

June 5, 2025

To: All Potential Respondents
From: Michael Bradbury – Statewide Procurement Officer
Subject: 25CRDLWBMALDR-0001

Addendum One

Please amend the subject RFP to include the following:

Question and Answer

- Q) Historically, and prior to the 2016 project, had slope stability issues been identified by park staff? If so, could DNR describe when and what these have been?
- A) The pavement had longitudinal cracking that was attributed to erosion problems on the steep embankment on the east side of the roadway. The whitetopping project (site 3) concept by the DOT is attached.
- Q) Could DNR provide the construction plans and any as-built documentation from the 2016 project? Are photos showing the road condition prior to the whitetopping available?
- A) The whitetopping plans are attached. As-Built are not available. The photos in the DOT concept mentioned above are the only ones that were found.

Attachments Included

Exhibit A – Historic Project Concept Statement

Exhibit B – Spring Brook Road P & | Project Plans
