ORDERING AND PRICING GUIDELINES

An order is defined as a single purchase order shipping to a single destination.

All pricing is predicated on factory sourced orders - retail and on line purchases are not eligible for these special discount rates.

Actual manufacturer-imposed surcharges and/or fees may be applied to product pricing and/or final quoted pricing.

** Pricing tiers are determined by the total list price of all product offered within a single brand. The aggregate total determines the pricing tier, and as applicable - the corresponding discount percent applies for product categories for that single brand. The aggregate order total reflecting a combination of brands is not applicable when determining volume tiers.

**Brands may be combined on a single purchase order to streamline the order process and eliminate the need to generate multiple purchase orders -- but tiered pricing is based on the total list price per BRAND.

**Full line catalogs, cut sheets, specification, color & finish cards are available on request.

** Discounts are applied to the current list price in effect at time of order.

The "Tailgate Dock Delivered" pricing column can only be selected as a pricing tier for factory direct shipments when the following criteria is met. The end user must have a formal, functional and accessible Receiving Dock and staff is available to assist in the off-load of product. LTL carriers do not provide assistance in the off-load of product or assist in moving product from a "drop spot" inside a building structure. Please understand that IF a formal dock is not available and if manpower resources are not provided to assist in the offload of product to an internal staging area with a building structure - we cannot process your order to ship direct from the factory to your site.
