National Pricing Discount

For each item listed on the National Priceing Tab, Offerors are encouraged to provide a discount off of a verifiable price list by all manufacturers proposed. For example, Group 2, Item 5 is Keyboards. Offeror(s) may wish to propose more than one manufacturer of keyboards, such as Logitech, Fellows, Belkin, Kensington, Tripplite, Dell, HP, Apple, etc. Offeror(s) should provide a separate discount for each manufacturer being proposed. Offeror(s) should add additional columns to the pricing page(s) in order to accommodate additional manufacturers' discounts. In addition to indicating your proposed discounts, you must also apply those discounts to the sample items in the City of Mesa Market Basket tab (below).

A. Propose a national discount off list price pricing structure. These are the minimum discounts Supplier will offer to Participating Agencies.

CDW•G is pleased to offer the City of Mesa and OMNIA Partners Participating Public Agencies a discount off CDW•G Nationally Advertised Pricing (NAP) structure for all Products in Attachment A. The percentages represent the minimum discounts the City of Mesa and OMNIA Partners Participating Public Agencies will benefit from for the duration of the contract. On a case-by-case basis and for large rollouts/projects, CDW•G will work with OMNIA Partners Participating Public Agencies to provide deeper discounts.

The benefit of using CDW+G's NAP is that it is a publicly available (24/7) and verifiable price schedule, and you can feel confident that its pricing is both up-to-date and competitive.

We have continued to see the technology solutions evolve and OMNIA Partners Participating Public Agencies' diverse needs change. Cloud offerings are constantly evolving and increasingly complex, with a range of subscription and consumption-based offerings, SaaS, IaaS, PaaS, among others. CDW•G's pricing is based on Discount 0% off MSRP where available to CDW•G. In cases where MSRP pricing is not available and/or the offering is unique, pricing will be based on CDW•G invoiced price. This structure provides the necessary flexibility to enable the City of Mesa and OMNIA Partners Participating Public Agencies to make purchases of offerings, as cloud offerings evolve, through the life of our contract.

For Services under group 11, we have included rate cards with hourly rates. For group 12 and other specialized offerings not specifically contemplated in this RFP but existing under the scope of Technology offerings, CDW•G and OMNIA Partners Participating Public Agencies will mutually agree upon/execute document, such as a Statement of Work (SOW), and pricing will be based on CDW•G invoice.

Prices include lowest ground freight within the 48 contiguous United States when referencing this Agreement. All orders are subject to CDW•C's standard shipping policies in effect at the time of order placement. In those instances that call for express or overnight delivery, shipping costs will be pre-paid by CDW•G and added to the customer invoice.

Our offer is based on our response submitted on December 20, 2023, to the exceptions outlined in Exhibit A, Response for National Cooperative Contract and Exhibit B, Administration Agreement, Example.

B. Describe the catalog or index that discounts will be taken.

CDW•G publishes, maintains, and provides access to NAP at www.cdwg.com available 24/7. The single most important parameter in a price model is the reference point from which discounts are calculated.

The City and OMNIA Partners Participating Public Agencies can trust that the pricing is competitive with other large-scale contracts. As stated above, by tying your pricing to the CDW•C's NAP reference point, we ensure real-time market-based competitive pricing for purchases over the life of the agreement. To ensure our competitiveness, CDW•G monitors competitive pricing, market trends, supply chain forecasts, and a holistic view of the IT marketplace to ensure our NAP pricing benefits the City of Mesa and OMNIA Partners Participating Public Agencies. CDW•G's proprietary technologies along with dedicated pricing experts ensure CDW•G's NAP pricing is adjusted to be price competitive.

C. Describe any special manufacturer pricing available to Participating Agencies.

CDW•G's catalog offers access to all manufacturers. As a \$25 billion solution provider, we have strong partnerships with the largest and most innovative manufacturers. This ensures our NAP pricing for all the manufacturers is inclusive of our economies of scale, relationship, and position in the marketplace. For specific scenarios, such as large volume purchases/projects, CDW•G will work with the manufacturers to secure deeper discounts. Analyzing the purchase history of the City of Mesa and OMNIA Partners Participating Public Agencies, we are confident in our ability to continue to work with your preferred manufacturers to provide a competitive offering through the life of the contract.

D. Describe any special large order or large customer pricing or additional discounts available to Participating Agencies.

CDW•G has worked with numerous OMNIA Partners Participating Public Agencies during the current contract to obtain deeper discounts and account for budget constraints. In addition, we take advantage of manufacturer promotions, and volume purchases to provide maximum benefit to the City of Mesa and the OMNIA Partners Participating Public Agencies.

E. Describe any products offered by Supplier that are not captured in the pricing matrix below. Describe how Supplier proposes to price those items.

As technology offerings are constantly evolving, and becoming increasingly complex, specialized requirements not contemplated under this RFP, will be identified in a Statement of Work or similar document(s) and mutually agreed/executed between CDW•G and OMNIA Partners Participating Public Agencies. The pricing will be determined based on CDW•G invoiced price.

CDW•G- City of MESA- Contract Pricing Structure & Management

CDW•G has conformed to the National Pricing Discount structure aligning to the table above- However, CDW•G will manage the resultant contract in accordance with CDW•G's taxonomy in tables below, which shall govern all purchases under the resultant contract -This provides complete representation of CDW•G's offerings aligned with the scope of the RFP, while maintaining continuity for the City and OMNIA PPA's under the incumbent contract.

Pricing will be applied to the resultant contract, as listed in the tables below- Table 1 is based on Discount % off CDW•G's Nationally Advertised Pricing (NAP), publicly verifiable at www.cdwg.com. Additionally, certain Groups and Products such as Cloud offerings under Group 10, Services pricing under Group 11 and Group 12 are highlighted under Table 2 and 3.

CDW•G is pleased to offer the City of Mesa and OMNIA Partners Participating Public Agencies ("PPA") a discount off CDW•G Nationally Advertised Pricing (NAP) structure.

Cloud offerings are constantly evolving and increasingly complex, with a range of subscription and consumption-based offerings, SaaS, IaaS, PaaS, among others. CDW•G's pricing is based on Discount 0% off MSRP where available to CDW•G. In cases where MSRP pricing is not available and/or the offering is unique, pricing will be based on CDW•G invoiced price. This structure provides the necessary flexibility, to enable the City of Mesa and OMNIA Partners Participating Public Agencies to make purchases offerings, as cloud offerings evolve, through life of our contract.

The City of Mesa and OMNIA Partners Participating Public Agencies acknowledge that CDW•G is not the provider of the Cloud Services and in purchasing the Cloud Services, City of Mesa, OMNIA Partners, and Participating Public Agencies rely only on the Cloud Service.

Provider's service descriptions and the terms and conditions set forth in the Cloud Provider's Services Terms and Conditions. Accordingly, City of Mesa and OMNIA Partners shall consider the Cloud Service Provider to be the party responsible for providing the Cloud Services and City of Mesa, OMNIA Partners, and its members/participating entities, may be required to execute additional agreements, prior to provisioning/purchase of certain cloud offering CDW•G will provide Customer with a discount as a percentage off of CDW•G's Nationally Advertised Price (NAP) for the CDW•G defined Product Categories listed above, provided that Customer references this Agreement when placing an order with CDW•G.

Prices include lowest ground freight within the 48 contiguous United States when referencing this Agreement. All orders are subject to CDW•G's standard shipping policies in effect at the time of order placement. In those instances that call for express or overnight delivery, shipping costs will be pre-paid by CDW•G and added to the customer invoice.

Clarifications

*These are services tied to CDW•G internal taxonomy J and Q, which includes subset of offerings such as configurations, warranty, and specific installation services, and are not subject to a Statement of Work. These do not include the services broken out in the individual tabs, including other professional services, which require a mutually executed Statement of Work between CDW•G and Customer.

Table 2

For group 12, specialized offerings not specifically contemplated under this RFP but existing under the scope of Technology offerings, CDW•G and OMNIA PPA will mutually agree upon/execute document₇ such as a Statement of Work (SOW), and pricing will be based on CDW•G invoice.

Table 3

For Services under Group 11, we have included rate cards with hourly rates/services pricing for the following categories:

| Digital Velocity Services |
|-----------------------------|
| ServiceNow Services |
| Amplified IT Services |
| Staff Augmentation Services |
| Managed Services |
| Other Professional Services |

For all hourly rates proposed by CDW•G in this pricing file and contained within our proposal, our offer is contingent on a 5% year over year escalation, on the contract's annual anniversary date, which will act as a not to exceed rate. Given the timespan between submission and official award and contract start dates, CDW•G reserves the right to impose up to an additional, one-time 5% increase in the first year of this agreement on or after May 1, 2024 to ensure alignment with standard rate adjustments.

CDW•G has been very successful in managing labor rates during unstable market conditions including taking advantage of our vast in-house, in-market resources and certified, approved subcontract pool while also leveraging remote services, where practical and applicable. During the contract term, CDW•G reserves the right to propose changes to labor rate categories to reflect extraordinary market conditions which might impact labor rates and present to City of Mesa and OMNIA Partners for review and approval. City of Mesa and OMNIA Partners will review and approve such rates through a mutually agreed upon amendment no later than 30 calendar days upon presentation.

Services requiring a specific Statement of Work (SoW) must be mutually executed between the customer and CDW•G before work begins. We have provided a sample SoW at the end of Tab E in our response.

For any service engagement, if there are applicable Travel and Expenses (T&E) charges, they will be agreed and mutually executed upon in a comprehensive Statement of Work. However, CDW•G will utilize its national footprint of service providers and in-market engineers. We also utilize remote technologies and services where applicable to mitigate such expenses.

*CDW•G is pleased to offer the City of Mesa and OMNIA Partners Participating Public Agencies ("PPA") a discount off CDW•G Nationally Advertised Pricing (NAP) structure. The values in this column represent CDW•G NAP.

** *Please Note:* These prices represent the maximum prices the City of Mesa ("City") and OMNIA PPAs will pay based on the CDW•G NAP at the time of submission. CDW•G has a documented history of leveraging our partner relationships to provide deeper discounts to PPA on a case-by-case basis, and for large rollouts/projects.

***The highlighted rows in the above table identify items for which we were unable to provide pricing. Where possible, we have identified a replacement product; replacement product information available in columns K & L.
