If a Service Provider takes exception to a contract provision, then the Service Provider must state the specific exception and the reason for the exception, and must attach to its “Service Provider Cost Proposal” the specific contract language it proposes to include as an alternative to the provision. Contract provision exceptions that materially change the terms or the requirements of this informal bidding process may be deemed non-responsive by the DNR, as determined in its sole discretion, resulting in possible disqualification of the Service Provider’s quote. A Service Provider’s failure to state an exception to any contract provision and propose alternative language may be deemed by the DNR to constitute the Service Provider’s acceptance thereof. By submitting a response, a Service Provider agrees that it will not bring any claim or have any cause of action against DNR or the State of Iowa based on any misunderstanding concerning the information provided within this RFQ or concerning the DNR or the State of Iowa's failure, negligent or otherwise, to provide the Service Provider with pertinent information as intended by this RFQ.

If the apparent successful Service Provider fails to negotiate and deliver an executed contract within a reasonable period of time following selection, then the DNR may, in its sole discretion, cancel the award and award the contract to the next highest ranked Service Provider.

The DNR shall have the sole option to amend the contract resulting from this RFQ for subsequent periods, adding up to no more than six years total from the beginning date of the original contract, by executing a signed amendment prior to the expiration of the original contract.
