the benefits to which they are entitled.

While we have intentionally designed our platform to be entirely self-service, we recognize that some family users will require support. We have invested significantly in a robust customer support service to meet those needs.

Our customer support team consists of US-based handpicked individuals trained by Bri Rios, Odyssey's Head of Customer Support and Success. Our customer support team includes parents from other states who have participated in similar programs, and we use the training provided by such parents to understand families' needs better.

As a testament to the strength of our support team, Odyssey recently implemented a \$50 million microgrant program in the state of Idaho and maintained a 95% customer satisfaction rate throughout the process while providing responses across phone, chat and email 14 hours a day, 6 days a week. Although we were not contracted to do it, we also monitor social media and respond to requests there.

If selected by Iowa, the Odyssey customer support team will support all incoming customer questions and support needs. Our goal is to reduce the administrative burden on the Iowa Department of Education as much as possible. These agents will be available via telephone to families Mondays – Fridays from 6 am – 12 am. C.S.T., and Saturdays and Sundays from 8 am – 6 pm C.S.T. Based on a discussion with Iowa, if additional hours are necessary, Odyssey will plan to extend customer service by phone.

In addition to our extensive phone coverage, families needing customer support can contact Odyssey through chat and email. We will also provide support via email and our online chat feature 24 hours a day, seven days a week. All customer support options will be communicated to family users at the beginning of the application process and will remain open so long as the program is in effect.

Odyssey's customer service training focuses on empathy, rapid solutions, and a tight feedback loop to create immediate solutions. This results in an excellent customer service experience.

- Describe customer question response times.

Odyssey is committed to helping parents navigate the ESA program. We have the only US-based customer service team in the industry. Based on our data collected from the microgrant program in Idaho, the current median time for full ticket resolution is 25 minutes.

- Describe Respondent's communication plan.

Odyssey provides customer support via email, chat, and phone through Zendesk, an industry leader in Help Desk software. Zendesk is custom-built for each state Odyssey works with, which allows the team to be agile when meeting urgent needs of the clients. A final reason Zendesk was selected is because their servers are United States based,

meaning all data stored in our Zendesk account is secure and meets state and federal privacy statutes.

The Odyssey Support team leads with empathy, which the Service Level Agreements (SLAs) reflect. Odyssey Support emphasizes not only resolving the parent's issue, but going above and beyond to ensure the parent has a pleasant experience when communicating with Support agents.

Lastly, the Odyssey Support team leadership works closely with their Engineering and Operations team counterparts to ensure that we proactively communicate with parents. Automated email, SMS text, and robocall reminders are utilized to ensure parents submit the necessary information by the indicated deadline with ample notice.

- Provide the location/office that will serve as the primary consultant office for the State.

Odyssey is committed to the successful launch of the Iowa ESA program. If selected, Odyssey plans on opening an office in Des Moines, IA. While we are waiting to finalize office space, we have secured temporary accommodations at 1007 E Grand Ave, Des Moines, IA 50319.

- How many client contracts does this account team manage?

At Odyssey, each customer service team is autonomous and state specific. In Iowa, we would create a team of existing customer support representatives dedicated solely to the Iowa implementation and success of the ESA. The team currently supports 3 other programs.

- Describe the process Respondent employs when a client is dissatisfied with the service it has been provided.

Odyssey is committed to providing an excellent experience for every user interacting with our software. If a client is dissatisfied with the service they have been provided, we escalate the issue to our highly trained Customer Support supervisors. If there is an associated technical or operational issue, we work cross-functionally to ensure that the client's issue is resolved. Escalated issues are raised in our daily meetings and report with the state to ensure that everyone is well-informed. Additionally, all escalated requests are maintained in a log that we produce monthly to the state. Finally, every user of our customer service receives a survey that they can weigh in with feedback and a rating for this experience. This Customer Satisfaction Metric, which is 95% for us in Idaho, is a daily metric we provide to the state to give them a sense of the level of customer satisfaction we are seeing. As we have said before, we are obsessed at Odyssey with ensuring that parents, vendors, and the state have an excellent experience. We are always willing to work with our state partners to improve our additional features for users.

Exhibit 15 – Training

Describe the available training (content, format, duration, frequency) as it relates to the following parties:

- Iowa Department of Education
- Nonpublic schools
- Families of pupils

Odyssey is happy to collaborate with the state to implement a customized training curriculum for the Iowa Department of Education, nonpublic schools, and pupils' families.

Iowa Department of Education

Duration and Frequency: Odyssey will provide one training session per week over a four-week period for the Department. The training will last two hours each.

Content: The training will include an overview of the following topics:

- ▶ Features for the administrator portal.
- ▶ User journey for parents and parent features.
- ▶ User journey for vendors and vendor features.
- ▶ Best practices for fraud prevention.
- ▶ Best practices for record keeping and retention.

Format: Odyssey is happy to provide these trainings over Zoom or in person.

Nonpublic Schools

Duration and Frequency: Odyssey will provide two training sessions per week over an eight-week period for nonpublic schools. Each training session will last one hour each.

Content: The training will include an overview of the following topics and be followed by a Q&A:

- ▶ Features for the vendor portal.
- ▶ User journey for parents and parent features, including applications.
- ▶ Best practices for fraud prevention.
- ▶ Best practices for record keeping and retention.

Format: Odyssey will provide these trainings over Zoom to make them as accessible as possible.

Families of Pupils

Duration and Frequency: Odyssey will provide two training sessions per week over an eight-week period for families of pupils. Each training session will last one hour. Additionally, we will create 5 training videos for our family users. Each video will be released publicly and will be approximately 4 minutes in length.

Content: The training will include an overview of the following topics and be followed by a Q&A:

- ▶ Features for the parent portal.
- ▶ User journey for parents and parent features, including applications.
- ▶ Best practices for using your funds.

Format: Odyssey will provide these trainings over Zoom to make them as accessible as possible, and the videos will be hosted publicly and on YouTube.

Exhibit 16 - Implementation Plan

Describe recommended implementation strategy including on-site coordination and support services, best practice consulting options and professional services.

At Odyssey, we are committed to ensuring that Iowa’s ESA program is a success. To that end, if selected, we will assign a full time Implementation Manager to the program. This Implementation Manager will meet daily with the principal assigned at the Iowa Department of Education to oversee the program. This Implementation Manager will also be available at all hours for any questions from the team. For the first three months of the program, we will conduct twice weekly meetings with the appropriate government stakeholders to review progress, update on future work, and answer any questions. Additionally, we will provide daily, weekly and monthly reporters to all government stakeholders. This strategy, as executed by Odyssey in Idaho, has been successful in making sure the program runs smoothly.

- Identify any third-party Respondents involved in Respondent’s implementation strategy and describe these relationships.

Odyssey has no third-party respondents involved in our implementation strategy.

- Identify the skills and time required by State of Iowa personnel for initial installation and implementation of the proposed services.

We are happy to work with the State of Iowa personnel on the installation and implementation for the program. We anticipate working primarily with the technical team at the Iowa Department of Education for the installation and working with the ESA team at the Iowa Department of Education during the implementation phase. As provided below, we anticipate approximately 100 hours of staff time.

- Provide an estimate of State of Iowa staff time required to complete the installation.

We estimate that we will require approximately 100 hours of staff time to complete the installation.

- Please provide an implementation schedule, based on weekly milestones (not dates).

Week	Milestones	Iowa Responsibilities	Odyssey Responsibilities
	Contracting Process and Kickoff Meeting	✓ Major stakeholders attend the kickoff meeting.	<ul style="list-style-type: none"> ✓ Schedule and lead kickoff meeting ✓ Confirm timelines and agreed-upon requirements for the ESA program.
	Marketing and Outreach	N/A	<ul style="list-style-type: none"> ✓ Implement marketing and outreach programs for families and vendors.
	Verification	<ul style="list-style-type: none"> ✓ Verify Enrollment Forms ✓ Verify Acceptance Criteria. 	<ul style="list-style-type: none"> ✓ Guide Iowa through Enrollment and Acceptance criteria.

Training and Staff Access	<ul style="list-style-type: none"> ✓ Identify employees needing administrative access. ✓ Attend training. 	<ul style="list-style-type: none"> ✓ Import admins into the system with appropriate access. ✓ Train admins on the features and capabilities of the Odyssey program.
User / Help Guides and Troubleshooting Materials	<ul style="list-style-type: none"> ✓ Work with Odyssey to create Iowa-specific help desk guidelines. 	<ul style="list-style-type: none"> ✓ Create Iowa help desk documents.
Admin / Vendor/ Family Portal Delivery and Beta Testing	<ul style="list-style-type: none"> ✓ Test Iowa Family Portal ✓ Provide feedback 	<ul style="list-style-type: none"> ✓ Continual development and testing ✓ Respond to Iowa feedback.
Final Admin / Vendor / Family Portal Delivery	<ul style="list-style-type: none"> ✓ Final signoff on User Acceptance Testing. 	<ul style="list-style-type: none"> ✓ Launch Odyssey site.
Admin Portal Open For State Administrators	N/A	N/A
Vendor Enrollment Applications Open	N/A	<ul style="list-style-type: none"> ✓ Approval begins immediately. ✓ Odyssey imports pre-approved Iowa vendor list.
Family Enrollment Applications Open	N/A	<ul style="list-style-type: none"> ✓ Odyssey begins processing approvals.
Marketplace Opens	N/A	<ul style="list-style-type: none"> ✓ Odyssey launches marketplace. ✓ Families and vendors can access it.
First Families Funded	<ul style="list-style-type: none"> ✓ Sign off on family approval. 	<ul style="list-style-type: none"> ✓ Review families for eligibility and approval.
Full Launch of Odyssey Platform	N/A	N/A
System Monitoring, Usability Testing, Feedback, and Additional Development (As Needed)	<ul style="list-style-type: none"> ✓ Monitor usage and collect qualitative and quantitative feedback from users. ✓ Share issues and feedback to improve the platform. 	<ul style="list-style-type: none"> ✓ Continually monitor usage. ✓ Design and develop enhancements to improve the experience.

Exhibit 17 - Optional Services

Provide detailed information for any optional services that may be available (Include costs for these items in the Cost Proposal)

Marketing and Outreach

Odyssey, as part of our services, plans to conduct marketing and outreach to increase awareness of the ESA program. The Odyssey community outreach team will focus on low-income families and underserved communities across Iowa.

Social Media

Odyssey will promote the ESA program with social media postings on Instagram, Facebook, Twitter, and LinkedIn. Odyssey will also use existing parent and guardian Facebook groups geographically based in Iowa.

TV and Radio

Odyssey will promote the ESA program by targeted radio and television appearances on news programs. We have identified several local radio stations and television studios willing to allow us to appear on news segments to discuss the program.

Podcast Episodes

Odyssey will generate podcast episodes on local vendors to increase awareness of local small businesses that parents can use.

Pop-Up Events

Odyssey will hold several pop-up events across the state. At these events, the ESA program would be promoted to parents in the surrounding geographic area, allowing them to attend and receive information. We will focus on holding these pop-up events at churches, county and regional fairs, rodeos, libraries, and cultural events. Odyssey will plan, promote, and execute the event, providing all printed materials. All of these marketing efforts will help ensure the program is well known by the time of its launch.

Iowa Networks

Odyssey plans to use existing Iowa groups to get the word out about the ESA program. To that end, Odyssey has met with American Federation for Children, the Iowa Catholic Conference, Inspired Life, and Hispanics Aligned for Choice in Education Reform. If selected, we would plan on working with them and other community groups.
