CommandCenter AutoTrac Activations are one time non-transferrable and only function with Generation 4 CommandCenter displays. The CommandCenter AutoTrac Activations will be activated at the factory.

GreenStar 3 (GS3) activations only function with GS3 displays. Dealer or distributor is required to activate GS3 AutoTrac and iTEC Pro Activations, referencing the tractor order number.

Accuracy is dependent on the receiver signal level. Generation 4 CommandCenter AutoTrac, AutoTrac - GreenStar 3 (GS3), and AutoTrac - GS3 with iTEC Pro Activations are compatible with StarFire 1 (SF1), StarFire 2 (SF2), or Real-Time Kinetic (RTK).

Field installed activations are available through the AMS prices pages. Warranty on all activations will be handled by AMS and will carry normal AMS warranty terms. Option availability limited by specific geographical regions. Please refer to region specific price pages for appropriate ordering codes.
