

Addendum 01 for RFP951300-01

Project Name: HHS CHMHI Tuckpointing Phase 2.2
DAS RFP#: 9513.00
DAS Project #: 9513.00
Date: 11/19/25

Proposals Due: December 3rd, 2025, at 2:00 pm

Contents:

- Cover Page and Questions (1 page)
- Virtual Microsoft Teams meeting link added – See link below.

Questions:

- Would it be possible if I could just walk the exterior site only and get photos of the building? This would save travel time and would be much appreciated.
 - Anyone walking the perimeter of the CCUSO fence will want to check in with Jason Pigott 712-229-1505 or Master Control first as it is a secure facility and people get nervous of strangers that are close to the fence. Secondly, no patients can be taken in any photos regardless of where they are for HIPAA compliance. It would be best to schedule a time ahead of time to avoid creating any issues.

Link below for Microsoft Teams Virtual Pre-Proposal Meeting for those who can't make it in person.
