NOTICE REGARDING RFP MED-19-006, Takeover of Core Medicaid Management Information System Services

October 15, 2018

The Department makes every effort to provide bidders equal access to information related to a procurement. Recently, attorneys for litigants in a pending judicial review action related to the last Department MMIS RFP have sought information from the Department through the Open Records law, Iowa Code chapter 22. To ensure that all potential bidders have access to this same information, the Department is making the information provided to the litigants available to all bidders at the following SFTP site:

<https://ftp.dhs.state.ia.us>

As of this notice, the site contains an extensive volume of documents and email that was provided pursuant to prior requests, including communications between DHS and CMS regarding the MMIS RFP.

The volume of materials at issue in the Open Records requests is too large to place into the current Online Bidders Library for MED-19-006. Therefore, the Department will use the SFTP site for the transfer to the Open Records productions. The SFTP location will be updated over time with new request results as the procurement proceeds, and notices of new additions will be provided via a new Bid Opportunities posting. Each bidder may designate one person from your organization with authority to access and download the information available at the SFTP location. Please contact the Issuing Officer for access to the site.

The following documents have also been added to the Online Bidders Library:

- Redline comparison of RFP MED-18-004 to RFP MED-19-006
- All Advance Planning Documents regarding the MMIS, submitted to CMS during the period of January 1, 2017 through September 26, 2018
