

**AMENDMENT No. 1
TO MA20171 FOR
ELECTRIC VEHICLE CHARGING STATIONS**

This Amendment No. 1 (this “Amendment”) to the Contract Number MA20171 and incorporated attachments (the “Master Agreement”) dated December 5, 2019, is made and entered into as of May 22, 2020 (“Effective Date”), by and between LilyPad EV LLC (“Contractor”), and the State of Iowa - Iowa Department of Administrative Services (the “State”; together with the Contractor, the “Parties”).

NOW, THEREFORE, the Parties herein agree to amend the Master Agreement as follows:

1. Fast DC Stations

- Lower power Fast DC stations (CPE100, CPE200, and CPE250-50kW version) are no longer manufactured by ChargePoint and are deleted from the Contract.
- The CPE250 Fast DC station is added to the Contract as a replacement for the lower power Fast DC Stations.

2. Fleet Stations

CPF25 fleet stations are replaced in the Contract by the CPF50 set of stations which have a higher power capability.

3. CT4000 Stations

CT4000 stations are only available in Gateway versions and the non-gateway versions are discontinued.

4. Network and Assure Structure

Changes in network and Assure structure and pricing from ChargePoint is shown in the updated price sheet.

5. Station Activations

All station activations must now be done by ChargePoint.

Except as set forth in this Amendment, all terms of the Master Agreement remain effective and are hereby reaffirmed unless expressly altered by this Amendment.

IN WITNESS WHEREOF, the Parties have caused this Amendment to be executed by their respective duly authorized representatives as of the date set forth above.

Manufacturer	Order Code	Product Description	IOWA PRICE (includes shipping)
	Make Ready and Installation Services		
LilyPad EV	LPEV-SitePrepInstall	LilyPad EV's electrical subcontractor will bring power to site of charging station(s) and prepare mounting base(s). Based on input from the electrical subcontractor after a visit to the site, LilyPad EV will provide a site prep and installation scope and price quote to the customer. Each location is different, so a cost cannot be provided until the site survey has been completed. EV Parking Signs and EV Parking Lot painting can be included in the scope if the customer wishes.	
	CT4000 Charging Stations	These Level 2 stations are for public facing installations. They can also be used to charge fleet vehicles, or both public and fleet vehicles.	
ChargePoint	CT4011-GW1	Single Output, Gateway, Bollard Unit - 208/240V @30A with Cord Management	\$3,842
