RFP Purpose.

The purpose of this Request for Proposal (RFP) is to solicit proposals from the vendor community that will enable the Iowa Department of Health and Human Services (Agency) to select the most qualified contractor to perform Revenue Collections and Estate Recovery functions for the Iowa Medicaid and Healthy and Well Kids in Iowa (Hawki) programs.

Iowa Medicaid is the second largest insurer in the State of Iowa serving over 700,000 Iowans. Medicaid is funded by a blend of limited state and federal taxpayer dollars and has a significant responsibility to ensure that those taxpayer dollars are spent in a responsible manner that maximizes positive health outcomes and efficiency while also continuing robust oversight fraud, waste, and abuse (FWA). As part of that responsibility, it is crucial that Medicaid monitors the service expenditures.

Duration of Contract.

The Agency anticipates executing a contract that will have an initial 3-year contract term with the ability to extend the contract for 3 additional 1-year terms. The Agency will have the sole discretion to extend the contract.

Procurement Timetable

There are no exceptions to any deadlines for the Bidder; however, the Agency reserves the right to change the dates. Times provided are in Central Time.

Section 1 Background

Legal Authority

Title XIX of the Social Security Act (the Act) authorizes federal grants to states for a proportion of expenditures for medical assistance under an approved Medicaid state plan, and for expenditures necessary for administration of the state plan. Under [section 1903\(a\)\(7\) of the Act](#), federal payment is available at a match of 50 percent for amounts expended by a state “as found necessary by the Secretary for the proper and efficient administration of the state plan,” per [42 C.F.R. § 433.15\(b\)\(7\)](#).

Section 1902(a)(25) of the Act establishes the third-party liability (TPL) requirements with which the state plan for medical assistance must comply. Regulations and procedures for implementing these regulations are further defined in [42 C.F.R. part 433 subpart D](#); [Chapter 3 Section 3900 of the State Medicaid Manual](#); and [Iowa State Plan section 4.22](#).

[Section 1912 of the Act](#) establishes requirements related to assignment of rights for payment. Regulations and procedures for implementing Estate Recovery regulations are further defined in [Iowa Code § 249A.5](#).

[Section 1917 of the Act](#) governs liens, adjustments and recoveries, and transfers of assets related to medical assistance paid or to be paid on the recipient’s behalf under the state plan. Regulations and procedures for implementing these regulations are further defined in [42 C.F.R. § 433.36](#), [Iowa Code § 249A.6](#), and [Iowa State Plan section 4.17](#) and Attachment 4.17-A.

Iowa Medicaid Overview

The Iowa Department of Health and Human Services (Agency) is the single State entity responsible for administering the Medicaid program in Iowa. The Iowa Medicaid Program reimburses providers for delivery of services to eligible Medicaid recipients under the authority of Title XIX of the Social Security Act through enrolled providers and health plans. The Agency operates this program through its business unit, the Iowa Medicaid. The Agency is also responsible for Iowa’s Children’s Health Insurance Program (CHIP) which includes Healthy and Well Kids in Iowa (Hawki).

On April 1, 2016, Iowa Medicaid transitioned to a managed care system, known as IA Health Link. As a result of this transition, the model for service delivery and reimbursement changed from a primarily Fee-For-Service (FFS) model to a risk based Managed Care Organization (MCO) model. The majority of services are included in this statewide managed care structure, including long-term services and supports (LTSS), behavioral health, and pharmacy.

Iowa Medicaid Coverage Groups and Corresponding Programs

There are three (3) Iowa Medicaid coverage groups and corresponding programs: IA health Link, Medicaid Fee-For-Service (FFS), and Hawki. Information regarding these programs is found at this link: <http://dhs.iowa.gov/sites/default/files/Comm020.pdf>. (Please note, the data presented in the link focuses on Medicaid FFS programs.)

Most of the Agency’s FFS population either falls into a premium payment coverage group or into a historically exempt population. Furthermore, the Agency will not recognize a three-month retroactive eligibility period except for the following populations:

- Effective November 1, 2017, pregnant women (and during the 60-day postpartum period) and infants under one year of age.
- Effective July 1, 2018, residents of nursing facilities licensed under Iowa Code Chapter 135C.
- Effective January 1, 2020, children under 19 years of age.

The Agency operates in an MCO passive enrollment process. Passive enrollment means the State assigns and enrolls Members into a managed care plan without offering an “up front” plan selection period. This is often referred to as an “auto-assignment process”. Once assigned, the Member will have opportunities to change plans.

Beginning July 1, 2017, the Agency combined dental benefits for all adult enrollees into a Dental Wellness program, delivered via prepaid ambulatory health plans (PAHPs). In addition, the Agency provides children dental coverage through various packages. Iowa Medicaid kids receive comprehensive dental coverage on an FFS basis and Hawki children receive dental coverage through a PAHP. Hawki also has a dental-only program for children with third-party liability (TPL).

The Agency developed and published a dashboard that displays Iowa Medicaid applicant and Member statistics. This dashboard has different configuration abilities that allow the user to see various applicant and Member trends beginning State Fiscal year 2017. Vendors that wish to see additional statistical information regarding the Iowa Medicaid applicant or Member population are encouraged to visit this dashboard located at https://hhs.iowa.gov/dashboard_welcome.

Current Agency Environment

Iowa Medicaid is a collaboration of third-party professional and system services contractors and Agency staff. The Agency’s Medicaid staff consists of 96 employees. Agency staff provide program and policy guidance, oversight, and contract monitoring to ensure access, cost effectiveness, and quality. To support the Iowa Medicaid structure, the Agency’s contractors execute the majority of the Medicaid program business functions under a performance-based structure.

Iowa Medicaid currently has Core MMIS, Pharmacy Point of Sale (POS), and Program integrity (SURS) vendors who provide what CMS would consider a system of or subsystem of Iowa Medicaid. At the core of Iowa Medicaid is MMIS, a mainframe application hosted within the State’s data center, used primarily for batch processing claims and processing various file updates. Iowa Medicaid’s MMIS is built around subsystems that organize and control the data files used to process claims and provide reports. The MMIS contains standard subsystems such as: Recipient, Provider, Claims, Reference, Management and Administrative Reporting (MAR), Managed Care and Third-Party Liability (TPL), as well as supporting Medically Needy and Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) subsystems. The Core MMIS contractor provides, per contractual requirements, an Electronic Data Interchange (EDI) system and support services, and imaging/scanning solutions.

Additionally, the Agency leverages systems and applications to provide automated access to and/or support for information within the MMIS and Agency business processes. These systems are internally developed and hosted within the State’s data center by the State of Iowa’s Division of Information Technology (DoIT). They include:

- Data Warehouse/Decision Support (DW/DS) system provides data analysis and decision - making capabilities and access to information, including online access to flexible, user-friendly reporting, analysis, and modeling functions. Agency staff and contractors use the DW/DS system while DoIT provides technical support and assistance in developing queries and reports to fulfill the analytical needs for Iowa Medicaid. The DW/DS system provides Iowa Medicaid users with the flexibility to produce reporting without MMIS reprogramming in acceptable formats that do not require manual intervention or data manipulation. The DW/DS

system also maintains the most recent 10 years of claims data from the MMIS. The DW/DS system's relational database includes the full claim record for adjudicated claims and other Member, provider, reference, prior authorization, and encounter data from the MMIS.

- Eligibility Verification Information System (ELVS) performs three primary request and response functions for providers and other authorized users:
 - Recipient eligibility request and response;
 - Claims status request and response; and
 - Provider summary request and response.

The system contains a telephone voice and touch-tone response component and a web portal.

- Institutional and Waiver Authorization and Narrative System (IoWANS) is the Agency home and Community Based Services (HCBS) workflow and slot management system. It assists workers in the facility, HCBS waiver, and targeted case management programs in both processing and tracking applications and authorizations through approval or denial. The IoWANS application is currently used by Income Maintenance Workers (IMWs), case managers, Quality Improvement Oversight (QIO) contractor staff, child health specialty clinics, transition specialists, financial management service authorization staff, Member and provider customer service representatives, and Agency policy staff. It provides authorized users workflows and access to information about a Member. IoWANS also retains data on provider types and the services they are allowed.
- Iowa Medicaid Electronic Records Systems (I-MERS) is a web-based tool that allows treating providers electronic access to up-to-date information about all claims submitted to Iowa Medicaid for all current eligible Medicaid Members. It is used by treating providers to access critical claim information for medical procedures, and other medical care that eligible Medicaid Members have received. I-MERS also assists providers in caring for Members, coordinating their care, reducing costly duplicated services, and assisting in maintaining high quality care for Medical Members.
- Iowa Medicaid Portal Access System (IMPA) provides access to a wide range of business functions from viewing and downloading remittance advices to uploading documents for provider reenrollment and critical incident reporting. Managed Care Organizations and Iowa Medicaid Member Services use IMPA to view eligibility, enrollment, and LTSS information that is specific to a Member. The source of this data originates from OnBase, Iowa Automated Benefits Calculation (IABC), DW/DS, and Worker Information System Exchange (WISE).
- Medicare buy-in (Buy-In) system displays Medicare Parts A and B buy-in information and history.
- Premium Payment System (PPS) creates invoices for billing and processes payments received from Members. Member Services uses the system to assist Members who inquire about payments and apply for hardships as needed.
- Title XIX system is primarily a translator for the MMIS, transforming data from other medical systems into a consumable format for the MMIS. Moreover, TXIX acts as a part of the eligibility enrollment process by choosing the most advantageous plan for new Members. TXIX captures eligibility data from the Eligibility Integrated Application Solution (ELIAS), Medicaid Presumptive Eligibility Portal (MPEP), Family Planning Program (FPP), and IABC systems, runs through a hierarchy, and then sends it to MMIS.

A summary of professional and system services contracts and their primary business functions are listed in Table 1.

Definitions Specific to this RFP

"Cloud Computing" means for security and privacy requirements, the Agency follows the National Institute of Standards and Technology (NIST) definition of cloud computing as "a model for enabling networks, servers, storage, applications, and services) that can be rapidly provisioned and released with minimal management effort or service provider interaction." NIST has identified five essential characteristics of cloud computing: on-demand service, broad network access, resource pooling, rapid elasticity, and measured service.

Types of service models are:

1. *Software as a Service (SaaS)*: The capability provided to the Agency to use the provider's applications running on a cloud infrastructure. The applications are accessible from various client devices through a thin client interface such as a web browser (e.g. web-based email). The Agency does not manage or control the underlying cloud infrastructure including network servers, operating systems, storage, or even individual application capabilities, with the possible exception of limited user specific application configuration settings,
2. *Platform as a Service (PaaS)*: The capability provided to the Agency is the ability to deploy onto the cloud infrastructure consumer-created or acquired applications created using programming languages and tools supported by the provider. The Agency does not manage or control the underlying cloud infrastructure including network, servers, operating systems, or storage, but has control over the deployed applications and possibly applications hosting environment configurations, an

Cloud computing is defined as having several deployment models, each of which provides distinct trade-offs for agencies which are migrating applications to a cloud environment. NIST defines the cloud deployment models as follows:

1. *Private cloud.* The cloud infrastructure is operated solely for an organization. It may be managed by the organization or a third party and may exist on premise or off premise.
2. *Community cloud.* The cloud infrastructure is shared by several organizations and supports a specific community that has shared concerns (e.g., mission, security requirements, policy, and compliance considerations). It may be managed by the organizations or a third party and may exist on premise or off premise.
3. *Public cloud.* The cloud infrastructure is made available to the general public or a large industry group and is owned by an organization selling cloud services.
4. *Hybrid Cloud.* The cloud infrastructure is a composition of two or more clouds (private, community, or public) that remain unique entities but are bound together by standardized or proprietary technology that enables data and application portability (e.g., cloud bursting for load balancing between clouds).

The determination of whether or not to disqualify a proposal and not consider it for award of a contract for any of these reasons, or to waive or permit cure of variances in Bid Proposals, is at the sole discretion of the Agency. No Bidder shall obtain any right by virtue of the Agency's election to not exercise that discretion. In the event the Agency waives or permits cure of variances, such waiver or cure will not modify the RFP specifications or excuse the Bidder from full compliance with RFP specifications or other contract requirements if the Bidder enters into a contract.

2.14 BID PROPOSAL CLARIFICATION PROCESS.

The Agency may request clarifications from Bidders for the purpose of resolving ambiguities or questioning information presented in the Bid Proposals. Clarifications may occur throughout the Bid Proposal evaluation process. Clarification responses shall be in writing and shall address only the information requested. 2.15 VERIFICATION OF BID PROPOSAL CONTENTS.

The contents of a Bid Proposal submitted by a Bidder are subject to verification.

2.16 REFERENCE CHECKS.

Such other sources may include subject matter experts.

2.18 CRIMINAL HISTORY AND BACKGROUND INFORMATION.

The Agency reserves the right to conduct criminal history and other background investigations of the Bidder, its officers, directors, shareholders, or partners and managerial and supervisory personnel retained by the Bidder for the performance of the resulting contract. The Agency reserves the right to conduct criminal history and other background investigations of the Bidder's staff and subcontractors providing services under the resulting contract.

2.19 DISPOSITION OF BID PROPOSALS.

Opened Bid Proposals become the property of the Agency and will not be returned to the Bidder. Upon issuance of the Notice of Intent to Award, the contents of all Bid Proposals will be in the public domain and be open to inspection by interested parties subject to exceptions provided in Iowa Code chapter 22 or other applicable law.

2.20 PUBLIC RECORDS AND REQUEST FOR CONFIDENTIAL TREATMENT.

Original information submitted by a Bidder may be treated as public information by the Agency following the conclusion of the selection process unless the Bidder properly requests that information be treated as confidential at the time of submitting the Bid Proposal. See the Bid Proposal Formatting Section for the proper method for making such requests. The Agency's release of information is governed by Iowa Code chapter 22. Bidders are encouraged to familiarize themselves with Chapter 22 before submitting a Bid Proposal. The Agency will copy public records as required to comply with public records laws.

The Agency will treat the information marked confidential as confidential information to the extent such information is determined confidential under [Iowa Code chapter 22](#) or other applicable law by a court of competent jurisdiction. However, the Bidder shall certify by signing and returning RFP Attachment B its understanding that any Agency references to Bid Proposal information marked confidential made during the evaluation process may become part of the public domain.

In the event the Agency receives a request for information marked confidential, written notice shall be given to the Bidder seventy-two (72) hours prior to the release of the information to allow the Bidder to seek injunctive relief pursuant to Iowa Code § 22.5 or 22.8.

The Bidder's failure to request confidential treatment of material pursuant to this section and the relevant law will be deemed, by the Agency and State personnel, as a waiver of any right to confidentiality that the Bidder may have had.

2.21 COPYRIGHTS.

By submitting a Bid Proposal, the Bidder agrees that the Agency may copy the Bid Proposal for purposes of facilitating the evaluation of the Bid Proposal or to respond to requests for public records. By submitting a Bid Proposal, the Bidder acknowledges that additional copies may be produced and distributed, and represents and warrants that such copying does not violate the rights of any third party. The Agency shall have the right to use ideas or adaptations of ideas that are presented in the Bid Proposals.

2.22 RELEASE OF CLAIMS.

By submitting a Bid Proposal, the Bidder agrees that it shall not bring any claim or cause of action against the Agency based on any misunderstanding concerning the information provided herein or concerning the Agency's failure, negligent or otherwise, to provide the Bidder with pertinent information as intended by this RFP.

2.23 RESERVED.

2.24 NOTICE OF INTENT TO AWARD.

Notice of Intent to Award will be sent to all Bidders that submitted a Bid Proposal by the due date and time. The Notice of Intent to Award does not constitute the formation of a contract between the Agency and the apparent successful Bidder.

2.25 ACCEPTANCE PERIOD.

The Agency shall make a good faith effort to negotiate and execute the contract. If the apparent successful Bidder fails to negotiate and execute a contract, the Agency may, in its sole discretion, revoke the Notice of Intent to Award and negotiate a contract with another Bidder or withdraw the RFP. The Agency further reserves the right to cancel the Notice of Intent to Award at any time prior to the execution of a written contract.

2.26 REVIEW OF NOTICE OF DISQUALIFICATION OR NOTICE OF INTENT TO AWARD DECISION.

Bidders may request reconsideration of either a notice of disqualification or notice of intent to award decision by submitting a written request to the Agency:

Bureau Chief

Department of Health and Human Services
Lucas State Office Building
321 E 12th Street
Des Moines, Iowa 50319-0075
email: reconsiderationrequest@dhs.state.ia.us

The Agency must receive the written request for reconsideration within five days from the date of the notice of disqualification. The written request may be emailed or delivered by postal service or other shipping service. Do not deliver any requests for reconsideration to the office in person. It is the Bidder's responsibility to ensure that the request for reconsideration is received prior to the deadline. Postmarking or submission to a shipping service by the due date shall not substitute for actual receipt of a request for reconsideration by the Agency.

The request for reconsideration shall clearly and fully identify all issues being contested by reference to the page and section number of the RFP. If a Bidder submitted multiple Bid Proposals and requests that the Agency reconsider a notice of disqualification or notice of intent to award decision for more than one Bid Proposal, a separate written request shall be submitted for each. At the Agency's discretion, requests for reconsideration from the same Bidder may be reviewed separately or combined into one response. The Agency will expeditiously address the request for reconsideration and issue a decision. The Bidder may choose to file an appeal with the Agency within five days of the date of the decision on reconsideration in accordance with 441 IAC 7.41 et seq.

2.27 DEFINITION OF CONTRACT.

The full execution of a written contract shall constitute the making of a contract for services and no Bidder shall acquire any legal or equitable rights relative to the contract services until the contract has been fully executed by the apparent successful Bidder and the Agency.

2.28 CHOICE OF LAW AND FORUM.

This RFP and the resulting contract are governed by the laws of the State of Iowa without giving effect to the conflicts of law provisions thereof. Changes in applicable laws and rules may affect the negotiation and contracting process and the resulting contract. Bidders are responsible for ascertaining pertinent legal requirements and restrictions. Any and all litigation or actions commenced in connection with this RFP shall be brought and maintained in the appropriate Iowa forum.

2.29 RESTRICTIONS ON GIFTS AND ACTIVITIES.

Iowa Code chapter 68B restricts gifts that may be given or received by state employees and requires certain individuals to disclose information concerning their activities with state government. Bidders must determine the applicability of this Chapter to their activities and comply with the requirements. In addition, pursuant to Iowa Code § 722.1, it is a felony offense to bribe or attempt to bribe a public official.

2.30 EXCLUSIVITY.

Any contract resulting from this RFP shall not be an exclusive contract.

2.31 NO MINIMUM GUARANTEED.

The Agency anticipates that the selected Bidder will provide services as requested by the Agency. The Agency does not guarantee that any minimum compensation will be paid to the Bidder or any minimum usage of the Bidder's services.

2.32 USE OF SUBCONTRACTORS.

The Agency acknowledges that the selected Bidder may contract with third parties for the performance of any of the Contractor's obligations. The Agency reserves the right to provide prior approval for any subcontractor used to perform services under any contract that may result from this RFP.

2.33 BIDDER CONTINUING DISCLOSURE REQUIREMENT.

To the extent that Bidders are required to report incidents when responding to this RFP related to damages, penalties, disincentives, administrative or regulatory proceedings, founded child or dependent adult abuse, or felony convictions, these matters are subject to continuing disclosure to the Agency. Incidents occurring after submission of a Bid Proposal, and with respect to the successful Bidder after the execution of a contract, shall be disclosed in a timely manner in a written statement to the Agency. For purposes of this subsection, timely means within thirty (30) days from the date of conviction, regardless of appeal rights.

This section describes the information that must be in the Technical Proposal. Bid Proposals should be organized into sections **in the same order provided here**. Bid Proposals should use tabs to separate each section. If a Bidder chooses to provide information in attachments to respond to any section below, please create a new tabbed attachment section immediately behind the applicable section. For example, to add attachments related to information asked for in Section 3.2.3 Information to Include Behind Tab 3: Bidder’s Approach to Meeting Deliverables, the Bidder would create a new tab in the Technical Proposal that is called Tab 3 attachments and place the attachment(s) there. Bidder's planned approach to meeting each contractor Deliverable immediately after restated text. Bid responses should provide sufficient detail so that the Agency can understand and evaluate the Bidder's approach and should not merely repeat the Deliverable.

Bidders are given wide latitude in the degree of detail they offer or the extent to which they reveal plans, designs, examples, processes, and procedures. Bidders do not need to address any responsibilities that are specifically designated as Agency responsibilities.

Note:

Responses to Deliverables shall be in the same sequence as presented in the RFP.

Form letters of reference that do not elaborate on the Bidder's performance under the specific relationships addressed in the reference letter may negatively impact the Bidder's evaluation/score. Persons who are currently employed by the Agency are not eligible to be references.

3.2.4.4 Subcontractor Management

3.2.5 Information to Include Behind Tab 5: Personnel.

Section 4 Evaluation Of Bid Proposals

4.1 INTRODUCTION.

This section describes the evaluation process that will be used to determine which Bid Proposal provides the greatest benefit to the Agency. When making this determination, the Agency will not necessarily award a contract to the Bidder offering the lowest cost to the Agency or to the Bidder with the highest point total. Rather, a contract will be awarded to the Bidder that offers the greatest benefit to the Agency.

4.2 EVALUATION COMMITTEE.

The Agency intends to conduct a comprehensive, fair, and impartial evaluation of Bid Proposals received in response to this RFP. In making this determination, the Agency will be represented by an evaluation committee.

4.3 PROPOSAL SCORING AND EVALUATION CRITERIA.

The evaluation committee will use the method described in this section to assist with initially determining the relative merits of each Bid Proposal.

4.3.1 Scoring Guide. Points will be assigned to each evaluation component as follows, unless otherwise designated:

4	Bidder has agreed to comply with the requirements and provided a clear and compelling description of how each requirement would be met, with relevant supporting materials. Bidder's proposed approach frequently goes above and beyond the minimum requirements and indicates superior ability to serve the needs of the Agency.
3	Bidder has agreed to comply with the requirements and provided a good and complete description of how the requirements would be met. Response clearly demonstrates a high degree of ability to serve the needs of the Agency.
2	Bidder has agreed to comply with the requirements and provided an adequate description of how the requirements would be met. Response indicates adequate ability to serve the needs of the Agency.
1	Bidder has agreed to comply with the requirements and provided some details on how the requirements would be met. Response does not clearly indicate if all the needs of the Agency will be met.
0	Bidder has not addressed any of the requirements or has provided a response that is limited in scope, vague, or incomplete. Response did not provide a description of how the Agency's needs would be met.

Points will be assigned to each evaluation component as follows, unless otherwise designated:

4.3.2 Technical Proposal Components When Bid Proposals are evaluated, the total points for each component are comprised of the component's assigned weight multiplied by the score the Bid Proposal earns. Points for all components will be added together. The evaluation components, including maximum points that may be awarded, are as follows:

<u>Technical Proposal Components</u>	<u>Weight</u>	<u>Score (0-4)</u>	<u>Potential Maximum Points</u>

4.3.3 Scoring of Cost Proposal Pricing.

Attachment F: Cost Proposal pricing will be the amount listed as the “Grand Total for the Entire Project”. Cost Proposal pricing will be scored based on a ratio of the lowest Cost Proposal versus the cost of each higher priced Bid Proposal. Under this formula, the lowest Cost Proposal receives all the points assigned to pricing. A Cost Proposal twice as expensive as the lowest Cost Proposal would earn half of the available points. The formula is:

Weighted Cost Score = (price of lowest Cost Proposal/price of each higher priced Cost Proposal) X (points assigned to pricing)

Total Points Assigned to Pricing: 900

Total Points Possible for Technical and Cost Proposals: 3,300 + 900 = 4,200

4.4 RECOMMENDATION OF THE EVALUATION COMMITTEE.

The evaluation committee shall present a final ranking and recommendation(s) to the Division Administrator for consideration. In making this recommendation, the committee is not bound by any scores or scoring system used to assist with initially determining the relative merits of each Bid Proposal. This recommendation may include, but is not limited to, the name of one or more Bidders recommended for selection or a recommendation that no Bidder be selected. The Division Administrator shall consider the committee’s recommendation when making the final decision but is not bound by the recommendation.

4. No attempt has been made or will be made by the Bidder to induce any other Bidder to submit or not to submit a Bid Proposal for the purpose of restricting competition;

B. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION -- LOWER TIER COVERED TRANSACTIONS

By signing and submitting this Bid Proposal, the Bidder is providing the certification set out below:

1. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the Bidder knowingly rendered an erroneous certification, in addition to other remedies available to the federal government the Agency or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
2. The Bidder shall provide immediate written notice to the person to whom this Bid Proposal is submitted if at any time the Bidder learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.
3. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principle, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this Proposal is submitted for assistance in obtaining a copy of those regulations.
4. The Bidder agrees by submitting this Proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the Agency or agency with which this transaction originated.

A participant may decide the method and frequency by which it determines the eligibility of its principals. 8. Except for transactions authorized under paragraph 4 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the federal government, the Agency or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
