The Pcard is a VISA credit card issued by U.S. Bank to allow authorized employees to make purchases on behalf of the State. It is a faster, more convenient alternative to traditional invoicing and remittance processing, allowing US Bank to pay the Contractor directly, generally within 48 hours of the transaction.

Contractor(s) shall comply with security measures for Pcard payments including:

- Contractor shall comply with the most current Payment Card Industry Data Security Standard (PCI DSS) to assure confidential card information is not compromised;
- Contractor shall adhere to Fair and Accurate Credit Transactions Act requirements that limit the amount of consumer and account information shared for greater security protection;
- When accepting orders online, Contractor shall ensure Internet orders are processed via secure websites, featuring Verisign, TRUSTe, BBBOnline, or "https" in the web address;
- When accepting orders by phone, Contractor shall send itemized receipts (excluding card numbers) to the cardholder by fax, email, or mail (with delivery);
- Contractor shall process payment for items when an order is placed only for items currently in stock and available for shipment, and only for services already rendered;
- Contractor shall confirm that the name of purchaser matches the name on the card;
- Contractor shall shred any documentation with credit card numbers.

For additional information, see the State of Iowa Purchasing Card Policy and Procedures Manual, or visit the State Pcard website.

Indicate agreement in the text box or state the reason for the exception and set forth the specific RFB terms and conditions, Contractor proposes to include in place of the provision.
